

THE COLUMBIA SPY.

City, in consequence of the discovery of rich and extensive silver mines, fifty miles west of that city at the foot of Snowy range. The yields are from eighty to three hundred dollars a ton. People were hurrying thither, and to locations on Snake River.

A land-slide on the Redwood River has brought to light a coal bed which is three feet thick, 350 feet wide, and nobody knows how long. It makes quiet an excitement in that region, but will probably prove to be drift coal. The coal mines is about 110 miles west of St. Paul, and is within a mile of the Minnesota River.

The grape crop in Western Illinois is very heavy this season, especially in Hancock County, where the estimated yield of wine will be nearly one million gallons, against about two hundred and fifty thousand last year, when the crop was almost an entire failure. Almost every farmer in that country has a vineyard.

Two discharged Tennessee Union soldiers, who live in Perry county, came to Johnsonville on Tuesday, and stated that they had been driven from home by rebel citizens of that city. Just before they left five respectable citizens of Perry who had been discharged from the Union army, had been murdered by rebel citizens.

In Northern, three hundred and five colored men paid an income tax. Of these, from \$500 to \$1000 income was 110; upwards of \$1000 income was 18; upwards of \$2000 income was 4; upwards of \$3000 income was 2. The largest income reported, \$8150, was delivered from the turpentine business.
