THROUGH our exchanges we have had the announcement of several failures in Boston, New York, and the West, of more or less magnitude, within the past few weeks. Speculation, it seems, is coming to grief, and all know how surely and rapidly it travels down hill, when it has had its frail under pinning knocked out and started on the tumble. Circumstances argue such a condition of affairs at present, and while artificial appliances may hold it up temporarily, so rotten is it in both principle and material, that we cannot but look upon a general crash as inevita ble, It is a noticeable fact that the failures which have thus far reached the public ear are almost exclusively of houses engaged in the provision business. and that from all the great commercial centers throughout the country, East and West, reports are made of a continued depression and dropping off in the price of every eatable." This is just as might have been expected. It is in this particudar line that speculation has held its high carnival, and where the first indications of decline were looked for. So it turns out, and here the greatest disasters, if such we may call them, will be experienced. We say a general crash is almost inevitable, but we mean by that, simply that the weak houses, and those that have shown a weakness, in mind while strong enough in purse; and foolishly embarked in the speculative schemes of the day, will be driven to the wall.

-There are no real causes for a continual stagnation, or such as would eventuate in what is termed a great financial crisis, and those who have been even moderately careful, while at the same time operating on a solid basis, will find no difficulty in weathering the storm. There has been no reduction of the currency—there is enough to meet all the demands of trade.

But its an "ill wind that blows nobody .good." Dealers may suffer, but it will prove a blessing to consumers, and we would remind the latter that the benefits are theirs and if they will, they may enjoy them. It is a fact beyond all controversy that while prices in the wholesale markets have declined at the least ealculation twenty per cent. within little more than a fortnight, the old figures are still maintained by many retailers-and they will continue so just as long as cousumers submit to it. There is but one course to take in such cases, and it is easily followed. Let consumers curtail their purchases-buy no more than is positively necessary to meet their present wants-lay in no supplies for the future -wait till prices reach their level, and our word for it they will not wait long before realizing the fact that they have it in their power to regulate all such cases.

ZINGARI BITTERS. CHO ERA

THIS WONDERFUL REMEDY was discovered and introduced about twenty years ago by Dr.

S. Cheop-sis, an emnent Egyptian physician.

He had long seen and felt the want of some remedy which would strike at the root of disease, and so prevent much of the saftering which the human family was then compelled to endure.

The great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was lead to think and experiment; and after ten years of study and labor, he presented to his fellowman the wonderful Zingari. Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellous and astonishing, that the most flattering marks of royal favor were bestowed upon the Roll of Nobles, and a gold medal with the following inscription—Dr. Cheopsus, the Public Benefactor—was presented to him by the Viceroy.

The preparation has been used in several epidemics of cholena, both as a preventive and curative measure; and wath such great success, that it has been introduced into nearly all the general hospitals of the old world.

The old saying that an ounce of prevention is

and lasting.

Numerous cases of the following disease have been cured by it: Cholera, Diarrhaa, Dysentery, Typhoid and Typhus Fever, Fever, Ague, Nervous Deblity, Anaemia, Female Irregularities, Dyspersia, Flatulency, Coic, Scrofula, &c.

CHOLERA

Cured by Mishler's Herb Ritters! When Mishler's Bitters were first introuced to the public the propriotor did not duced to the public the proprious an auterical feel justified in recommending it as a specific for Cholera During the fall of 1865, Dr. Mishler received the following note from Jacob L. Baker, Esq., of Lancuster Pa., a member of the Philadelphia College of Pharmacy. Mr. Baker had a great deal of experience in the treatment of Cholera of experience in the treatment of Cholera is a druggist of sixteen years standing, was Hospital Steward in the Jefferson Hospital, Philadelphia, for three years, and is withal a gentleman of undoubted integrity and one in whose statement the most implicit

confidence an be placed:

Lancaster, November 3d, 1865.

Dr. Mishler—Dear Sir.—Knowing that the Cholera with its dreadful ravages is now upon our land, and knowing that no medifine now in our country possesses such a caloric influence "which is the vital reme-ly for all diseases of this kind," as the Bitters you now making I request you to prepare such a quantity of your bitter as would suit all demands, as I assure you they will be an invaluable remedy, and will be hailed as a blessing by all who will

Yours respectfully.

JACOB L. BAKER.

Being thus urged, and having noticed the Bitters were constantly curing the most violent cases of Diarrhea, Cholera Morbus and kindred complaints, Dr. Mishler at last offered his compounds as a cure for Cholera The result has exceeded his most sanguine expectations and fully justifies all that Mr. Baker says in his note. It certainly proves that Mr. Baker's practical knowledge of nacdicine far exceeds that of most doctors who too often dose their patients with deletions does not be supported by the same of leterious drugs on some absurd theory.— For the purpose of showing that Mishler's Herb Bitters will cure Cholera we give elow a few tacts:

All intelligent persons who have investigated the origin of cholera, agree that it is crused by poison introduced and generated into the system by impure water, dampness, fifth and over-crowded rooms with ness, filth and over-crowded rooms with delicient ventilation. This is proved by the fact that cholera always rages worse on board of ships where all of the above causes are found more or less combined. To cure cholera, and also to prevent it, it is necessary to neutralize this position, and that Mishler's Briters will do this is proven by the following:

The steamship Virginia, arrived at the Port of New York, about the middle of April with cholera board a number of the passengers, having died during the yovage

passengers having died during the voyage with this complaint. Among the passengers were a family named Schmith, from Baden, Germany. This family was attacked with cholera. Fortunately for them they had friends living in this city (Languette March 1988). caster. Pa.,) who knew the virtues of Mishler's Bitters and who procured a bottle and sent it to the Schmith tamily. When this package arrived at Quarantine, the doctors examined it and confiscated the contents. Another bottle was procured and packed in a more secure manner: it safely reached the Schmiths. On its arrival aboard the Virtural aboard the Virt ginia, Henry Schmith and Christ, Schmith were both laboring under choleric symptoms: Mrs. Marcia Schmith, wife of the toms: Mrs. Marcia Schmith, wife of the former was very bad, not expected to recover, and a son had died of the dread complaint and had been buried theday previous. It was in this plight a bottle of Mishler's Bitters, sent forth like an Angel of Mercy found the poor Schmith family.—Henry Schmith was the first to try it, and so instantaneous was the relief he experienced that he gave it to his wife and brother \$2,000,000 00 enced that he gave it to his wife and brother both of whom it at once relieved. They 130,385 13 used the entire contents of the bottle and all three were so much relieved that the physicians permitted them to leave the Virginia, after being confined at quarantine aboard that scourge ship forty-two says.— The Schmiths proceeded to their relatives in Lancaster, and at an early opportunity called on Dr. Mishler to express their graticand on Dr. Mishier to express their gradi-tude for the timely relief they had found in his Bitters. Mr. Henry Schmith stated that all the compounds the doctors had given him did no good, but that one glass of Mishier's Bitters made him feel like a

of Mishler's Bitters made him feel like a new man, warming his whole system, giving him a healthful heat and causing him to perspire freely. His statement was substantially as given above, and he further said that if the dodtors had not kept the first bottle from reaching him, his son would yet hrve been living. Mrs. Schmith was still weak from the effect of cholera, but the continued use of the Bitters were most surely restoring of the Bitters were most surely restoring her accustomed vigor.

It is not to be expected that regular M. Ds. will admit that any remedy not to be found in the Dispensatory will cure Cholera or any other complaint, but candor compels Dr. D. II. Bissell of the Cholera

Hospital ship "Falcon" to admit that he believes Mishler's Bitters to be a "very good Touic." In reply as to a case of Bitters that was sent to him by a well known gentleman of Lancaster, he writes as fol-Hospital Ship Falcon,

George S. Rowbotham, Esq.— Dear Sir:
Yours of the 23d, inst. is to hand. In reply, I beg leave to say, that I received the case of Bitters you sent me for trial &c., that I gave them to the convalescents in Hospital. I believe them to be a very

good tonic Bitters, well adapted to all cases requiring Tonic remedies. requiring Tonic remedies.

D. H. BISSELL, Physician, Hospital Ship "Falcon."

This letter from Dr. Bissell, just after the reception of the Bitters, and before he had time and opportunity to thoroughly test their wonderful medicinal properties is considered an important endorsement, as that gentleman to-day occupies the most important position of any physician in America. The passengers and crews of emigrant and merchant vessels that arrive in the Port of New York from foreign countries, are subject to his inspection and contricts.

in the Port of New York from foreign countries, are subject to his inspection and control, and the great experience he has had in the management of that dreadful disease, Cholera, gives an endorsement by him an unusual importance. This letter together with the statement of the Schmith family—who while in the Steamer Virginia were nuder Dr. Bissell's control. ginia, were under Dr. Bissell's control shows what the Bitters have done and can Another case of Cholera cured by Mish-ler,s Herb Bitters is that of Mr. Pearsol of

ler, s Herb Bitters is that of Mr. Pearsol of York county, who, after suffering severely from all the symptons of Cholera, finally became collapsed and while in this state, (the doctors stating that he was beyond re-lief) a friend administered freely, Mishler's Bitters. The effect was instantaneous; heat was generated in the body, perspira-tion was induced and after using one bot-

so marvellous and astonishing, that the most flattering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the following inscription—Dr. Cheopans, the Public Benefactor—was presented to him by the Viceroy.

The preparation has been used in several epidemics of cholera, both as a preventive and curative measure, and with such great success, that it has been into oldeed into nearly all the general hospitals of the old world.

The old saving that an ounce of prevention is worth a pound of cure, applies with marvelous force to cholera, and therefore any remedy that will protect us against this terrible discase should be freely and persistently used.

All pathologists now agree that the cholera poison acts on the excretory organs, and keeps them in working order, must prevent a sufficient accumulation of the poison to exert its terrible effects on the organism. This is true not only of cholera, out of nearly all other madadies, especially the different forms of fever.

The Great Zingari Bitters is just such a remedy as the ab-we conditions require. Its acts on the organs of exerction and secretion, keeping up a perfect behance between them. This Bitters is composed entirely of roots and herbs, so nicely concected that every organ is acted upon and put in tone. Its taste is pleasant and its effects prompt and lasting.

Numerous cases of the following disease have been every bust of the lower and the poison with concentration in the left hand by a sinke, but at the time did not know of what species it was. Immediately after the bit was bitten in the left hand by as lake, but at the time did not know of what species it was. Immediately after the bit was bitten in the left hand by as lake, but at the time did not know of what species it was. Immediately after the bit was bitten in the left hand by as lake, but at the time did not know own at the time bit was bitten in the left hand by as lake, but at the time did not know on the bust and the snake that bit me as he caught within five yards of the spot where I was bitten. It proved to be what is called a copper snake; at any rate, whether it was the same one that bit me or not—one thing is certain—that your Bitters cured the bite of a snake in my case for which I shall ever be thankful, as I believe it was the means of saving my hand.

I shall be pleased to personally satisfy any one of the truth of the above.

Yours. JACOB RINEHART.
