The Power Behind the Throne. If God, for his own good purposes, had designed to mortify the pride of the American people, He could not have done so in a more convincing way than by the disgraceful position in which we have been placed in the eyes of the civilized world, by the grossignorance and incapacity of William H. Seward.

Let us cast a retrospective glance over the record of the past six years. Early in 1861 we find Mr. Seward notifying the Nations of Europe that " the United States government confessed it could not reduce the secceding States to obedience by conquest."

Again, soon after, we have him depriving the North of all sympathy from the abolition governments of the old world, by assuring them that the status of a single slave would not be changed, look for such a course from Mr. Seward, whether the revolution should succeed or fail. How he endeavored to make good this pledge by retarding, by every means in his power, the immortal Emancipation Proclamation of President Lincoln, is well known; thereby destroying thousands ing the fall campaign in New York, that of noble lives, and losing millions of money and prestige inconceivable to the did not go Democratic, or as he express-Federal government.

Next we find Mr. Seward disgracing American diplomacy by his assurances to our Minister in Mexico, as late as the fall of 1862, that there was and had been no intention on the part of France to prepare a throne in that unhappy country for any foreign prince.

Again we find the French government furnished with all the supplies and munitions of war they asked for when invading our neighboring Republic, and placing themselves in position to aid in the overthrow of our own, when the propitious hour arrived. And at the same time a deaf ear is turned to our sister Republic, asking old mare. only the privileges of neutrality when she found the United States blind to all former pledges, and refusing the aid long promised, and, as Mexico fondly believed, is dead. assured by the Monroe doctrine!

But bad as this whole Mexican muddle has been, the last phase far exceeds the rest. Worse than all is it, that, when the Federal government has reduced A serious scribbler well writes that the rebellious States by conquest; has life is too short to drink poor whiskey, abolished slavery throughout the land, or make love to ugly women. and by the very majesty of our position, has notified France to withdraw her invading legions, that then Mr. Seward should send plenipotentiaries to wander around the Gulf of Mexico, seeking some book of nature? Unsolicited Testimony. From Angrew Archien, Esq., of Friffield, Me.

"About eight years since my son, III-ury A. Archer, now Postmaster at Fairfield, Somerset county, Me. was attacked with spitting of blood, cough, weakness of Lungs, and general debility, so much so that our family physician declared him to have a "SEATED ONSUMPTION." He was under medical treatment for a number of menths, but received no benefit from it. At length, from the solicitation of himself and others, I was induced to purchase one buttle of WISTARS BALSAM OF WILD CIERRY, which benefitted him so much I obtained another bottle, which in a short time restored him to his usual state of health. This is an article for washing without rubbing, except in very dirty places, which will require a very slight rub, and unlike other preparations offered for a like purpose, will not rot the clothes,but will leave them much whiter than ordinary methods, without the usual wear and tear.

It removes grease spots as if by magic, and softens the dirt by soaking, so that riusing will in ordinary cases entirely remove it.

This powder is prepared in accordance with chemical science, and upon a process peculiar to itself, which is secured by Letters Patent.
