with some foreboding.

the vast body of our other mineral wealth God of goodness and grace "who knows is still undeveloped. We have fertile how to temper the wind to the shorn lands enough for an Empire, that the plow lamb," sanctify this afflicting dispensahas never touched, and it is only in this tuon of Providence, to the spiritual good generation that science and art have fairly of his afflicted wife and friends. begun to open the doors, and show the way towards our future material greatness.

But experience of what others have done, will best tell us what we may right-Tally expect to do. Let us compare our position with that of Great Britain during one of the gloomiest periods of her financial history. At the end of her great wars in 1816, her wealth was estimated at ten thousand four hundred millions. 10,400,000,000) and her national debt of that time was four thousand three hunded millions, (\$4,300,000,000) or more than 41 per cent. of her entire property. In 1861 he property was stated at thirtyone thousand five hundred millions, (\$31, 500,000,000) while her debt was three .housand eight hundred and ninety mil-1 ons, (\$3,850,000,000) or was a change on the property of the country of only about 121 per cent. It needs no arguments to show that the weight of the burden of this debt is now, but one third what it was when contracted.

Debtisalwaysbad'enough, but we should look the facts squarely in the face, and of those who have been disabled in serveccept whatever deductions we have a ling the cause of free Government.

In Mrs. H. W./Miffin Mrs. Henry Pf -pite of the wat we believe the Northorn States are as rich to-day as they were three years ago. Such a demand for labor was never before known, and never before was it so well paid. War destroys, moment assed to create; and the oreation will more than ballance the destruction. Large as our losses of brave and gallant men have been, the population of the country has steadily increased; and unless some scourge, such as never visited a nation should come upon us,-unless we hould be utterly destroyed, or disme bered and broken to pieces, by yielding to this demon Secession,-there is no human power that can arrest our continued progress and development. All wars have cuded, as will ours. Let us hope that it may be soon; but when it is ended, and triumphantly as it must be, this country is bound to take a position in population, wealth and vigor, that will make its debt so small in proportion to its wealth, that the most timid man will laugh at the fear that may have once over-clouded his ision.

We again invite the attention of our readers to the Loan advertised in to-day's E K Bolco paper, as being the most popular invest- TR Supple ment of the day.

Officers and privates belonging to the Army of the Potomac now here will have to remain, as there is no conveyance for the front.

The Draft Ordered.

WASHINGTON, May 4 .- The draft to fill up the deficiency still existing in the quotas of the following States has been ordered, viz: Massachusetts, New Jersey, Ohio, Minnesota, Kentucky and Maryland.

The draft will probably soon begin in Pennsylvania in the various delinquent districts. The deficiency is about eighteen thousand.

DANGEROUS ADVERTISING.—The Sci-stove and Egg, Runge, entific American says: we know a man ho does the principal part of his advertising by writing his name and business Stove and Egg, on the back of bank-bills. Perhaps he was not aware that in case those banks, Lump, Stove and Egg, whose notes he thus endorses were to Nut, break, he would be held responsible for the face of the note. Courts have so decided in similar cases.

The Pennsylvania Legislature adjourned its session on Wednesday evening last, the 4th inst., to meet again in August.

Great Central Fair. FOR THE SANITARY COMMISSION.

OFFICE OF THE COMMITTEE ON LABOR, INCOMES AND Revenues, No. 118 Soure for St., Paina., 1800at And Revenues, No. 118 Soure for St., Paina., Aran 4, 1861. The Committee on "Labor, Income And Revenues," invite co-operation with them in the particular work for which they have been appointed. As no portion of the people are more patriotic than the working men and women of the country, it is but just and proper that they should all ke have an opportunity to contribute to the objects of the Fair. The most equable plan for accomplishing this, and, at the same time the easiest one, is to ask for the same time the easiest one, is to ask for the same time the easiest one, is to ask for the same time the casiest one, is to ask for the same time the same time the results of their labor willingly without out in the community. Many will contribute a day of their labor willingly without out in the subscribe their money. To be the over department of industry and art will be a work of great labor, but, if sattained, will be productive of immense resulfs.

The success of the plan will depend upon the hearty co-operation of every element of influence within our limits; and we invite all the guardians of the industrial interests, and all others, to take hold with us in furthering this great work of patriotism and humanity.

The Committee is charged with the follow-

humanity.
The Committee is charged with the follow-The Committees changed ing duty, to wit:
ing duty, to wit:
First,—To obtain the contribution of fone day's labor," or carnings, from every artisan and laborer, foreman, operative and employee; president, eashier, teller and employee; president, and unincorartisan and laborer, foreman, operative and employee; president, cashier, teller and clerk of every incorporated and unincorporated company, railroad and express company, employing firm; bank, manufactory, iron works, oil works, mill, mine and public office; from every, private-banker and broker, importer, auctioneer and merchant; clerk, agent and salesman; designer, finisher and artist; publisher, printer and mechanic; from every government; officer, contractor and employee; grocer, butcher, baker and dealer; farmer, horiculturist and producer; from every mantua maker, baker and dealer; farmer, horieulturist and producer; from every mantus maker, milliner and female operative; every individual engaged in turning the soil, tending the loom, or in any way earning a livelihood, or building a fortune within the States of Ponnsylvania, New Jersey and Delaware. SECOND.—To obtain the contribution of one day's "Revenue." from all the great employing establishments, firms, corporations, companies, railroads and works.

THIRD.—To obtain the contributions of one day's income from every vetered person.

THERD.—To obtain the contributions of one day's income from every retired person, and person of fortune—male and female—living upon their means, and from all elergymen, lawyers, physicians, dentists, editors, authors and professors; all other persons engaged in the learned or other professions.

Much of this work must be performed by the personal influence and efforts of ladies and gentlemen associated, or to be associated with the Committee in carrying out this plan.

with the Committee in carrying out this plan.

The Committee feel the responsibility of the work they have undertaken, which to be successful, will require a very perfect ramification of their plan, and they therefore call upon all earnest people, to assemble themselves together in every town township, and counties, and form organizations of Indies and gentlemen to co-operate with them in this great work and labor of love. In the manufacturing counties, the coal and oil regions, and in the agricultural districts,—especially, let there be organizations in the large towns, so that the young people may have an opportunity thus to render assistance to their relatives and friends fighting the battles of their country in the armies of the nation.

The work of this Committee may be prosecuted where no other effort can be made for the Fair, as in the mines of the coal

The work of this Committee may be prosecuted where no other effort can be made for the Fair, as in the mines of the coal regions. A day's earnings of the mines, and a day's product of the mines, can be obtained, where no portable article could be procured for transportation. Indeed there is no part or section of these States, where the day's labor may not be obtained, iforganizations can be formed to reach them.

The Committee cannot close without urging upon all Proprietors of Pstablishments, the duty of taking prompt and energotic action to secure the benefit of the day of tabor from all within their control.

The Committee deem it unnecessary to do

bor from all within their control.

The Committee deem it unnecessary to do more, than thus to present the subjects to the people of the three States named. In the coming campaigns of our armies, the labors of the "Santiary Commission" will be greatly augmented. By the first of June 700,000 men—one of the largest armies of modern times—will be operating in the field So large a force, scattered over regions to which the men are unacclimated, must never the state of the santiary and the santiary and the santiary army allow with the field.

These sufferings it is our bonden duties, as men and Christians, to relieve. A great and enlightened people, enjoying the blessing of the gatterness of the blessing of the great armies our bonden duties.

These sufficings it is our bonden duties, as men and Christians, to relieve. A great and enlightened people, enjoying the blessings of a government of their own making. comot refuse assistance tomen suffering to maintain its mithority, and we will not believe that the "GREAT CENTRAL FAIR," drawing its products from the three States of Pountylvania, New Jersey and Delaware, so affluent in all mineral, agricultural and industrial wealth, shall fall behind any similar offort which has ye been made for the relief of the Nation's children.

As it is desirable not to multiply circulars; no further authority than this circular.

As it is desirable not to multiply circulars; no further authority than this circular will be necessary for any employing firm or company, or any respectable committee of ladies and gentlemen, to proceed at once, in the work of this committee; and it is hoped that under it, organizations will spring up in all the towns and busy regions of the States of Pennsylvania, Now Jersey and Delaware.

Subscriptions will be thankfully acknowledged in the newspapers of Philadelphia; and it is very desirable that they commence soon, as each fresh acknowledgment. Will stimulate effort in other localities.

All subscriptions should be addressed to JOHN W. CLAGHON. Treasurer, office of the "Committee on Labor, Income and Revenue," No. 118 South Seventh. Street, Philadelphia.

Philadelphia.

AB All needful helps in Circulars and Posters will be forwarded to parties applying for them. Direct to the chairman of the Committee as above.
