Written for the Spy. Our Brave Volunteers. An echo of the "American Conflict."

BY LU LIGHT. They go, but our prayers shall attend them, Our hearts throb with sympathy true, May God in His mercy defend them, When they fight for the Red White and Blue,' But cursed be the meni'ry forever, To the heart which our Union roveres,

Or foes who that Union would sever. And dishonor our brave volunteers!

Their gans in the sunlight are gleaming, But, sh. sing stillbrighter above, Their giorious old banner is streaming, The Stars and the Stripes that we love. They stand firm for our good Constitution, And bid us to quiet our fears. Let each traitor who cries, "Desolution!"

The Southrons fling haughty deflance, Command us to bow at their fact, Bit good is their boasted rollinge When "Yankees" in battle they meet; We will conquer them sooner or later, Despite of their taints and their icers. We will trust every robot and tractor.
To then ms of our brave volunt ers.

Bewate of our brave vol inteers!

Preserve them from death and disaster, Thou Ruler of each and of sea; We commend them, our Heavenly Master, Our soldiers and ailors to Thee! May they sweep from the face of the ocean The dark banner that shades privateers, Who are wanting in local devotion

May their campbe defende i from danger. Their way be surround by joys, May dish mor to them be a stranger, With each evil that pleasure allays,
And when danger and conflict is on led, And the star of sweet p age re-appears Our land from each danger defended, Three cheers for our brave volunteers

THE LAUGH OF WOMAN .- A woman has no natural gift more bewitching than a sweet laugh. It is like the sound of flutes on the water. It leaps from her in a clear, sparkling rill; and the heart that hears it feels as if bathed in the cool, exhilarating spring. Have you ever pursued an unseen fugitive through trees, led en by a fairy laugh-now here, now there, now lost, now found? We have; and we are pursuing that waudering voice to this day. Sometimes it comes to us in the midst of care, or sor row, or irksome business; and we turn away and listen, and hear it ringing through the room like a silver bell, with power to scare away the evil spirit of the mind. How much we owe that sweet laugh! It turns the prose to poetry; it flings showers of sunshine over the darkness of the wood in which we are traveling; it touches with light even our sleep, which is no more the image of death, but is consumed with dreams that are the shadows of immortality.

A FAIR OFFER.—A veteran relates the Columbia, Dec. 3, '64.

the following: It once happened that a mule driver was engaged in leading an unruly mule for a short distance, which proved about as much as he was able to do, and gave full employment for both 2nd and 3rd Street, north side and ly appointed Brigadier rode by him in all the consequential radiance of his starlight, when the mule driver hailed him as follows:

"I say,I wish you would send a couple of men down here to help me manage this mule."

"The Brigadier, indignant at being so familiarly addressed, sternly replied.

"Do you know who I am, sir?"

"Yes," was the reply, "you are Gen.

---, I believe."

"Then why do you not salute when addressing me?" inquired the Brigadier.

"I will," responded the M. D., "if yeu will get off and hold the mule " The Brigadier retired in good order.

Some boys, happening one day to be caught in a thunder storm, took refuge under a tree. They had not been there flut a short time, when a tree not far off was struck by lightning and shivered to atoms One of the boys, with seriousness and anxiety plainly depicted on his countenance, says to the others:

"Jack, can you pray?"

" No."

"Griff. can you pray?" "No."

"Ben, can you pray?"

"No."

"Nor I either, but by hokey, something must be did !"

-The Worcester Spy mentions that "a hangmin's rope, made two years ago of South Carolina hemp to hang Jeff. Davis with was forwarded from this city to Washington on Monday. It was made by Mrs. Parmenter, a daughter of Capt. Peter Slater, who it will be remembered

by our old residents as the builder of the first rope-walk out of Boston ever established in Massachusetts. The maker of the rope wishes to have it speedily used." -An Irishman, sent to trim a young orchard, was asked at night if he had finished. "No," said he; "I have cut

the trees all down and will trim them to-morrow."

THE peculiar taint or infection which we call Schoftla lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein of the blood, wherein that fluid becomes inalter competent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is va-

decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air filth and filthy habits, food, impure air. Alth and hithy mannes, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various areas according to the organs it. children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspensia, and liver complaints; on the skin, cruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease,

Ayer's Sarsaparilla is compounded from the most effectual antidotes that medical science has discovered for
this afflicting distemper, and for the cure of
the disorders it entails. That it is far superior to any other remedy yet devised, is
known by all who have given it a trial. That
the dose combine virtues truly extraordinary it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's withogeneral and regretable and business of PHOTOGRAPATIC AND RETAIL.

In addition to our main business of PHOTOGRAPATIC MATERIALS, we are Headquarters for the following, viz:
STEREOSCOPES

AND
STERIOSCOPIC VIWS.
Of these we have an impresse assertment.

Stering of the collection of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum. Scald Head. Courhs from Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists We were the first to introduce these into the United States, and we manufacture immense qualities in variety, raging in price from 50 cents to 850 each. Our Albury and durability to any others, of the reputation of being superform beaty and durability to any others. They will be sens by mail, free, on receipt of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken of the country, in order relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to discuse and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Ayra's

offer to the public under the name of AYELS SARSAPARILLA. Although it is composed of ingredients, some of which exceed the best of Sarseparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purgo out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar views this remody, thurster the view liar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in

this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S CHERRY PECTORAL.

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on the deal! it has even done. p to the list is teen as been about any be relied on to do all it has ever done.

Some eight years ago one of my daughters seemed to be in a decline, and little hopes of her recovery were entertained. I then procured a botthe of your excellent Balsam, and before she had taken the whole of the contents of the bottle there was a great improvement in her health.
