The Presidential Election.

Although the Spy is not political, it cannot but be expected that along with illegal voting last spring. all true lovers of the Union, we shall rejoice over the great victory. The result shows conclusively that the mass of the Northern neople are for a "vigorous prosecution of the war," and that they will yield an unqualified support to our Chief Magistrate. At present writing it is certain that McClellan has carried but three States, and one remains doubtful. The verdict rendered in favor of the Administration has been almost unanimous. New York is claimed by the Democracy at 2000 majority, while the Republicaus claim it by 5.000. It is probable that yield. Seymour is re-elected as Fenton has ran behind the ticket. The Union gains in been tremenduous. In our county the than the old one. Union majority was swelled from 4.040 was a contest between life and death.

Now that the election is over, let us all submit quietly to the will of the majority and throw away party feelings and party dissensions, and aid the Government in bringing the rebellion to speedy termination.

We Still Live.

Notwithstanding the fears that were entertained of trouble from the defeated party, the indications are that the North are more united to-day than ever in their determination to suppress the rebellion by force of arms. The defeated party have acquiesced gracefully. The Age pressed at the ballot box."

With regard to the policy of the administration, it says, "The claim that the election was an endorsement of the entire policy and measures of the administration is just. Emancipation, Confiseation, Subjugation and Extermination have been endorsed."

I have used them in my own family, and have been so pleased with their effects that was induced to recommend them to many others, and know that they have operated in a strikingly beneficial manner. From Rev. J. Newton Brown, D. D., Edi-From Rev. J. Newton Brown, D. D., Editor of the Encyclopedia of Religious Knowledge and Christian Chronicle Philadelphia. Although not disposed to favor or recommend Patent Medicines in general, through distrast of their ingredients and effects, I yet know of no sufficient reasons why a man may not testify to the benefits he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others.

I do this more readily in regard to Hoofland's German Bitters, prepared by Dr C M Jackson, this city, because I was preju-diced against them for many years, under diced against them for many years, under diced against them for many years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend, Robert Shoemaker, Esq., for the removal of this prejudice by propertests and for, encouragement to try them when suffering from great and long continued debility. The use of three bottles of these bitters at the present year, was followed by evident relief and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost despaired of regaining. I therefore thank God and my friend for directing me to use them.

Dr. Jackson:—Dear Sir:—I have been frequently resquested to connect my name with commendations of different kinds of medicines but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my family. of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that, for general debility of the system and especially for Liver Comptain, it is a safe and valuble preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above cause.

Yours, very respectfully.

J. II KENNARD.
