This is an article for washing without rubbing, ex-cept in very dirty places, which will require a very slight rubb, and unlike other preparations offered for a like purpose, will not rot the clothes, but will leave them much whiter than ordinary methods, without the usual wear and tear. It removes grease spots as if by magic and softens the dirt by soaking, so that rinsing will in ordinary cases entirely remove it. This powder is prepared in accordance with chem-real science, and upon a process peculiar to itself, which is secured by Letters Patent. It has been in us-o for more than a year, and has proved itself an universal favorite; whorever it has been used. Among the advantages claimed are the following, viz WHITE GOODS:
