THE RIVER .- The river is high and filled with floating ice; though, at this writing, (Friday), the steamer "Callie" is making her regular trips.

SKATING .- Lovers of this exhibitating sport havehad a chance to try the ice during the few days past. The Canal Basin and various ponds in the vicinity have furnished amusement for this exercise.

TWELFTH ANNUAL BALL.-The Twelfth Annual Ball of the Old Columbia Fire Company, will be held in Old Fellows: Hall, on New Year's Eve, Monday, 31st inst. It is unnecessary for us to descant upon the probable success of this Ball, as the Committee of Arrangements, already announced, cannot help but make it a perfect success. It appears to be a settled conviction that what the "Columbia Boys" undertake, they always carry through successfully. Let all who wish to pass a pleasant evening, go to the firemen's "Twelfth Annual."

How NEW YORK CITY IS GOV-ERNED.-We have received from the fertile press of Meesrs. Ticknor & Fields, Boston, the above named pamphlet, by Mr. Parton. It is from the North American Review, and has attracted a great deal of interest, and will yet astonish many. Mr. Parton obtained his information from actual personal investigation, and from numerous publications by the Citizens' Association and the city corporation. The system of corruption now practiced far exceeds anything ever imagined by persons not familiar with the abuses that frequently attend municipal government.

FAIR .- The Old Columbia Fire Co. are making great preparations to hold a Fair during Christmas week. The ladies of our town are making great efforts to brilliant and successful affair. A silver for to be presented to the Base Ball Club receiving the highest number of votes. Tickets will be sold for the drawing of various prizes, valued at from \$10 to \$75. The proceeds will be appropriated to liquidate the debt on their new Engine House. We hope our citizens will patronize this Fair, and aid our firemen in their praiseworthy efforts.

READINGS .- We are pleased to learn that our citizens may expect an intellectual treat in the beginning of the coming week, upon Tuesday evening, we believe, from the readings and recitations of the Rev. C. W. Thomson, of York. Mr. Thomson, who is himself well known as a delightful reader and a fine speaker in the pulpit, is still better known to scholars as an excellent poet, which gives us assurance that his taste and judgment in the selections for our entertainment cannot fail to please. We trust that a large, as well as an appreciative audience may assem ble to greet him.

ECLIPSES NEXT YEAR.—There will be four Eclipses in 1867-two of the Sun and two of the Moon, occurring as follows: Annular eclipse of the Sun, March 6th. Invisible here, but visible in Europe, Asia and Africa.

Police Cases.—The following cases were before Samuel Evans, Esq.:

Assault and Battery .- George Shants made complaint against Jacob Harman for assault and battery. The defendant is a pugnacious individual, and made divers threats that no one would take him; but 'Old Ironsides' was not to be intimidated -he very soon had the defendant caged. The facts in the above case are as follows:

On Saturday evening last, the defendant aid our gallant firemen on the occasion, and several other Germans were tippling and we have no doubt but that it will be a at Ulmer's tavern, on the Lancaster pike. The defendant soon left the party and remounted Bat and Silver Ball will be voted mained outside for the purpose of waylaying them when they came out. Afterwards, whilst they were walking down Cherry street, the defe dant knocked George Shants down. with the history of the destruction of the Columbia bridge. The object of our meeting here to-day, is to adopt some measures which may promote its reconstruction.—
The Penna R. R. Company bought of the Columbia Bank or Bridge company, in 1864, the piers and corporate franchises for both bridge and ferry, and they are now its legitimate owner; and its naked and isolated piers to-day testify how much concern and interest the Penna. R. R. company have in the trade and commerce of your counties of Lancaster, York and Adans; your towns of Lancaster, Columbia, York, Gettysburg, Hanover, &c. As long as it is not the interest of this monopoly to rebuild the bridge, as long as your communities will suffer the imposition of paying freight for the circuitous route by paying rieight for the circuits, when twelve Harrisburg, of seventy miles, when twelve miles direct, would accomplish the same; so long the Penna. R. R. company will not rebuild this bridge. Whenever it is to their interest to rebuild, it will be done, their interest to rebuild, it will be done, and not before, and it is for this meeting to adopt some measures to accomplish the desired end. I know of no provision in their charter that limits the period for them to rebuild, and the only remedy lies in politioning the Legislature to repeal their chartered franchises.

Mr. Case said he was authorized by the R & C R R operating the political production.

For the Spy. MR. EDITOR :- I perceive that there is a SAD OCCURENCE IN CHESTER Co.—
As Mr. Samuel Thomas and Esquire Garrett, residing near Brandywine Manor, Chester county, were driving through Waynesburg on their way home, on Wednesday evening last, one of the shafts of the wagon came loose, resulting in a dreadful accident. The horse became frightened and ran off, upseting the wagon and throwing them both to the face with kicked him in project on foot to endeavor to form, for almost nothing, and build a house thereon for considerably less, and thus live

almost rent free.

Now, Mr. Editor, all this sounds very fine, and may be swallowed by a few very silly gudgeons who can take any hook, however slimly baited; but let us calinly view the matter, and see whether our

"City Fathers" are at fault, and leagued

spring, although I was then paying 20 per cent, more than had ever been paid by any previous occupant, and yet the rent, although 50 per cent more than the same house rented for four years ago, is more reasonable-now than it was then; and it one of these grinding and conscienceless capitalists were to present me with a vacant lot, (which of cours, from their grasping, avarieious character, they are not likely to do,) I could not erect the building thereon, at the present prace of labor and material, for a sum that would let me live at as cheap a rent as at present, let me live at as cheap a rent as at present.

I do not say this, Mr. Editor, in the intent of the capitalist, by any mans, for I do not own as much ground in or near the Borough as would bury me, (neither, I presume, does the one who is so anxious o protect the interest of the poor by the formation of this new party), but I say it to guard the working men against the in-sidious wiles of partisans, who will stoop to anything low and mean to accomplish a party object, and the only object at which the movers in this matter aim, is to sneak a few Copperheads into the Borough Councils at the next Election. This party, "from the time the memory whereof lost," has been proverbill for pandering to the lowest passions of the less educated Total eclipse of the San, August 29th.—

This party has just barely promoting any measure which would survived an Election in which they staked counties on either side of the rest of ger!!!? They suffered a most irnomini-ous defeat, but not capable of appreciating columbia must almost be regarded as a calamity; and he would again say, that we are willing to lend a helping hand to any legitimate measure ti at will promote its reconstruction.

Mr. A. S. Green then remarked, that measures heretofore existed which preunable or unwilling to attribute their defeat to the right cause, viz: the increasing intelligence of the people, is again appealing in this matter, to the lowest prejudices of the ignorant, and endeavoring to array labor against capital, the poor against the rich. The old cry of "the ich oppressing the poor" was the one that led to the "Bread riots" in New York some years ago, when the banners inscribed "Bread or Blood" were carried by men in broadcoloth with ten-cent segars in their teeth, and then and there those banners had their effect; but "then and there" are not "now Storm Breast Pins, and then and there those banners had their effect; but "then and there' are not "now and here," as the prime mover in this Workingmen's Party will discover; and he will and that some other rallying cry than "Chenp Building Lots" will have to be invented before he can inveigle the intelligent workingmen of Columbia into voting for Copperheads at the ensuing election. Next week I may enlarge on the subject of the extension of the town, and the opening of the streets, but time and the opening of the streets, but time will not permit at present. So, till then, adien. Yours, &c.,
