

INDEPENDENT, FEARLESS & FREE

COLUMBIA, PA. Saturday, Feb. 9, 1867.

ear All advertising will be considered CASH and collectable at any time after the first insertion.

Exercise for Young Ladies. One of the most encouraging signs of the times is that it has now become fashionable for young ladies to take a great deal of out-door exercise. Pallid faces or willowy figures are no longer thought interesting and attractive, and even a moderate degree of plumtitude is eno longer inadmissible. It is a pleasant sight to visit Jamaica Pond, or any of the little lakes in the vicinity of Boston, and see the bevies of young beauties, disporting en the shining ice-fields .--The only fear we have is that the fondness for out-door sports is only a spasmodic action, that is merely fushionable and not systematic. If it be followed throughout the year by expreises, adapted to each season, as walking, driving, riding, or if a course of in door exercises, such as calesthentics or bowling, such as set the vioissitudes of the weather at defiance, then all will be well, and the young ladies of Aperica will soon rival their blooming English sisters, with whom beauty and health are permanent charms and blessings. And here a little caution suggests itself; we are afraid that a love of excitement leads to overexertion on the part of many girls who are just commencing a series of open air exercise, and whose previous training does not enable them to encounter a great amount of physical labor. All such should remember that exercise ceases to be benificial when it is followed by prostration. They should begin by degrees, and then they will gradually acquire strength and hardihood. By taking short walks at first, gradually increasing the distance traveled, in a few months a healthy girl will be enabled to do her ten miles before dinner, without fatigue,

A Disgusted Editor.

a feat which an English girl would de-

ride to hear pronounced a difficult one.

The Alliance Monitor contains the following manifesto, which indicates that the editor is slightly " riled:" To Whom it may Concern:

Soon after the issue of our paper each week, there is generally from one to half a dozen visiting our sanctum, or printing room, to inquire who wrote various articles which have appeared. . If there is a report of a criminal trial, as soon as the fellow gets loose, up he comes to our sanctum, to ascertain who made the report. If we have criticized any action some one must make inquiry. If we rail out against any Sabbath breaker, rum seller, plugugly, numscull or nuisance, then some one is certain to visit us to request the name of our informer. If we observe a young man who minds his own business, and say so, some one is sure to call in to ask if he did not insert it as an "advertisement." To all such we say, if you do not desire to be kicked down stairs, keep out of our sanctum. If we are not able to do it, we will hire it done. We are disgusted with these soft heads who consider an editor's time only to be employed in giving information to a set of old grannies. An editor | RLACK and COLORED DRESS SILKS is supposed to have an eye open always, with the purpose to record events as they transpire. As we have remarked before, we intend to chronicle nothing that is not in strict accordance with the truth. If anything else finds it's way into our paper, we wish to correct it. We alone are responsible for all of our editorials, and therefore suggest the propriety, in future, of the busy-bodies and others heeding this advice, and giving us no trouble. THE EDITOR.

This Company continues to insured by Mishler's liters Bitters is When Mishler's liters by Ritters is within the public the propriotor did not feel justified in recommending it as a specific for Cholera. During the full of 1865, or Cholera. During the full of 186 Philadelphia, for three years, and is withal a gentleman of undoubted integrity and

a gentleman of undoubted integrity and one in whose statement the most implicit confidence can be placed:

Lancaster, November 3d, 1865.

Dr. Mishler—Dear Sir:—Knowing that the Cholera with its dreadful ravages is now upon our land, and knowing that no medicine now in our country possesses such a upon our land, and knowing that no medicine now in our country possesses such a caloric influence "which is the vital remedy for all diseases of this kind," as the Bitters you now making I request you to prepare such a quantity of your bitter as would suit all demands, as I assure you they will be an invaluable remedy, and will be hailed as a blessing by all who will use it.

will be hailed as a blessing by all who will use it.

Yours respectfully.

JACOB L. BAKER.

Being thus urged, and having noticed the Bitters were constantly curing the most violent cases of Diarrhea, Cholera Morbus and kindred complaints, Dr. Mishler at last oftered his compounds as a cure for Cholera. The result has exceeded his most sanguine expectations and fully justifies all that Mr. Baker says in his note. It certainly proves that Mr. Baker's practical knowledge of medicine far exceeds that of most doctors who too often dose their patients with deleterious drugs on some absurd theory.—For the purpose of showing that Mishler's Herb Bitters will cure Cholera we give below a few facts. below a few facts.

below a few facts.
All intelligent persons who have investigated the origin of cholera, agree that it is caused by poison introduced and generated, into the system by impure water, dampness, filth and over-crowded rooms with deficient ventilation. This is proved by the fact that the colour always rares worse. the fact that cholera always rages worse on board of ships where all of the above causes are found more or less combined

causes are found more or less combined.
To cure cholera, and also to prevent it, it is necessary to neutralize this position, and that Mishler's Bitters will do this is proven by the following:

The steamship Virginia, arrived at the Port of New York about the middle of April with cholera a board a number of the passengers having died during the voyage with this complaint. Among the passengers were a family named Schmith, from Baden, Germany. This family was attacked with cholera. Fortunately for them they had friends living in this city lancaster, Pa.,) who knew the virtues of Mishler's Bitters and who procured a bottle and sent it to the Schmith family. When this package arrived at Quarantine, the doctors examined it and confiscated the contents. Another bottle was procured and packed in a more secure manner: it safely reached the a more secure manner: itsafely reached the Schmiths. On its arrival aboard the Virginia, Henry Schmith and Christ. Schmith ginia, Henry Schmith and Christ. Schmith were both laboring under choleric symptoms: Mrs. Marcia Schmith, wife of the former was very bad, not expected to recover, and a son had died of the dread complaint and had been buried theday previous. It was in this plight a bottle of Mishler's Bitters, sent forth like an Angel of Mercy found the poor Schmith family.—Henry Schmith was the first to try it, and so instantaneous was the relief he experienced that he gave itto his wife and brother both of whom it at once relieved. They used the entire contents of the bottle and all three were so much relieved that the physicians permitted them to leave the all three were so much relieved that the physicians permitted them to leave the Virginia, after being confined at quarantine aboard that scourge ship forty-two says.—
The Schmiths proceeded to their relatives in Lancaster, and at an early opportunity called on Dr. Mishler to express their gratitude for the timely relief they had found in his Bitters. Mr Henry Schmith stated that all the compounds the doctors had given him did no good, but that one glass of. Mishler's Bitters made him feel like a new man, warming his whole system, of. Mishler's litters made him feel like a new man, warming his whole system, giving him a healthful heat and causing him to perpire freely. His statement was substantially was substantially as given above, and he further said that if the doctors had not kept the first bottle from reaching him, his son would yet have been living. Mrs. Schmith was still weak from the effect of cholera, but the continued use of the Bitters were most surely restoring

of the Bitters were most surely restoring her accustomed vigor.

It is not to be expected that regular M. Ds. will admit that any remedy not to be found in the Dispensatory will cure Cholera or any other complaint, but candor compels Dr. D. H. Bissell of the Cholera Hereitel shirt Exlery. Hospital ship "Falcon" to admit that he believes Mishler's Bitters to be a "very good Tonic." In reply as to a case of Bit-ters that was sent to him by a well known gentleman of Lancaster, he writes as fol-

Hospital Ship Falcon,
Quarantin, New York, June 7th, 1866.
George S. Rowbotham, Esq.— Dear Sir:
Yours of the 23d, inst, is to hand. In rerours of the 25d, first is to fland. In reply, I begleave to say, that I received the case of Bitters you sent me for trial &c., that I gave them to the convalescents in Hospital. I believe them to be a very good tonic Bitters, well adapted to all cases requiring Tonic remedies.

requiring Tonic remedies.

D. H. BISSELL, Physician,

Hospital Ship "Falcon."

This letter from Dr. Bissell, just after the reception of the Bitters, and before he had time and opportunity to thoroughly test their wonderful medicinal properties is considered an important endorsement, as that gentleman to-day occupies the most important position of any physician in America. The passengers and crews o emigrant and merchant vessels that arrive in the Port of New York from foreign counemigrant and merchant vessels that arrive in the Port of New York from foreign coun-tries, are subject to his inspection and con-trol, and the great experience he has had in the management of that dreadful dis-ease, Cholera, gives an endorsement by him an unusual importance. This letter together with the statement of the Schmith family—who while in the Steamer Virginia, were under Dr. Bissell's control, shows what the Bitters have done and can

Another case of Cholera cured by Mishler's Herb Bitters is that of Mr. Pearsol of York county, who, after suffering severely fork county, who, after suffering severely from all the symptons of Cholera, finally became collapsed and while in this state, (the doctors stating that he was beyond relief) a friend administered freely, Mishler's Bitters. The effect was instantaneous; heat was generated in the body, perspiration was induced and after using one bottle Mr. Pearsed was outlied was restored.

A Sure Proventative of CHOLERA

THIS WONDERFUL REMEDY was discovered and introduced about twenty years ago by Dr. S. theopseus, an eminent Egyptian physician. He had long seen and felv the want of some rome dy which would strike at the root of disease, and so prevent much of the suffering which the human family was then compelled to endure.

The great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was lead to think and experiment; and after ten years of study and hobor, he presented to his fellow man the wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellous and astonishing, that the most flat the ring marks of royal favor were bestowed upon him who discovered it. His name was placed upon him who discovered it. His name was placed upon him who discovered it. His name was placed upon him who discovered to him by the Viceroy. The preparation has been used in several epidemics of cholera, both as a preventive and currative measure, and, with scach greats success, that it has been introduced into nearly all the general hospitals of the old world.

The bound of cure, applies with maryelous force to cholera, both as a preventive and persistently used.

All pathologists now agree that the cholera poison acts on the excretory organs, and keeps them in working order, must prevent a sufficient accumulation of the poison to exert its terrible different forms of fever.

The offer all provided the prevention of the poison and therefore any remedy that will provide the provided the provided that the cholera poison acts on the excretory organs, and keeps them in working order, must prove the provided the provided that the provi none. Its taste is pleasant and at cheers prompt and lasting.

Numerous cases of the following disease have been cured by it. Cholera, Diarrhea, Dysentery, Typhoid and Typhus Fover, Fover, Ague, Nervous Debility, Anaemia, Female Irregularities, Dyspersia, Flatulency, Coic, Scrofula, dc.

Price one dollar per quart bottle.
