The Tomato as Food.

A good medical authority ascribes to the tomato the following very important medical qualities:

1. That the tomato is one of the most powerful aperients of the liver and other organs; where calomel is indicated, it is one of the most effective and least harm. ful medical agents known to the profes- rid itself of corruptions, if not assisted to do this through the natural channels of the body

- 2. That a chemical extract will be obtained from it will supersede the use of calomel in the cure of disease.
- 3. That he has successfully treated diarrhea with this article alone.
- you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleaning the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something 4. ZINGARI BITTERS.

A Sure Preventative of CETO LEBA

THIS WONDERFUL REMEDY was discovered and introduced about twenty years ago by Dr. S. Cheopsus, an eminent Egyptian physician.

He had long seen and felt the want of some remedy which would strike at the root of disease, and so prevent much of the suffering which the human family was then compelled to endure. prevent much of the saltering which the human family was then compelled to endure.

The great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was lead to think and experiment; and after ten years of study and habor, he presented to his follow-man the wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellous and astonishing, that the most flattering marks of royal favor were bestowed upon him who discovered it. Bis name was placed upon the Roll of Nobles, and a gold medal with the following inscription—Dr. Circop-us, the Public Benefactor—was presented to him by the Viceroy.

The preparation has been used in several epidemics of cholera, both as a preventive and curative measure, and with such great success; that it has been introduced into nearly all the general hospitals of the old world.

The old savage that an ounce of prevention is have it.

of the old world.

The old soying that an ounce of prevention is worth a pound of cure, applies with marvelous force to choleta, and therefore any remedy that will protect us against this terrible disease should be freely and persistently used.

All pathologists now agree that the cholera poison acts on the excretory organs, and keeps them in working order, must prevent a sufficient accumulation of the poison to exert its terrible effects on the organism. This is true not only of cholera, but of nearly all other maladies, especially the different forms of fever.

nearly all other malautes, especially the dilierent forms of fever.

The Great Zingari Bitters is just such a remedy as the above conditions require. Its acts on the organs of excretion and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and herbs, so nicely conceited that overy organ is acted upon and put in tone. Its taste is pleasant and its effects prompt and lasting.
