Masonry Rising into Religion. We copy the subjoine I well deserved tribute to Masonry, from the N. Y. Daily News. If there is any such thing as pure and undefiled religion, it is to be found within the preci ets of a Masonic

The Masons of Massachusetts have made offer of their hospitality to leading brethren of their ancient order of the South. Coming from Massachusetts, too, this fact will rejoice the heart of every true Mason-will show him the secret of the fact that while religon disappeare -while dynastie- were swept away-empires went down-the lamp that was trimmed in the days of Solomon has continued to burn brightly until to day.

Mascary has in the past done good service to religion by keeping alive among men the spirit of its morality. Opinion in these latter days had taken the shape very generally of the conclusion that in that respect the Masonic system had out lived its uses. The error of that public judgment was at all times plain to the thinkers who are able to see underlying the fair surface of modern civilization, as in case of ancient civilization, all those wild and destructive passions that constitute to society a constant menace. But confidence in the permanence of our social system of modern times has been ex. posed to all classes of intelligence as a delusion, by the horrible atrocities that, within the last four years, and up to even to-day, have burst from the bad passions of men, darkening our civilization with the shadows and ashes of moral desolation. Under these circumstances it is delightful to observe the humanities that have been enshrined for ages in the bosom of the mystic brotherhood coming upon the scene and rising on the wreck of religion, holding out to manhood the language of universal brotherhood and language of universal brot erhood and love. All honor to that precious institu-Christianity has a Tis rose choked to a very great extent by . Dec. 24, ly. NEW SKIRT FOR 1865-6. The Great Invention of the Age in J. W. BRADLEY'S New Patent DU-PLEX ELIPTIC (or double) SPRING SKIRT!

PLEX EMPTIC (or double) Prices SKIRT.

[THIS invention consists of Duplex (or I two) Elliptic Pure Refined Steel Springs, inger lously braided tightly and firmly together, edge to edge, making the toughest most flexible, clastic and durable spring ever used. They seldom bend or break, like the single springs, and consequently preserve their perfect and beautiful shape more than twice as long as any single spring skirt that ever has or can be made. The wonderful flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic skirt will be experienced particularly in all crowded assemblies, operas, carriages, railroad cars, clurch pews, arm chairs, for promenade and home dress, as the skirt can be folded when in use to occupy a small place as easily and conviently as a stik or muslin dress.

A kedy hoving enjoyed the pleasure, com-

dress.

A lady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex, Elliptic Steel Spring Skirt for a single day will never afterwards willingly dispense with their use. For children, misses and young ladies they are far superior to all others.

misses and young ladies they are far superior to all others.

The hoops are covered with 2 ply double twisted thread and will wear twice as long as the single yarn covering which is used on all single steel hoop skirts. The three bottom rods on every skirt are also double steel, and twice or double covered to prevent the covering from wearing off the rods when dangling down stairs, stone steps, &c., which they are constantly subject to when in use.

All are made of new and elegant Corded Tapes, and are the best quality in every part, giving to the wearer the most graceful and perfect shape possible, and are unquestionably the lightest, most desirable, comfortable and economical skirt ever made.
