Cholera and Religion.

All remember the visitation of the Cholera, that dreaded disease, in Columrecollection. To say that it will not appear again is not in our province, but to justame the minds of the people with the idea that it will surely come, is decidedly tries, and has been steadily advancing in so humble. this direction. If it makes its appearance in this country, sad results will no doubt follow. Let our cities on to the high road to fame and fortune. and towns be thoroughly cleansed and wholesome sanitary measures be entered upon, and then with a stout heart, relying upon the dispensation of Providence. await the result.

That it is the duty of every man to be connected with the church, we presume no one will deny, but we do most salemnly enter a protest against using means calculated to excite the brain to accomplish the object. The Minister of God, when he enters the pulpit has the Bible for his standard and can preach the truths he finds within its lids, and will be listened to, in an attentive manner, if he has an intelligent and appreciative audience, and they will retire pondering over the truths | Representatives are to make speeches on they have heard explained. GOVERNOR'S MESSAGE.

The annual message of Gov. Claudestine Marriages.

A bill is now before the Legislature a Harrisburg in reference to the marriage of minors without the consent of parents.

It requires all persons who are to be married to first take the oath before the minister or magistrate who is to perform the ceremony that they have attained their majority, and this nath is to be a sufficient bar to all prosecutions and penalties for marrying minors.

If there he anything in the old proverb which says "at lovers' perjuries they say Jove laughs," the oaths which will be taken by desperate "lovyers" will be no great security for " cruel parients," unless our courts be less good-natured than the fabled "king of gods and men."

The January thaw is a "Capital institution" for producing Colds, Coughs, and kindred ailments—much worse than severe-cold weather, and we advise our readers, particularly those predisposed to any pulmonary weakness, to see to it they are well shod, and allow no change of clothing. If any one is so unfortunate as to contract a Cold, Cough, Hoarseness, or other pulmonary disorder, we know of nothing so efficient as Coe's Cough Balsam. Our advise is, take little and often.

To those who have been living on the fat of the land through the holidays, and have got their stomachs out of order, we would prescribe Coe's Dyspepsia.

Do you know that a cold is a dangerous thing! If hou do, get a box of Bryan's Pulmonic Wafers, put a few wafers in your mouth, an I cure your sore throat coegh, hoarseness, etc., in a few hours. Jan. 6, 6w.

Rode the Sig Hundred,

And into this Valley of Death are treading thousands of young men, who from a certain secret vice are approaching a suicidal death. The great boon for such, and the only safe, sure and positive cure, is Dr. Juan Delia.narr's celebrated specific pill, the discovery of one of the most eminent physicians of modern times. By its use melancholy gives way for joy, mourning is exchanged for happiness, and hopes that were crushed, revive again, and as you walk the pathway of life, with the vigor of manhood restored and the world before you again bright, you will not fail to remember him in all your prayers, who placed new strength in your enfeebled frame, and caused to bloom on your palled cheek, the glow of health, which water cannot wash away,—naught but time destroy.
