BOULEVARD!!

The New "Boulevard" Skirt is the LATEST INVENTION, and for style and shape, is UNIQUE & UNEQUALED.

The peculiarity of this beautiful garment consists in its having a French Yoke (gore shaped) attached to the waist-band, both of which are of fine English Satton.

The effect of the Yoke is to lengthen the back, taper and give a more graceful slope to the dress producing a flowing and beautiful train and causing it to drape and dress to fit more closely to the form just below the waist, affording ease and comfort to the wearer.

These elegant skirts attained a reputation for style which is peerless, and for intrinsic merit they are unsurpassed.

Use THE GREAT ZINGARI BITTERS.

A SURE CURE! THIS WONDERFUL REMEDY was discovered and introduced about twenty years ago by Dr. S. Zingari, a native of Italy. He had long seen and felt the want of some remedy which would strike at the root of disease, and so prevent much of the suffering which the human family was then compelled to endure.

The great question was presented to his mind every day in the colors of his mind among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was led to think and experiment; and after ten years of study and labor, he presented to his fellow-men the wonderful Zingari Bitters, the most successful preparation in the prevention and cure of disease, was so marvellous and astonishing, that the most sceptical minds were converted to his favor, upon him who discovered it. His name was placed upon the Roll of Honor, as a person who had done good to his fellow-men.

The preparation has been used in several epidemics of cholera, both as a preventive and curative measure, and with great success. That it has been introduced into nearly all the great hospitals of the world, is a fact which speaks for itself.

The saying that an ounce of prevention is worth a pound of cure, applies with marvelous force to cholera, and therefore any remedy that will protect us against this terrible disease should be freely and persistently used.

All pathologists now agree that the cholera poison acts on the secretory organs, and keeps them in working order, must prevent a sufficient accumulation of the poison to cause cholera, so cholera is contracted. This is true not only of cholera, but of nearly all other maladies, especially the different forms of fever.

The Great Zingari Bitters is just such a remedy as the above conditions require. Its acts on the organs of excretion, and keeps up a perfect balance between them. This Bitters is composed entirely of vegetable and mineral ingredients, and is entirely free from any poisonous or narcotic matter. Its taste is pleasant and its effects prompt and powerful.

Numerous cases of the following diseases have been cured by it: Cholera, Diarrhoea, Dysentery, Typhoid and Typhus Fever, Ague, Nervous Debility, Anemia, Female Irregularities, Dyspepsia, Flatulency, Indigestion, &c. &c. It is sold in one dollar per quart bottle.
