The Railroad Engineer.

One of our railroad engineers, some years since, was running an express train of ten well filled cars. It was in the night, and a very dark night too. His train was behind time, and he was putting the engine to the utmost speed of which it was capable, in order to reach a cer tain point at the proper hour He was running on a straight and level track, and at this unusual velocity, when a conviction struck him that he must stop. " Something seemed to tell me,"he said, "that to go ahead was dangerous, and that I must stop if I would save life. I looked back at my train and it was all right. I strained my eyes and peered into the darkness, and could see no signal of danger, nor anything betokening danger, and there in the daytime I could have seen five miles. I listened to the working of my engine, tried the water. looked at the scales, and all was right. I tried to laugh myself out of what I then considered a childish fear; but, like Banquo's ghost, it would not down at my bidding, but grew stronger in its hold upon me. I thought of the ridicule I would have heaped upon me if I did stop; but it was all of no avail. The conviction, for by this time it had ripened into a conviction—that I must stor, grew

ingly. I came to a dead halt, got off, and went ahead a little without saying anything to anybody what was the matter I had a lamp in my hand, and had gone about sixty feet, when I saw what convinced me that premonitions are sometimes possible. I droppe the lantern from my nerveless grasp, and sat down on the track utterly unable to stand."

stronger, and I resolved to stop. I shut

off and blew the whistle for brakes accord

He goes on to tell us that there he found that some one had drawn a spike which had long fastened a switch rail, and opened a switch which had always been kept locked, which led on to a track only about one hundred and fifty feet long-which terminated in a stone quarry! "Here it was wide open, and had I not obeyed my premonitory warning-call is what you will-I should have run into it, and at the end of the track, only about ten rods long, my heavy engine and train, moving at the rate of forty five miles an hour, would have come into collision with a solid wall of rock eighteen feet high. The consequences, had I done so can neither be imagived nor described, but they could by no possibilty have been Plain Mourning Goods, otherwise than fatally horrible." No one can here doubt the fact of a special interposition of God, by which, from a calamity most terrific, hundreds of lives were wonderfully spared - Home Monthly.

ZINGARI BITTERS. CHOLERA

THIS WONDERFUL IREMEDY was discovered and introduced about twenty years ago by Dr. S. Cheopsus, an eminent Egyptian physician.

He had long seen and felt the want of some remedy which would strike at the root of discuse, and so prevent much of the suffering which the human family was then compelled to endure.

The great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the intenciency of nearly all the remedies then in use. Thus he was lead to think and experiment; and after ten years of study and labor, he presented to his fellow-man the wonderful Zingari Hitters. The effect of this preparation in the prevention and cure of disease, was so marvellous and astonishing, that the most flattering marks of royal fattor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the fullowing inscription—Dr. Cheopsus, the Public Benefactor—was presented to him by the Viceroy.

The preparation has been used in soveral epidemics of cholem, both as a preventive and curative measure, and with such great success, that it has been introduced into nearly all the general hospitals of the old world.

The old saying that an ounce of prevention is worth a pound of circ applies with year leaved and worthers. of the old world.

The old saying that an ounce, of prevention is worth a pound of cure, applies with many lous force to cholera, and therefore any remedy that will protect us against this terrible disease should be freely and persistently used. and persistently used.

All pathologists now agree that the cholera poison acts on the excretory organs, and keeps them in working order, must prevent a sufficient accumulation of the poison to exert its terrible chects on the organism. This is true not only of cholera, but of nearly all other maladies, especially the different forms of fever.

The Great Zingari Bitters is just such a remedy as the above conditions require. Its acts on the organs of excretion and secretion keeping up a perfect belance between them. This Bitters is composed entirely of roots and herbs, so nicely concepted that every organ is acted upon and put in tone. Its taste is pleasant and its effects prompt and lasting.

Numerous cases of the following discontinuations. and persistently used. tone. Its taste is pleasant and its effects prompt and lasting.

Numerous cases of the following disease have been cured by it: Cholera, Diarrhea, Dysentery, Typhoid and Typhus Fever, Fever, Ague, Nervous Deblity, Anacmia, Female Hrregularities, Dyspepsia, Flathlency, Coie, Scrofula, de.

CHOLERA

Cured by Mishler's Herb Bitters! When Mishler's Bitters were first introduced to the public the propriotor did not feel justified in recommending it as a specific for Cholera During the fall of 1865, Dr. Mishler received the following note from Jacob L. Baker, Esq., of Lancaster Pa., a member of the Philadelphia College of Pharmacy. Mr. Baker had a great deal of experience in the treatment of Cholera is a druggist of sixteen years standing was is a druggist of sixteen years standing was Hospital Steward in the Jefferson Hospital, I hiladelphia, for three years, and is withal a gentleman of undoubted integrity and one in whose statement the most implicit confidence can be placed:

confluence can be placed: Lancaster, November 3d, 1865. Dr. Mishler—Dear Sir:—Knowing that the Cholera with its dreadful ravages is now upon our land, and knowing that no medi-cine now in our country possesses such a caloric influence "which is the vital reme-dy for all diseases of this kind," as the Bitters you now making I request you to prepare such a quantity of your bitter as would suit all demands, as I assure you they will be an invaluable remedy, and will be hailed as a blessing by all who will use it

Tyours respectfully.

JACOB L. BAKER.

Being thus urged, and having noticed the Bitters were constantly curing the most violent cases of Diarrhesa, Cholera Morbus and kindred complaints, Dr. Mishler at last oftered his computing as a cure for Cholera. offered his compounds as a cure for Cholera
The result has exceeded his most sanguine
expectations and fully justifies all that Mr.
Baker says in his note, It certainly proves
that Mr. Baker's practical knowledge of medicine far exceeds that of most doctor leterious drugs on some absurd theory.— For the purpose of showing that Mishler's Herb Bitters will cure Cholera we give

elow a few facts. All intelligent persons who have investigated the origin of cholera, agree that it is caused by poison introduced and generated into the system by impure water, dampness, filth and over-crowded rooms with deficient ventilation. This is proved by the fact that cholera always rages worsd on board of ships where all of the above causes are found more or less combined. To cure cholera, and also to prevent it, it is

necessary to neutralize this position, and that Mishler's Bitters will do this is proven by the following:

The steamship Virginia, arrived at the Port of New York, about the middle of April with cholera a board a number of the April with cholera a board a number of the passengers having died during the voyage with this complaint. Among the passengers were a family named Schmith, from Baden, Germany. This family was attacked with cholera. Fortunately for them they had friends living in this city (Lancaster, Pa.,) who knew the virtues of Mishler's Bitters and who procured a bottle and sont it to the Schmith family. When this sent it to the Schmith family. When this package arrived at Quarantine, the doctors examined it and confiscated the contents Another bottle was procured and packed in a more secure manner: it safely reached the Schmiths. On its arrival aboard the Virginia, Henry Schmith and Christ Schmith were both laboring under choleric symp-toms: Mrs. Marcia Schmith, wife or the toms: Mrs. Marcia Schmith, wife of the former was very bad, not expected to recover, and a son had died of the dread complaint and had been buried theday previous. It was in this plight a bottle of Mishelr's Bitters, sent forth like an Angel of Mercy found the poor Schmith family.—Henry Schmith was the first to try it, and so instantaneous was the relief he experienced that he gravitate is wiferend by the

enced that he gave it to als wife and brother both of whom it at once relieved. They used the entire contents of the bottle and all three were so much relieved that the physicians permitted them to leave the Virginia, after being confined at quarantine aboard that scourge ship forty-two says.—
The Schmiths proceeded to their relatives in Lancaster, and at an early opportunity called on Dr. Mishler to express their gratitude for the timely relief thoy had found in his Bitters. Mr Henry Schmith stated that all the compounds the doctors had given him did no good, but that one glass of Mishler's Bitters made him feel like a new man, warming his whole system, giving him a healthful heat and causing him to perspire freely. His statement was Virginia, atter being confined at quarantine THIS OLD AND POPULAR HOTEL

Is situated in the very centre of business, and is convenient to the Steambout and R. R. Depots, access from which to the Hotel., is attainable at all times. The house has been thoroughly renovated and newly furnished, and in every respect rendered to meet the wishes and desires of the traveling public.

The reputation the manager enjoyed in the conduct of the other Hotels will be a product of the other Hotels was substantially was substantially as given above, and he further said that if the doctors had not; kept the first bottle from the effect of cholera, but the continued use of the Bitters were most surely restoring her accustomed vigor.

It is not to be expected that regular M.

This letter from Dr. Bissell, Just after the reception of the Bitters, and before he had time and opportunity to thoroughly test their wonderful medicinal properties is considered an important endorsement, as that gentleman to-day occupies the most important position of any physician in America. The passengers and crews o emigrant and merchant vessels that arrive in the Port of New York from foreign countries, are subject to his inspection and control, and the great experience he has had in the management of that dreadful discase, Cholera, gives an endorsement by ease, Cholera, gives an endorsement by him an unusual importance. This letter together with the statement of the Schmith family—who while in the Steamer Virginia, were under Dr. Bissell's control, shows what the Bitters have done and can

Another case of Cholera cured by Mish-Another case of Cholera cured by Mishler's Herb Bitters is that of Mr. Pearsol of York county, who, after suffering severely from all the symptons of Cholera, finally became collapsed and while in this state, (the doctors stating that he was beyond relief) a friend administered freely, Mishler's Bitters. The effect was instantaneous; heat was generated in the body, perspiration was induced and after using one bottle Mr. Pearsol was entirely restored.

Mishler's Bitters cures Cholera by counteracting the poison which is the cause of Although at very low prices. No person should be without one.

ARNOLD'S WRITING FLUID.

The genuine article—quarts, pints, half pints and 2 oz. stands. Everything usually kept in the Stationery line, wil be found at
