WASHINGTON HOUSE

No. 709 Chestnut Street, above 7th, PHILADELPHIA.
THIS OLD and POPULAR HOTEL is situated in the very centre of business, and is convenient to the waterfront and R. R. Depots, access from which to the Hotel, is attainable at all times. The house has been thoroughly renovated and newly furnished in every respect, so as to render it to meet the wishes and desires of the traveling public.
The reputation the manager enjoyed in the conduct of this Hotel will be a sufficient guaranty that no effort on his part will be spared to make the "WASHINGTON" a first class house. The bar will be unexcelled in every respect. The Manager will be pleased to see his old friends and former patrons of the "States Union," Philadelphia, and to welcome many new ones.

CHOLERA

Cured by Mishler's Herb Bitters!

When Mishler's Bitters were first introduced to the public the proprietors were well justified in making it as a specific for Cholera. During the fall of 1865, Dr. Mishler received the following note from Jacob L. Baker, Esq., of Lancaster, Pa., a member of the Philadelphia College of Pharmacy. Mr. Baker had a great deal of experience in the treatment of Cholera as a result of sixteen years standing in Hospital service in the Jefferson Hospital, Philadelphia, for three years, and is withal a gentleman of undoubted integrity and confidence can be placed in.

Lancaster, November 23, 1865.
Dr. Mishler—Dear Sir—Knowing that the Cholera with its dire ravages, is upon our coast and knowing that no medicine now in our country possesses such a colorific influence "which is the vital remedy for all diseases of this kind," I beg to request you to prepare such a quantity of your Bitters as would suit all demands, as I assure you there will be an inveterate case combined, I believe, with an epidemic of cholera. My Bitters will cure Cholera we give below a few facts.
All intelligent persons who have investigated the cholera epidemic, and who are caused by poison introduced and generated into the system by impure water, dampness, and overcrowded rooms with deficient ventilation, and by the fact that cholera always rages worst on board of ships where all of the above named causes are present. To cure cholera, and also to prevent it, it is necessary to neutralize this poison, and that Mishler's Bitters will do this is proven by the following:
The steamer "Virginia," arrived at the Port of New York, about the middle of April with cholera aboard a number of the passengers, having died during the voyage. Among the passengers were several Germans, who were a family named Schmidt, from Baden, Germany. This family was attending cholera. Fortunately, they had their friends living in this city (Lancaster, Pa.) who knew the virtues of Mishler's Bitters and who procured a bottle and sent it to the Schmidt family. When this medicine was taken, the cholera was arrested and also prevented it from being fatal. It was found that it was necessary to neutralize this poison, and that Mishler's Bitters will do this is proven by the following:

When this medicine was taken, the cholera was arrested and also prevented it from being fatal. It was found that it was necessary to neutralize this poison, and that Mishler's Bitters will do this is proven by the following:
The steamer "Virginia," arrived at the Port of New York, about the middle of April with cholera aboard a number of the passengers, having died during the voyage. Among the passengers were several Germans, who were a family named Schmidt, from Baden, Germany. This family was attending cholera. Fortunately, they had their friends living in this city (Lancaster, Pa.) who knew the virtues of Mishler's Bitters and who procured a bottle and sent it to the Schmidt family. When this medicine was taken, the cholera was arrested and also prevented it from being fatal. It was found that it was necessary to neutralize this poison, and that Mishler's Bitters will do this is proven by the following:
