"MORNING GLORY."—Call at Hiram Wilson's and see the great "Morning Glory."

HAD HIS LEG BROKEN.—Mr. Samuel Hogotogler, an employe at the Shawnee Furnace in this place, whilst watering mules on Sunday afternoon last, gave one of the animals too much "string" and in consequence had his leg broken by being kicked.

RAILROAD IMPROVEMENT.—We notice that the Reading & Columbia Railroad Company are putting a stone arch bridge over the tracks of the Pennsylvania R. R. It was necessary to do this, as their old bridge was only wide enough for one track.

MAN KILLED.—Daniel Kane, a brakeman on a freight train on the Pennsylvania Railroad, was killed near Mountville, early on Sunday morning last. Several trains passed over him. It is supposed that he fell from the platform of one of the cars, while asleep. He was a single man, and resided with his mother at Leaman Place.

GRAND GOP.—The Columbia B. B. Club intend giving a grand hop in Odd Fellows Hall, Tuesday evening, 13th inst. A general good time may be anticipated, as the "Columbia Boys" are all going ahead fellows. We presume they will be dressed in full field costume on the occasion.

OYSTERS.—The bivalve season commences in earnest with this month, and Mr. Benjamin Barr, Locust street opposite Town Hall, has made such arrangements as will enable him at all times, to serve fresh oysters for family use, in any quantity desired. He receives them fresh in the shell, almost daily, and takes orders for delivery at residences. Or you can get a stew, a roast, or a plate of raw at his establishment, at any time.

COLUMBIA & PORT DEPOSIT R. R.—Mr. H. E. Wolfe, Contractor, is busy putting down the rails on the part of the work graded on the Columbia & Port Deposit Railroad. We understand a large force of men are at work at the terminus of the road at Port Deposit, under the superintendance of Robert Crane of this place. All the work will soon be put under contract.

SEND US NEWS.—We will thank our friends in different parts of the county to send us a report of the real estate sales that take place in their respective neighborhoods. We also want local news from all parts of the county. Without this information, a newspaper cannot be made interesting. We must in great measure rely upon our friends for the news of their localities. Send it on, no matter in what shape.

BASE BALL.—The match game played between the Second nines of the "Columbia" of this place, and the "Tecumseh" of Millersville, on Saturday afternoon last, resulted in favor of the latter, by a score of 45 to 25. Six innings only were played, as the game was called, on account of the darkness. The "First Nines" of the "Shawnee" and "Elmo" of this place, play a match game this afternoon at 2 o'clock, on the grounds of the former.

TO OUR FRIENDS.—Now that the hot weather and the election excitement is over, business, therefore, is being resumed with greater activity, and soon the chief amusement, with many classes, will be that which is derived at one's own fireside after the hours of labor. Grouped by the domestic hearth, the members of the family will exchange opinions, on the merits or demerits of this or that place to buy their goods. We would inform them, and all our friends, that the store of Maltby & Case is one of the best places to buy your goods. They have everything necessary for wear, and for the inner-man.

PERSONAL.—Charles H. Slack, formerly of this borough, has been promoted to 1st Assistant Engineer on board the U. S. Steam Ship Augusta. He is an energetic through-going young man, who will make his mark in the world. We are glad to hear of his success. We were permitted to see a very interesting letter written by him, to his uncle, Mr. B. F. Appold of this place. It was dated Hamburg, Germany, October 12, 1866.

WHO WOULD'T BE EDITOR?—If an editor omits anything, he is lazy. If he speaks of things as they are, people get angry. If he glosses over or smooths down the rough points, he is bribed. If he calls things by their proper names, he is unfit for the position he occupies. If he does not furnish his readers with news, he is a nuisance. If he does, he is a troublehead. If he condemns the wrong, he lacks discretion. If he lets wrongs and injuries go unmentioned, he is a coward. If he exposes a public man, he does it to gratify spite. In short, about the only thing he can do to please everybody is to tell people of the large, fine and cheap stock of Fall and Winter goods at the Store of I. O. Bruner, Front street, above Locust.

A MISTAKEN NOTION.—We overheard an "old fogy" the other evening say that Columbia was a "finished town." If he will take a walk around the town, he will very soon discover that he has made a slight mistake. There is scarcely a square where new buildings are not going up or being finished, or being repaired, and numerous as have been the improvements this year, the prospect is that next year there will be twice as many more put up. Remember we have a building association now, which will tend to make our town still more prosperous and flourishing.

HEALTHFUL.—The health of our borough still continues good, and the cholera has been all around us—at Harrisburgh, Lebanon, Reading, Pottstown and other places, not a single case has occurred in Columbia. This we believe to be owing to strict caution and efficient sanitary measures. Our Board of Health should not yet relax their efforts in keeping our town lanes and alleys—in a clean and healthful condition. They should give the borough, at least, one more round, and see that the premises of every dwelling, in door and out, is in perfect trim, and let us show to the world an example of cleanliness.

BASE BALL ACCIDENT.—Mr. A. B. Crist, a member of the Tecumseh B. B. Club of Millersville, sprained his ankle and otherwise hurt himself, whilst playing the match game with the Columbia Club of this place, on Saturday last.

FATAL ACCIDENT.—John Ahlsgler was killed on Tuesday morning last, whilst undermanning a clay bank in the rear of Maltby & Case's Rolling Mill.—The bank caved in upon him covering him up completely. He was at once dug out and medical aid called, but all to no avail: the unfortunate man died soon afterwards. Another workman was injured at the same time, but not seriously.

The following is the report of the Coroner's jury held by Deputy Coroner Culley: "That the deceased came to his death by a bank of earth falling upon him while employed by Henry E. Wolfe, near the Columbia Rolling Mill on the 30th of Oct., 1866."

FATHER ABRAHAM.—Capt. E. H. Rauch having ceased the publication of Father Abraham as a campaign paper, has transferred it to the Evening Dispatch, a Reading daily, which has lately been reprinted and enlarged, and is one of the best papers in that city. The Father Abraham will be published as a weekly, and is one of the most sprightly and independent papers in the state.

POST MASTER APPOINTED.—Henry W. Shultz has been appointed Post Master of Columbia, in place of Mrs. Mary C. Fry, who is removed for no other cause than that of her son—who was a soldier in the Union army—voting the Republican ticket; and who could not be induced to change his political sentiments in favor of "My Policy." Mrs. Fry, we believe, has no other means of support. In the discharge of her duties it has always been her aim to act honorably and uprightly with everyone. As Post Mistress she has been entirely successful in gaining the approbation and good will of the community. She was filled with office with credit, honesty and satisfaction to the Department, and her removal is generally condemned.

HOW THE HAIR IS WORN.—The mandates of fashion have been over severe for three or four years, and now we are paying the penalty of our devotion. Eugene's hair is getting thin on the top of her head! Well, she has plenty of company in her affliction, if that is any comfort to her. The water-falls, cataracts, rats, mice and the thousand other diabolical contrivances of hair dresses, have all tended to one object, to strain at the roots of the hair by tying and twisting in every possible way. The natural consequence is the downfall of the glory of woman. What shall we do? Go back to the fashions of shepherd simplicity, and wear our own ringlets over our shoulders? Alas! for us who have locks like unto the pine tree, and whose tresses have as much spirital tendency as the m at right of poker! Who will come to our relief for the wretched oppressor of the brain and headgear, are prevalent among us? Let's me hair-dresser arise who will free us from this bondage, and great will be his reward!

HALLOW'E'N.—Our streets were the scene of great enthusiasm among the boys, on Wednesday evening last, on the eve of Halloween. It was celebrated here among the young folks; who passed along the streets in crowds, throwing corn against the windows, ringing door bells, and removing steps and gutter crossings. They did not mind if any damage being done, nor any of the ancient customs or experiments being indulged in.

BURNS SAYS OF HALLOW'E'N.—"that is thought to be a night when witches, devils and other mischief-making beings are all abroad." In Scotland, Halloween is celebrated with much spirit, but many of the fair ones attempt to ascertain the appearance and dispositions of their future husbands, by pulling cabbage leaves blind-folded. In this country the cabbages are pulled by mischievous youngsters, who use them to batter doors and hang the stalks to the knobs of the same.

BUILDING ASSOCIATION.—We are archly pleased to be able to announce to our readers that at last our citizens have awoke to the cry of "more houses." A formal meeting of some of the "splendid men" of our town, was held at the office of A. J. Kaufman, Esq., on Friday evening of last week, and it was resolved, to form an association to be known as the "Columbia Building Association," and to go to work at once, to receive subscriptions and put up from twenty-five to fifty houses. Twenty thousand dollars was subscribed at the spot, by the presence, and the things started. A committee was appointed to obtain subscriptions, consisting of Messrs. J. G. Hess, John J. Pease, and S. S. Detwiler. The meeting adjourned to meet on Friday evening, when this committee would report. As we go to press before this meeting is held, we will be unable to give a report on our next issue.

Now that the good work is under way we hope our citizens will come forward and subscribe liberally to the stock of the association. The stock is at present at one hundred dollars each. A charter will be obtained as soon as the Legislature meets, but in the meantime the work will be pressed on, as it is the intention of those who have the matter in hand, to push it forward at once—the cry for more houses makes this a matter of necessity.

SNOW POWDER. Patented May 29th, 1866. This is an article for washing without rubbing, except in the most difficult cases, which will require a very slight rub, and unlike other preparations offered for a like purpose, will not soil the clothing, or stain the usual wear and tear.

It saves all the expense of soap usually used on cotton and linen goods. It saves most of the labor of scrubbing and wear and tear of the goods. Also, for cleaning windows it is unsurpassed. With one quarter the time and labor usually required it cleans windows and glass, much superior to any other mode. No water required except to moisten the powder.

Directions with each package. It can be readily appreciated by a single trial.—The cost of one package of five or six packages will not exceed three cents. The manufacturers of this powder are aware that many cheaply made imitations have been introduced to the public which have rotted the cloth, or failed in removing the dirt, or have injured the property in consequence of this article they confidently proclaim it as being adapted to meet a demand which has long existed and which has heretofore remained unsatisfied.

Manufactured by HOWE & STEVENS, 260 Broadway, Boston. Also, Manufacturers of Family Dye Colors. For sale by Grocers and Dealers everywhere. Oct. 20 2m
