The note is said to be tolerably well done, Geo. W. IMPORTANT TO PRINTERS .- The Secretary of the interior has received from a lutions or printing for some show, circus, contlemen in New Jersey, samples of fair or party, gratuitously. Again, many paper manufactured from Sedge grass, a grumble because the local paper is not grass which grows in great abundance, equal in size and reading matter to the upon all tide-water flats. The paper is very white and clear, and will undoubtedly prove a good substitute for ordinary writing paper made of cotton or linen rags. It is estimated that it can be manufactured for twenty per cent. less than any variety now in use, and this circumstance alone renders the discovery of great importance to the interests of the country.

Scorer-Geo. Young, Jr. Time of Game-21 hours, -The game was witnessed by a great

number of our citizens and all were highly pleased. The married nine labored under the very serious disadvantage of having three or four players who had only taken part in one or two games previous to the match, while every member of the single nine had played in nearly every game since the formation of the club.

The fielding was rather wild on both sides. The only fly catches made were by the married nine and their defeat was, no coming towards him, when he turned to doubt, owing to their inexperienced players not understanding the rules of the game, in running the bases.

Mr. Wm Williams, Umpire, performed his duty in a faithful and impartial manner and the thanks of the Club are hereby tendered him.

THE LOCAL NEWSPAPER .---- There are
