The News.

In the House of Representatives, Stevens, Garfield, Francis Thomas, Brande gee, Starr, Grinnell and Bradford were appointed the Select Committee on the proposed military and postal railway between Washington and New York.

The Military Committee was instructed to inquire into the expediency of converting Arlington Heights into a home for disabled and wounded soldiers.

Mr. Brandegee introduced a bill to punish counterfeiting with death. A resolution asking the President why Jeff. Davis has not been tried for treason was adopted.

Mr. Wilson introduced a bill fixing the regular army as soven regiments of artillery, ten regiments of cavalry and sixty regiments of infantry. A portion of the forces are to be colored troops.

The New Jersey Legislature organized on Tuesday. James M. Scovell was elected President of the Senate and John Hill was chosen Speaker of the House. The Governor's message was presented and read. The message approves of the President's reconstruction policy.

The State Fish Convention convened at Harrisburg on Wednesday. Every county on the Susque anna and its tributaries was represented. Hon. Simon Cameron, presided. Resolutions asking the Legislature to pass a bill compelling the owners of the dams in the Susquehanna and its principal tributaries to alter them by step-way sluices, so as to permit the free passage of shad and other fish, and thus restore what was formerly a leading interest in the State, were adopted. A draft of a bill to be presentad to the Legislature was referred to a committee to be appointed by the President.

A. D. Markley, of Montgomery county, has been elected President of the Perkiomen Railroad is to extend from the Reading line, near Phoenixville, along the valley of the Perkionen Creek to Emaus, on the East Pennsylvania Railroad, near Allentown. It will give the Reading Company a short line between Philadelphia and Allentown, by which Lehigh, coal will reach the city over favorable grades and will also develop a rich agricultural district.

LETTER FROM WASHINGTON.

Washington, D. C. January 9th, 1866. MR. EDITOR; -Although you have one "Correspondent" in the "City of Magnificent Distancies," we fancy that you will not reject in few lines from a

temporary sojourner.

The holidays are among the things hat were, and the damp weather that had been our intimate friend for the past few weeks, has also departed, and in its stead we now have the "coldest snap" of the season. Yesterday morning "zero" was nearly caught, and in place of the former accompaniments of "mudded boots, bedraggled skirts and erinoline,"

we have frozen ears and toes. Business is very dull, and the money market was never known to be in as tight condition as at the present time.

On Saturday lact, while : passing thro' the Capitol Yard, we met our old friend, Gen. J. W. Fisher and were invited to call at his quarters. We accopted the invitation and judge of our surprise in meeting several familiar faces (some of them belonging to ladies,) from your place. It has been a great while since we have had the pleasure of grasping so many Columbians by the hand. There we found Lieuts. Haldeman and Thomas, Steward Williams and a host of others. An hour was very agreeably spent in their camp. They are all-looking welland enjoy "soldiering in Washington" amazingly. The Gen. informed us that he would visit Columbia during this week, and we suppose ere this letter appears in print: he will be in your midst. He has been rather delicate, but is rapidly regaining his former excellent health.*

On the 8th inst., a bill was introduced n Congress by Mr. Stevens, which if passed, will perhaps result favorably for Columbia. It sets forth that the necessities of the Government require the construction of a national military and postal 29th ult. through railroad between the cities of Washington and New York. The company is authorized in the name and behalf of the United States, to build a continuous line of railway with one or more tracks, between the above named cities. The route is to be through the States of Maryland, Pennsylvania and New Jersey, and is to cross the Susquehanna River above tide water. This route will be strongly opposed by Philadelpnia, as it leaves her out in the cold. " Above tide water" is one of the requirements, and as a route has been surveyed from Columbia to Washington by the Reading and Columbia R. R. Co., it may be possible as the place to live. that the report of the engineers will be of some service towards securing the crossing of the river at or near Columbia.

On the same day a bill was introduced by Mr. O'Neill, of Pennsylvania, which was referred to the committee on Invalid Pensions, granting bounty and additional That class of young men and boys who bounty to soldiers, seamen and marines are debarred from educational faculties in the war of 1861, or their heirs, providuring the day by reason of their cm- ding for those who entered the service on ployments, should make use of these long or after the 13th day of april, 1831, and astonishes all hands. New Railroad Connection With the West.

For some days past we have had rumors about a negotiation between the Atlantic and Great Western Railway Company and the Philadelphia and Reading Railroad Company, which, we are informed, has been concluded. We learn that the contract provides for the contraction of a narrow gauge track from the terminus of the Catawissa Railroad at Milton, in Northumberland county, and thence through Union, Centre, Clearfield, Jefferson and Clarion counties, to connect with the Atlantic and Great Western Railroad at or near Franklin, which company is to extend the same narrow gauge on this road to Cleveland, Cincinnati and other prominent western cities, thus forming, by the Catawissa and Reading Road and its branches, a continuous "line of narrow gauge road between Philadélphia and other promi nent cities of the great west.

We are informed that the Reading Railroad Company is to establish the rates of freight westward from Philadelphia, the charge per mile on merchandise or passengers never to be higher than the rate per mile than charged to the city of New York, which secures to Philadelphia all the advantages of her geographical position in the great and growing trade of the west.

And into this Valley of Death are treading thousands of young men, who from a certain secret vice are approaching a suicidal death. The great boon for such, and the only safe, sure and positive cure is Dr. Juan Dellamart's celebrated specific pill, the discovery of one of the most eminent physicians of modern times. By its use melancholy gives way for joy, mourning is exchanged for happiness, and hopes that were crushed, revive again, and as you walk the pathway of life, with the vigor of manhood restored and the world before you again bright, you will not fail to remember him in all your prayers, who placed new strength in your enteebled frade, and caused to bloom on your pallid check, the glow of health, which water cannot wash away,—naught buttime destroy.

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The worklosts that is registrated. not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children, unto the third and fourth generation;" is deed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon, their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul cor-ruption, which genders in the blood, depresses, the energies of life, so that scrofulous constitu-tions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders; which, although not serofulous in their nature, are still rendered fatal by this taint in the Our Departments are all full, and we system. Compound Extract of Sarsaparilla. the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences, Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as Enurrive and Skin Diseases, Sr. Anthony's Fire, Rose, or Enysidelas, Pimples, Pustules, BLOTCHES, BLAINS and BOIL. TUMORS, TETTERS and Salt Rheem, Scald Head, Ringworm, RIBERATISM, SYPHILITIC and MERCURIAL DIS-EASES, DROPSY, DYSCHUSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING PROM VITIA-TED OR INTERE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a d. generation of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Rendache, or Blions Henduche, and Bilous Fevers, indeed for the whole class of diseases originating in bilinry derangement, caused by the Malaria of Miasmatic Countries. We are enabled here to offer the community a We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly hamless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders provail. This "Curu" expels the missmatic poison of FEVER AND AGUE from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints but the the decrease. The large

the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where FEVER AND AGUE prevails, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other every discovered for the speedy and cartain tion. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is that it contains to Quinine

cure of Intermittents is that it contains to Quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not done the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Newalgia, Rheumatism, Gout, Heurache, Elindness, Toothache, Eurache, Catarrh, Asthma, Falmitation, Painful Affaction of the Sulcon, Buster, TRUNKS.
