

Editorial and Miscellaneous. Did they lie? To-day's Agitator. Of course they did—Danville Am'cn. Truth don't spit them.

Can be beat—Miffins' nine of the Columbia Base Ball Club.

Harry H. Heise offers his farm—in West Hempfield Township, at Public Sale. See advertisement.

See the advertisement of the Kaufman property in another column. It is one of the most desirable residences in this vicinity.

We once heard of a dog who had a whistle which grew on the end of his tail. He always called himself when wanted.

It is a bad sign when a preacher tries to drive his logic by thumping the desk violently with his clenched hand. His arguments are so first—i cal.

A girl, while picking rags in a paper-mill in Milwaukee, recently found \$1000 in an old knapsack.

Gov. Robert E. Lee, at the request of a lady, has sent a lock of his hair to St. Louis, to be raffled at a fair.

Governor Orr, of South Carolina, says that he is utterly opposed to the constitutional amendment, and will not recommend its adoption by the Legislature.

The population of New Orleans is double what it was during the war, and one-fourth larger than ever before.

Forty-eight millions of gallons of petroleum oil has been exported from the United States in the last year.

A new style of bonnet has made its appearance in Paris. It is a twine string with a diamond set in the top.

Do you think raw oysters are healthy? said a lady to a physician.

Yes, replied he. I never knew one to complain of being out of health in my life.

Mr. Daniel-Boyer of the Northern Central Railway, will begot our thanks for his kindness to us on Saturday last. May you always wield your sword in defence of the innocent.

The number of schools in New York city is 280, with an average attendance of 92,729 pupils. The whole number of pupils in 1866 is 223,210. The number of teachers employed is 438 males and 2146 females.

The cattle market has got a "black eye," and prices are strongly and steadily sinking downward. Meat consumers do well to remind their butchers of the changes in the wholesale price.

They have a way of forgetting these little matters, which is more profitable to themselves than their customers.

The citizen of Harrisburg, Pa., intend shortly to commence the construction of a new bridge over the Susquehanna.

When will the work of "reconstruction" be commenced over the Susquehanna at this place? It is high time that something was done in this direction.

Up in the Old Regions they are sadly in want of thorough reconstruction. The editors of the Tidouite Journal, one of the most sprightly little sheets in the State, says that the location of the Post-office is so uncertain that they don't know where to send their papers.

A sad affair occurred in New Orleans recently. While three boys were amusing themselves with a toy cannon, on Monday, October 1, one of them put a ball of some other missile into the little gun and fired it in the direction of his mother, not dreaming of the injury it might do. The missile entered the mother's right side, and perforating the heart, was almost immediately fatal.

Mount Hood, Oregon, was recently ascended and explored by a party of scientific gentlemen, who report that it is really a volcano, and that it is the highest mountain in the United States—its height being 11,600 feet.

What has become of our correspondent in that region?

A band of gipsies comprising eight or ten families, were encamped at Fogsville on Sunday, and did a thriving business in the way of fortune telling, horse trading, &c. They had with them some twenty good horses. If they stay long in that locality, hay, corn, poultry, &c., will be apt to get scarce and increase in price, for Gipsies will at all times rather steal than pay. Allentown Democrat.

It will be most gratifying to our readers to know that an eminent mathematician has demolished various theories of solar heat, and demonstrated that for 30,000 years to come the sun will continue to afford sufficient caloric to sustain human life upon the surface of the earth. This is about as long as any of us will be personally interested in the matter, and the prospect of our descendants being frozen to death is too remote to cause any serious uneasiness.

Among the new inventions is a button which is fastened to cloth without thread. It is said to consist solely of a button with a wire, to be inserted into the cloth like a cork-screw, and then pressed down flat, so as to form a ring to hold the button to its place. As this invention will enable men to keep the buttons on their shirts, it is calculated to do away with wives all together.

An Irishman fell in love with a lady, but, instead of reciprocating his affections, fell in love with another man, and married him, which caused Pat to exclaim, in the fullness of his heart—"Och, would that you had been born twins, so that I could have had half of you."

General McClellan has, for two years past, been withdrawn from immediate communication with the American public and wholly removed from all our political publications. The health of his family has claimed his entire attention. He has passed the last summer at St. Maurice, in remote and quiet bathing place in Switzerland, rather he was sent by the orders of physicians. At the latest dates from him he remained in this village, the highest inhabited village in the world, retained by the same causes which have guided all his movements. The hotels were closed; and all summer travel had ceased.
