A Terrible Retribution.

Whatever version may be given to a circumstance that occurred in this city yesterday afternoon, the most thoughtless must per force admit that the result is both strange and startling, and well calculated to turn the serious man to more profound meditation, and even stay the reckless man in his course. A man of robust health and in the prime of life, is accused of a crime under circumstances of almost positive proofs of guilt, and, while he calls upon God to bear witness to his-incocence, is struck dead almost before the appeal has left his lips. In credible as the circumstances may appear they are literary true.

A little over a year ago there lived in a small village in Sweeden a man by the name of Rosencrist, whose ostensible pursuit was that of a tailor, but camor had it that his principal revenue was derived from preaching and stealing, and at last this impression was so strongly confirmed that he suddenly left that village to evade the arm of justice. He came to this country about eight mouths ago, and took up his residence in Chicago, where he again worked at his trade. Having a family he tound it difficult to support them in the city, and consequently sent them on a farm about fourteen miles from Chicago. He thereupon took lodgings at a boarding-house No. 144, Burnside street, and for a long time no suspicions were entertained as to his character. Recently several valuable articles belonging to boarders at the house were found missing, but no clue as to the perpetrator could be detected. Yesterday afternoon another theft was discovered, and the proofs of guilt pointed directly to Rosenerist, no one else having been near the apartment since the time the articles stolen were last seen. 'On being accused, he stoutly denied the theft, but, finding no credence was given to the denial, he suddenly grew more passionate, and, lifting up his hands towards heaven, exclaimed that he hoped his "tongue would rot in his mouth, his head drop from his shoulders, and God strike him dead on the spot," if he was guilty. No sooner had these words escaped his lips, when he suddenly began to reel and stagger, and before support could be given, he fell to the floor-dead. The excitement this created among the bystanders can better be imagined than described. Strong men stood paralyzed, women fainted, and none were able to speak for some minutes. The occurrence was so horrible, this apparent retribution | Plain Mourning Goods, so terrible, that men doubted their senses. But the dead man remained prostrate on the floor-a ghastly proof of the reality. The rumor of this strange and startling fatality soon spread through the neigh borhood, and in a few minutes the house was filled with horror-stricken people, none of whom doubted that the hand of God was thus made visible. A physician was called who pronounced the cause of death to be disease of the heart, pro duced by over excitement. The body has been conveyed to the dead house,

THE GREAT ZINGARI BITTERS

where an inquest will be held to-day.

A Sure Proventative of

CHOLERA

THIS WONDERFUL REMEDY was discovered and introduced about twenty years ago by Dr.

S. Cheepsia, an enhient Egyptian physician.

He had long seen and felt the want of some remedy which would strike at the root of disease, and so provent much of the suffering which the human family was then compelled to endure.

The great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was lead to think and experiment; and after ten years of study and labor, he presented to his follow-man the wonderful Zingari Bitters. The effect of this preparation in the presention and cure of disease, was so marvellous and astonishing, that the most flatering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the following inscription—Dr. Cheopsus, the Public Benefactor—was presented to him by the Vicercy.

The preparation has been used in several epidemics of cholora, both as a preventive and curative measure, and with such great success, that it has been introduced into nearly all the general hospitals of the old world.

The old saying that an ounce of prevention is worth a pound of cure, applies with marvelous force to cholera, and therefore any remedy that will protect us against this terrible disease should be freely and persistently used.

All pathologists now agree that the cholera poison acts on the excretory organs, and keeps them in working order, must provent a sufficient accumulation of the poison to exert its terrible effects on the organism. This is true not only of cholora, but of nearly all other inaladies, especially the different forms of ever.

The Great Zingarl Bitters is just such a remedy as the above conditions require. Its acts on the organism of excretion and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of froots and herbs, so nicely concoc

tono. Its taste is reasant and its effects prompt and lasting.

Numerous cases of the following disease have been cured by it: Cholera, Diarrhea, Dysentery, Typhoid and Typhus Fever, Fever, Ague, Nervous Debility, Anaemia, Female Irregulariues, Dyspepsia, Flatulency, Coile, Scrofula, &c.

use it.

Yours respectfully.

JACOB L. BAKER.

Being thus urged, and having noticed the Bitters were constantly euring the most violent enses of Diarrhea, Cholera Morbus and kindred complaints, Dr. Mishler at last oftered his compounds as a cure for Cholera The result has exceeded his most sanguine expectations and fully justifies all that Mr. Baker says in his note. It certainly proves Baker says in his note. It certainly proves that Mr. Baker's practical knowledge of medicine far exceeds that of most doctors who too often dose their patients with de-leterious drugs on some absurd theory.— For the purpose of showing that Mishler's Herb Bitters will cure Cholera we give below a few facts. All intelligent persons who have investi-

gated the origin of cholera, agree that it is caused by poison introduced and generated into the system by impure water, damp ness, filth and over-crowded rooms with deficient ventilation. This is proved by the fact that cholera always rages worse on board of ships where all of the above causes are found more or less combined. To cure cholera, and also to prevent it, it is necessary to neutralize this position, and that Mishler's Bitters will do this is proven

that Mishler's Bitters will do this is proven by the following:

The steamship Virginia, arrived at the Port of New York, about the middle of April with cholera a board a number of the passengers having died during the voyage with this complaint. Among the passengers were a family named Schmith, from Baden, Germany. This family was attacked with cholera. Fortunately for them they had friends living in this city (Lanter's Bitters and who procured a bottle and ler's Bitters and who procured a bottle and sent it to the Schmith family. When this package arrived at Quarantine, the doctors examined it and confiscated the contents Another bottle was procured and packed in a more secure manner: it safely reached the a more secure manner: usually reached the Schmiths. On its arrival aboard the Virginia, Henry Schmith and Christ. Schmith were both laboring under choleric symptoms: Mrs. Marcia Schmith, wife of the former was very bad, not expected to recover, and a son had died of the dread complaint and had been buried the dry provicover, and a soil had deed of the dread configurations. It was in this plight a bottle of Mishler's Bitters, sent forth like an Angel of Mercy found the poor Schmith family.—Henry Schmith was the first to try it, and so instantaneous was the relief he experi-enced that he gave it to his wife and brother both of whom it at once relieved. They used the entire contents of the bottle and all three were so much relieved that the physicians permitted them to leave the physicians permitted them to leave the Virginia, after being confined at quarantine aboard that scourge ship forty-two says.—
The Schmiths proceeded to their relatives in Lancaster, and at an early opportunity called on Dr. Mishler to express their gratitude for the timely relief they had found in his Bittors. Mr. Houry Schmith stated Give us a call.

Jan. 20. 1866,tf.

WASHINGTON HOUSE

No. 709 Chestnut Street, above 7th,
PHILADELPHIA.

I is situated in the very centre of business, and is convenient to the Steamboat and R. R. Depots, access from which to the Hotel., is attainable at all times. The house has been thoroughly renovated and newly furnished, and in every respect rendered to meet the wishes and desires of the traveling public.

The reputation the manager enjoyed in the given him did no good, but that one glass of Mishler's Bitters made him feel like a new man, warming his whole system, giving him a healthful heat and causing him to perspire freely. His statement was substantially was substantially was given how above, and he further said that if the doc tors had not kept the first bottle from the effect of cholera, but the continued use of the Bitters were most surely restoring the cacustomed vigor.

It is not to be expected that to compound the found in his Bitters. Mr Henry Schmith stated that all the compounds the doctors had given him did no good, but that one glass of Mishler's Bitters made him feel like a new man, warming his whole system, giving him a healthful heat and causing him to perspire freely. His statement was above, and he further said that if the doc tors had not kept the first bottle from the effect of cholera, but the continued use of the Bitters were most surely restoring the accustomed vigor.

Hospital Ship Falcon, Quarantin, New York, June 7th, 1866.

poot tonic Briters, with anapted to all cases requiring Tonic remedies.

D. H. BISSELL, Physician, Hospital Ship "Falcon."

This letter from Dr. Bissell just after the reception of the Bitters, and before he had time and opportunity to thoroughly test their wonderful medicinal properties is considered an important endorsement, as that gentleman to-day occupies the most important position of any physician in America. The passengers and crews o emigrant and merchant vessels that arrive in the Port of New York from foreign comtries, are subject to his inspection and control, and the great experience he has had in the management of that dreadful disease, Cholera, gives an endorsement by him an unusual importance. This letter together with the statement of the Schmith family—who while in the Steamer Virginia, were under Dr. Bissell's control, shows what the Bitters have done and can

shows what the Bitters have done and can Another case of Cholera cured by Misher, s Herb Bitters is that of Mr. Pearsol of York county, who, after suffering severely from all the symptons of Cholera, finally became collapsed and while in this state, (the doctors stating that he was beyond relief) a friend administered freely, Mishler's Bitters. The effect was instantaneous heut was generated in the body, perspira-tion was induced and after using one bat-

tion was induced and after using one bottle Mr. Pearsol was entirely restored.
Mishler's Bitters cures Cholera by counteracting the poison which is the cause of
the disease. Poison in the system, whether
generated by bad air, filth, &c., as in
Cholera, or introduced by the bite of a
venomous snake or mad dog will be expelled and all bad symptons allayed by
the use of Michler's Herb Bitters. The
above proves this to be the fact in Cholera. A Pocket Books, has just been received, and the certificate of Mr.Rhinehart proves that Mishler's Billers will cure the bite of above proves this to be the fact in Cholera a poisonous snake:

n poisonous snake:

Lancaster, July 4th, 1865.

Mr. B. Mishler—Sir:—About eight weeks since I was bitten in the left hand by a since I was bitten in the left hand by a snake, but at the time did not know of what species it was. Immediately after the bite my hand swelled to a very large size, and the poison appeared to be working up my arm. I suffered great pain in my hand and arm; I had to quit work and was afraid I would be compelled to have my hand amputated. I came to you, and by your advice washed my hand and arm with your Herb Bitters at the same time taking it inwardly. In eleven days I was able to go to work again. The poison was all drawn out and Mishler's Herb Bitters was the only medicine or application that all drawn out and Mishler's Herb Bitters was the only medicine or application that I made use of. Mr. Christian Burns, a near neighbor of mine, wentout a day or two after to the place where I was bitten, and killed what I believe was the same snake that bit me as he caught within five yards of the spot where I was bitten. It proved to be what is called a copper snake; at any rate, whether it was the same one that bit me or not—one thing is certain—that your Bitters cured the bite of a snake in my case for which I shall ever be thankin my case for which I shall ever be thankful, as I believe it was the means of saving

Ayer's Sarsaparilla

A compound remedy, designed to be the most effectual Alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AF-FECTIONS, MERCURIAL DISEASE, DROPSY, NEU-RALGIA OR TIC DOULOUREUN, DEBILITY, DYS-PEPSIA AND INDIGESTION, ERYSIPELAS, ROSE or St. Anthony's Fire, and indeed the whole class of complaints arising from Impurity or THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is ob-structed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it has been because the drug alone has not all the virtue that is claimed. for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been mis-led by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on

PREPARED BY DR. J. C. AVER & CO. LOWELL, MASS. Price, \$1 per Bottle;

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.
