My whole sys-tem was prostrated with weakness and nervous debility; I could not digest my food; if I ate even a cracker or the small-est amount of food, it would return just as I swallowed it; I became so costive in my bowels that I would not have a passage in less than from 4 and other 8 days; under this immense suffering, my mind seemed entirely to give way. I had dreadful hor-ror and evil forbodings. I thought every-body hated me, and I hated everybody; I could not bear my husband nor my own children; everything appeared to be hor-ror stricken to me; I had an ambition to do anything; I lost all my love of family and home; I would ramble and wander from place to place, but could not be con-tented; I felt that I was doomed to hell, and that there was no heaven for me, and Each frown was turned into a smile-She yielded him her heart and hand. Fair Muse, appear, and lend thins aid, Bid all my cloudy fancies fade, And fill me with poetic zeal, That I may think-that I may feel. Teach me the magic of thy power,

And let my lowly fancy tower Into thy realm of wondrous light. Where all is fair and pure and bright. Alasi stern Muse, I pray in vain, I may not hear a single strain. But slowly now I seek my rest.

With sad and gloomy thoughts oppressed How paughty, Muse, I'll say farewell. Since you will not consent to tell Your wondrous tale of song to-night, But sulky stand as if in spite.

And when I seek for you again, O fill with sacred power my pen. That I may call thee from thy throne, And make thy music all my own!

Condition of the Rebel Capital. A lady who left Richmond the 25th of August, and who arrived at Boston within a few days, says the Boston Transcript, gives an accout of her sufferings and the state of affairs in the rebel canital, a synopsis of which we deem of interest to the public. She is a native of Fredericksburg, Va., but the principal

part of her life has been passed in Massachusetts. In January, 1861, she went to Richmond to visit her mother, with whom she remained until her decease. "In December, 1863, being anxious to

return North, where her husband and son resided, she obtained a pass for herself and a little daughter through the rebel lines. On reaching the Blackwater river, she was arrested as a spy, taken to Petersburg, and subjected there to an insulting inquisition by the rebel General Picket and his officers, who used every exertion to obtain evidence sufficient to bring her to trial by court-martial. Failing in this, they sent her to Richmond, where she was imprisoned in Castle Thunder four weeks and subjected to great indignities. She was finally released through the influence of two Scotchman by the name of Gibson and Capt. Alexander (who was in command of the prison,) by whom she was kindly treated, so far as was in his power without being suspected by his superiors.

"Receiving her trunks from Petersburg, all valuables wore found to have been abstracted, for which the officer would give no account.

"On her release, she in company with Mrs. Beach, who with her three children had also been her companions in prison, opened rooms, and engaged in making pies, which they sold to the soldiers at two dollars each. In this way she managed by great self-denial, to lay up about \$700 in Confederate money .---Last month hearing that the .Confederate authorities had determined to send all Northerners out of their territory,she determined to make another attempt to

reach home, and finally succeeded in obtaining a pass from Major Carrington. "In company with Mrs. Beach she

rode in a wagon over rough roads from Richmond to the lower Potomac river, where she engaged a noted blockade runner named Richardson to convey her across to the federal side. After one fruitless attempt to cross in a cance, and remaining three days on the bank-subjected all the time to to the threats of Richardson who had taken her last At times oven his clayey covering itself evening call, don't start too early.
