Memory of the Dead. How sacred the memory of the dead! affections were early entwined around our hearts in the holy bonds of friendship.-They may have died on a foreign shore, They may have died on a foreign shore, far from home and friends, without no kindred spirit upon whom they might cast a farewell look, ere they entered the where, at R WILLIAMS heavenly world, but they still live in our hearts. When we visit our familiar retreats, and meet not their smiling faces we think of them, too, at the calm twilight hour, and at bright, smiling morn, their image is not forgotten. The stran ger may lightly pass over the grassy mound which covers them-'twill not though recollections of them may cause the tear-drop to fall, we will not call them back from their noble, pure home, to again mingle with the vanities of earth, and again meet its trials. The Real, Velpau Female Pills

[Warranted French.]

These Pills, so celebrated many years ago in Paris for the relief of female irregularities, are now offered for sale for the first time in America. They have been kept in comparative obscurity from the fact that the originator. Dr. Velpau, is a physician in Paris of great wealth and conscientious principles, and has withheld them troin genesal use, lest they should be employed for unlawful purpeses. In overcoming itenate obstructions they seem really omnipotent. They are offered to the public only for legitimate purposes, and all agents are forbidden to sell them when it is understood that the object is unlawful. Sold by R. Williams and Dr. Parry, Columbia.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous com-plaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

and, indeed, of an one organ, the organical are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as Enuptive and Skin Diseases, St. Anthony's Fire, Rose, or Erystpelas, Pimples, Pustules, Blotches, Blains and Boll., Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ringmatism, Syphiliptic and Mercurial Diseases, Dropsy, Dyspersia, Debility, and, indeed, all Complaints anisms from Vitta-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in

Ague Cure,

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Hendache, and Bilious Fevers, indeed for the whole class of diseases originated the state of the stat ing in biliary derangement, caused by the Malaria of Miasmatic Countries. the Malaria of Minsmatic Countries.

We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still reflectly handless in any quantity. Such a remedy is invaluable in districts where these alllicting disorders prevail. This "Curke" expels the minsmatic poison of Feven AND AGUE from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Feven and Ague prevails, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is that it contains no Quining or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Tever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders aging from its ignificant and ague given from the consequence of the miasmatic poison.
