Official Bulletin.

WASHINGTON, May 18, 11:15 A. M. We have received no reports of operations since my last despatch. The latest information from General Grant was that the roads had greatly improved. and he designed to move against the enemy without delay.

It is the design of the Government to keep up the National forces until the rebellion is overthrown, and in order to provide against any inopportune replace and all other reductions will be ordered to take place on the first of July, by which time the new enrollment will be completed. No order is yet issued. (Signed) EDWIN M. STANTON,

fact that 4,000 men were killed, about 25,000 wounded, and 5,000 missing-the latter including stragglers and prisoners. It is also stated, on the same accurate authority, that not more than ten per cent. have been dangerously wounded, and that a large number will be ready for the field within the next two weeks.

This statement should go far to soothe the anxiety of thousands who are interested in the fate and condition of those brave defenders of the flag.

At this writing there is nothing important General Grant, has been largely reinforced and he "designed to move against the enemy without delay." An expression which coming from General Grant is equivalent to saying that he was of the "duties of the hour." on the eye of another great battle.

The Sanitary Commission. MR. EDITOR :-Allow us to occupy your columns with a brief description of the efforts for this cause. On Tuesday evening last, by the exertions of the Loand incidents of the battle field and of cal Committee, John B. Bachman, chairman, our .community were favored with a lecture, which proved to be a great treat. Fellows' Hall, and was attended by a large in all the bad weather, that was one fa-and appreciative audience. The Keffer vorable thing for Co. "I" as you said in Orchestra discoursed some of their sweet and thrilling airs, in their usual artistic way, thus adding the charms of music to glowing thoughts clothed in burning words

There was much in the occasion to in- you will. I am by you like the song says spirio patriotism and gratify the taste, but the special charm of the evening was the Lecture, delivered by the Rev. Jno. Cromlish, Pastor of the Protestant Episcopal Church of this place. The lecturer selected as his theme "Success," and proceeded to clucidate the subject in a masterly

The first point which the speaker advocated was "success in preparing for the King, sile and aunt Mary say they success," which he illustrated in a-graphie manners carrying conviction to his hearers with every sentance. Success in business, success in the acquisition of wealth, success in the use of wealth, success in the Government, sucduction when the service of the hundred cess in the family, success in churches, days' men go out, a drast to fill up their &c., were successively taken up and discussed in so plain and common sense a way, that many a one saw exactly where he failed and how.

It were presumtion to attempt to give an adequate idea of this truely interesting lecture which had to be heard to be fully appreciated. There was no attempt at declamation, no dramatic affectations, but every sentence was natural in its construction, and did not possess a printing press of his own hence, the whole seemed to be the spontaneous outburst of truth.

As the result of the lecture, a subscription was taken up, which amounted to from two to three hundred dollars, and have been materially larger.

After listening to a few more National airs by the Orchestra, the audience dispersed for their homes, much pleased with the entertainment, and with better views

The standard staple preparation for the hair, warranted in all cases to restore faded and gray hair, and whiskors, to their original color. It does not claim to make the hair grow in where it has once fallen out; nothing will do that whatever may be advertised to the contrary, but it will provent it from falling out, make it soft and silky, cleanse it and the sealp from impurities and humors, and entirely overcome bad effects of previous use of preparations containing sulphur, sugar of lead, &c. It requires no soaping, washing, and hours for its application, nor will it stain the skin, but is as easily applied and wiped from the skin as any hair dressing. It restores the natural shading of one hair with another, which gives a lively appearance instead of the dum uniform black of dyos.

in currency, and are of equal convenience as a permanent or temporary investment, It is believed that no securities offer so great inducements to lenders as the various descriptions of U.S. Bonds. In all other forms of indebtedness, the faith or ability of private parties or stock companies or separate communities only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both principal and interest in coin.

These Bonds may be subscribed for in sums from \$50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted to be successful, will require a very perfect ramification of their plant, and they there are more at any moment, and the holder sums from \$50 up to any magnitude, on the

It may be useful to state in this connec tion that the total Funded Debt of the United States on which interest is payable in gold, on the 3d day of March, 1864, was \$768,965,000. The interest on this dobt for the coming fiscal year will be \$45,937,126, while the customs revenue in gold for the current fiscal year, ending June 30th, 1864, has been so far at the rate of over \$100,000, 000 per annum.

It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasurer for the payment of gold interest, while the recent crease of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to \$150,000,000

OFFICE OF THE COMMITTEE ON LABOR, INCOMES AND REVENUE, No. 118 SOURT THE ST. LABOS, INCOME AND REVENUES, No. 118 SOURT THE ST. PRILA, APRIL 4, 1864.

The Committee on "LABOR, INCOME AND REVENUES," invite co-operation with them in the particular work for which they have been appointed. As no portion of the people are more particular work for which they have been appointed. As no portion of the people are more particular than the working men and proper that they should affect have an opportunity to contribute to the objects of the Fair. The most equable plan for accomplishing this, and, at the same time the easiest one, is to ask for the contribution of a single DAY'S LABOR, from all classes in the community. Many will contribute a day of their labor willingly, who would not subscribe their, money. Allow reaches wery department of industry and art will be a work of great labor, but, if attained, will be productive of immense results.

The success of the plan will depend upon the hearty co-operation of every element of influence within our limits, and we invite all the guardians of the industrial interests, and all others, to take hold with us in further in is great work of patriotism and REVENUES, NO. 118 Soure 7th St., Phila., April 4, 1864.

and all others, to take hold with us in fur-thering this great work of patriotism and

humanity. The Committee is charged with the follow-

humanity.

The Committee is charged with the following duty, to wit:

First.—To obtain the contribution of one day's labor," or earnings, from every artisan and laborer, foreman, operative and employee; president, cashier, teller and clerk of every incorporated and unincorporated company, railroad and express company, employing firm, bank, manufactory, iron works, oil works, mill, mine and public office; from every private banker and broker, importer, auctioneer and merchant; clerk, agent and salesman: designer, finisher and artist; publisher, printer and mechanic; from every government officer, contractor and employee; grocer, butcher, baker and dealer; farmer, horticulturist and producer; from every mantua maker, milliner and female operative; every individual engaged in turning the soil, tending the loom, or in any way earning a livelihood, or building afortune within the States of Pennsylvania, New Jersey and Delaware.

fessions.

Much of this work must be performed by the personal influence and efforts of ladies and gentlemen associated, or to be associated with the Committee in carrying out this

ramification of their plan, and they therefore call upon all earnest people, to assemble themselves together in every town township, and counties, and form organizations of ladies and gentlemen to co-operate with them in this great work and labor of love. In the manufacturing counties, the coal and oil regions, and in the agricultural districts,—especially, let there be organizations in the large towns, so that the young people may have an opportunity thus to render assistance to their relatives and friends righting the battles of their country in the armies of the nation.

The work of this Committee may be prosecuted where no other effort can be made

The work of this Committee may be prosecuted where no other effort can be made for the Fair, as in the mines of the coal regions. A day's carnings of the mines, and a day's product of the mines, can be obtained, where no portable article could be procured for transportation. Indeed there is no part or section of these States where the day's labor may not be obtained, if organizations can be formed to reach them. The Committee cannot close without urging upon all Proprietors of Establishments, the duty of taking prompt and energetic action to secure the benefit of the day of labor from all within their control.

Jor from all within their control.

The Committee deem it unnessary to do more, than thus to present the subjects to the people of the three States named. In the coming campaigns of our armles, the labors of the "Sinniary Commission" will be greatly augmented. By the first of June 700,000 men—one of the largest armles of modern times—will be operating in the field So large a force, scattered over regions to which the men are unacdimated, must necessarily earry along withit a large amount

which the men are unacelimated, must necessarily carry along withit a large amount of sickness, suffering and death, to say nothing of the gathered horrors of the battle-field.

These sufferings, it isour bonden duties, as men and Christians, to relieve. A great and enlightened people, enjoying the blessings of a government of their own making, cannot refuse assistance to men suffering to maintain its authority, and we will not believe that the "GREAT CENTRAL FAIR," drawing its products from the three States of Penniylvania, New Jersey and Delaware, so affluent in all mineral, agricultural and industrial woulth, shall fal behind any similar effort which has ye been made for the relief of the Nation's

behind any similar effort which has ye been made for the relief of the Nation's children.

As it is desirable not to multiply circulars; no further authority than this circular will be necessary for any employing firm or company, or any respectable committee of ladies and gentlemen, to proceed at once, in the work of this committee: and it is hoped that under it, organizations will spring up in all the towns and busy regions of the States of Pennsylvania, New Jersey and Delaware.

Subscriptions will be thankfully acknowledged in the newspapers of Philadelphia; and it is very desirable that they commence soon, as each fresh acknowledgment will stimulate effort in other localities.

All subscriptions should be addressed to JOHN W. CLACHION. Treasurer, office of the "Committee on Labor, Income and Revenue," No. 118 South Seventh Street, Philadelphia,

22-All needful helps in Circulars and Posters will be forwarded to parties applying for them. Direct to the chairman of the Committee as above.

A Confederate Letter.

I will now tell you something about the Yankees and negroes. They have Stove and Egg, never been out so far as here, no farther Nut. taken several horses, but not any in this taken several horses, but not any in this neighborhood; they took a horse and Range, mule from Mr. Jet Riddick, and a horse Nut, from Mr. Ned Riddick, one from the widow John Holland, one from Burl Copland, and other's that I can't mention.

Aunt Peggy has been down to Amos Badgers, and has seen the sight of the negroes. They have been out as far as there two or three times. She said she saw fifty-two negroes and two whites,

You spoke of the yankees having a large army on the rout to Richmond. We are all expecting to hear of a battle there every day, and to hear of a great loss on our side. I expect you will all have to fight negroes there as well as yankees.-

Oh, Pa, by my asking you not to go in another fight if you could avoid it, was. that you might not have the good luck you have always met with, but I trust

and live in peace and happiness all the palance of our days on this earth. * * Pa, I can't get any raw cotton at all,
