The Last Romantic Affair. In a recent elopement from New York

an editor describes the lady as fair, fat and forty one, who led the fashions, the tea drinkings, the prayer meetings, and charitable lists in her own little cliquehad a fortune in her own right, and was thus an independent woman, also possessing several olive branches and a husband. She met and loved a maker of pills, upon whose young brow (according to the novelists) scarce nineteen summers had chone. She therefore presented him with herself, her forty winters, and some thousands of dollars in very hard cash, thus gilding the pills for him to swallow. They have gone over the seas; there was no pursuit, for the grief stricken family have wisely resolved to Of all kinds and qualities can be had at let than go their way, eventually by far or the greatest sufferers of all.

A Healthy Loyalist.

The following paragraph is published as an illustration of Virginia loyalty: "It is reported that Joseph R. Anderson manager of the Tredegar Iron Works at refused to give employment to any mechanics from Virginia who left the State during the rebellion. This is intended to reach Union men, who fled to avoid service in the rebel armies. Anderson, before he was pardoued, employed in his foundry a number of colored free laborers and was olequent in praise of their industry and faithfulness: but that was when he was seeking a pardon. Now that he has got it, his real sentiments begin to be developed."

D.R. VELPAU'S FRENCH PILLS.—
Ladica, take particular notice. The real Velpau Female Pill. Warranted French. These pills, so celebrated many years ago in Paris, for the relief of female for their criminal employment in the practice of abortion, are now offered for sale for the first time in America. They have been kept in comparative obscurity from the fact that the originator, Dr. Velpau, is a physician in Paris, of great wellth and strict conscientious principles, and has withheld them from general use, lest they should be employed for unlawful purposes. In overcoming female obstructions they seem to be truly omnipotent, bursting open the flood gates from whatever cause may have stopped them, but they are offered to the public only for legitimate uses, and all agents are forbidden to sell them when it is understood that the object is unlawful.

Dec. 24, 1y. NEW SKIRT FOR 1865-6. The Great Invention of the Age in

ETOOP SHIRTS.
W. BRADLEY'S New Patent DU-EX ELIPTIC (or double) SPRING

THIS invention consists of Duplex (or SKIRT.

THIS invention consists of Duplex (or I two) Eliptic Pure Refined Steel Springs, inger iously braided tightly and firmly together, edge to edge, making the toughest most flexible, clastic and durable spring ever used. They seldom bend or break, like the single springs, and consequently preserve their perfect and beautiful shape more than twice as long as any single spring skirt that ever has or can be made. The wonderful flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic skirt will be experienced particularly in all crowded assemblies, operas, carriages, railroad cars, church pews, arm chairs, for promenade and home dress, as the skirt can be folded when in use to occupy a small place as easily and conviently as a silk or muslin dress.

A lady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex Elliptic Steel Spring Skirt for a single day will never afterwards willingly dispense with their use. For children, misses and young halies they are far superior to all others.

The hoops are covered with 2 ply double twisted thread and will wear twice as long as the single yarn covering which is used on all single steel hoop skirts. The three bottom rods on every skirt are also double steel, and twice or double covered to prevent the covering from wearing off the
