DANCING SCHOOL.—By an advertise. ment in this issue, it will be seen that Prof. Frank Stouch will open a school for the purpose of instructing "everybody and their families" in the art of dancing, having a large class is very promising .-Prof. S. is well known to those who indulge in tripping the "fontastic toe," and it is only necessary for his name to be annonneed as teacher, to insure success.

If we cannot have a depot, we should assuredly have some chance to leave town without waiting all day.

Choquet —This game has taken a form hold on the minds of a great many of our young folks. It is one that requires patience, and persons who cannot control binir feelings should lave nothing to do with it. To have a ball sent flying among the weeds, when you have a good "posish" is certainly unpleasant, but should be received in good humor. We are sorry to notice that some persons evince a spirit, at such times that is not very creditable.—The game is very interesting, and we would like to hear of more clubs being formed, as it is one in which both sexes can indulge, and have a splendid time. Patience and good feeling are necessary requisites on the croquet ground.
