COLUMBIA NURSERY, and examine the stock, and also, compare the prices with those of other establish-ments. We offer Apple and Peach trees at about one-half the prices of other Nurseries who supply this section of country with trees, Also all other fruit and ornsmental trees, Shrubbery, Roses, Green and Hot-house plants, dc., at a much lower figure than any other reliable Nursery in this vi-cinity. We have over 25,000 Apple trees of suitable size for planting, from threes to seven years old, comprising all the leading varieties, the choicest new western varie-ties collected from seedling trees by our-selves, which are now offered for sale, for the first time. They need no other recom-mendation for the desirable quality of their fruits than this: Four years ago we exhi-bited nine varieties of Apples at the Lan-caster Co. Fair, which took the first pre-mium. Seven of those varieties were fruit of the original (supposed to be) seedling trees, from which the stock we new offer for sale were propegated from. Mr. J. B. Is The Vital Principle of the Pine Tree,

OBTAINED by a peculiar process in the distillation of the tar, by which its high-est modical properties are retained.

Have For a Cough! Have Fou a Sore Throat Have you say of the premonitory symptoms of that most fatal disease, Con-sumption ?

These who should be warned by these symptoms generally think lightly of them until it is too late. From this fact, perhaps more than any other, arises the sed prove-lence and fatality of disease which sweiger to the grave at least "one sixth" of deaths include

Communition has destroyed more of the human family than any other diseased and the bast physicians for many years have despaired of a care, or a remedy that would heal the lungs, but for more than two hun-dred years the whole medical world has been impressed that there was a investorions power and efficiency in the Pine three Tar-to heal the lungs; therefore they have re-commended the use of Tar Water, which in many cases had a good effect; but how to combine the medical properties so as to heat the lungs, has ever been a sinystery until it was discovered by Dr. I. Q. C. WISHART, of Philadelphia, Pa., the pro-prietor of "Wishart's Pine Tree Cordial,"

Many, not only of the people, but phys-icians of every school and practice, are daily asking me "What is the principle or cause of your success in the treatment of Petmo-nary Consumption ?" My answer is this:

The invigoration of the digestive organs —the errorgianing of the debilitated system —the purylocation and enviolment of the blood, must exped from the system the cor-ruption which scrofuls breeds. While this is effected by the powerful alterative (chang ing from disease to health) properties of the Tar Cordial, its healing and removating principle is also acting superity. the Tar Cordial, its healing and renovating principle is also acting upon the initated surfaces of the times and threat, pensitra-ting to each discussed part, relieving pain, subdating inflamation, and restoring a healthful tandeacy. Let this two-fold pow-er, the healing and the strengthening, con-tinue to act in conjunction with Nature's constant recuperative tendency; and the patient is saved, if he has not too long de-isyed a resort to the means of cure.

I ask all to read the following cirtificates. They are from man and women of unques-ionable worth and reputation :

Dr. Wishart's Pine Tree Tar Cordial is an infalliable cure for Brondlifia, Bleeding of the Longs, Sore Throat and Reast, In-familion of the Lyngs \* \* \* \* \* "Those who are
