A MAJORITY of the committee appointed by Congress to investigate the cause of the New Orleans massacre, of July 30th, 1866, and to report such legislative action . as the condition of the State requires, have made a report, and show clearly that such an unjustifiable, fiendish butch ery, he not its parallel in the history of

the world; the whole thing, from beginning to end, was the result of the encouragement and moral aid of "My Policy." Mayor Munroe and his "Thugs" certainly must have thought, nay, must have received an intimation from some source, that they would be protected in breaking up a meeting of loyal citizens, in brutally-murdering the few ratifotic citizens who had gathered together from the different sections of Louisiana, for the purpose of quietly discussing what had best be done to advance the interests of the State. Yes, they thought they would murder these leading Union men, and then all would be clear sailing for the rebels. Aye, fellow loyal citizens, the starry banner affords us no protection within the limits of a State that has been in rebellion. We dare not to-day go into any of these Southern States and proclaim aloud our sentiments. No! Your loyalty to the Governments of the United States once known, and you are the marked victim of a rebellious mob, or sure to receive the penalty of your patriotism at the hands of the assassin. Even in Tennes see, a reconstructed State, gray-haired Schators and unoffending citizens are ruthlessly butchered in open daylight. Aye, in the very State that Andy Johnson hails from, treason writes its red, gory record in the blood of the State's ablest and best citizens. Yet the advocates of "My Policy" tell us we should be magnanimous, offer them the right hand of fellowship, and be stabbed to the heart for our pains. We must let them vote, take, them back as brothers, let them send up men to the legislative halls, whose blood, that the very earth should cry out A NOTHER LOT of those HANDSOME and groan beneath their tread. Yet, we must give them their rights, we must DOUBLE WIDTH all Wool Delaines at have no prohibitery or discriminating laws; but they can pass any kind of law they please, and violate at their pleasure even to the taking of human life, all laws. This is the workings of "My We say to the people to-day, that had we a man in the Executive chair who would have enforced the law immediately upon the surrender of the rebel armies, not one drop of human blood would have been spilled, nor would we now hear the faintest whisper of treason in any of the rebellious States. Let us advocate none but Radical measures until in every State that ever was in the Union there shall be a loyal government,breathing a true spirit of fealty and de-

titled to any of the rights, privileges and respect of citizens. An Invention for Railroads. The Sandusky, (Ohio,) Register says that a gentleman in that city has recently secured a patent on an invention which cannot fail to prove most valuable to the railroads of the country. This invention abolishes the necessity of passing between two cars in order to shackle them. It is very simple, in design, of trifling cost, and easily adjusted to the car. A car is unshackled by a single movement of a lever at either side of the car. The lever is attached to an iron rod which passes across the end of the car, and is itself attached to the coupling pin. A turn of the lever draws the pin. and another turn of the lever leaves the pin in such a position that the car will shackle itself whenever another car, having a link, is shoved against it. Thus, with this apparatus, in addition to the perfect safety it secures, one man in making up a train, can do the work of two and perhaps three.

votion to one common government, mak-

ing treason odious and hateful; and com-

pelling traitors to undergo a process of

naturalization before they shall be en-

THE GREAT
ZING ARI BITTERS.
CHOLERA

A Sure Preventative of CHIOLERA

THIS WONDERFUL REMEDY was discovered and introduced about twenty years ago by Dr. S. Cheopsus, an eminent Egyptian physician. He had long seen and felt the want of some remedy which would strike at the root of disease, and so prevent much of the suffering which the human family was then compelled to endure.

The great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was lead to think and experiment; and after ten years of study and labor, he presented to his fellow-man the wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellous; and astonishing, that the most flatering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the following inscription—Dr. Cheopsus, the Public Benefactor—was presented to him by the Viceroy.

The preparation has been used in several epidemies of cholera, both as a preventive and curative measure, and with such great success, that it has been introduced into nearly all the general hospitals of the old world:

The old saying that an ounce of prevention is worth a pound of cure, applies with marvelous force to biolera, and therefore any remedy that will protect its against this terrible disease should be freely and persistently used.

All pathologists now agree that the cholera poison acts on, the excretory organs, and keeps, then in working order, must prevent a sufficient accumulation of the poison to exert its terrible effects on, the organism. This is true not only of cholera, but of organism. This is true not only of cholera, but of organism of fever:

The Great Zingari Bitters is just such a remedy as the above conditions require. Its acts on the organs of exerctioning secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and hereby, so nicely conc

CHOLERA

Cured by Mishler's Herb Bitters! When Mishler's Bitters were first intro-When Mishler's Bitters were first intro-duced to the public the propriotor did not feel justified in recommending it as a spe-cific for Cholera. During the fall of 1865, Dr. Mishler received the following note from Jacob L. Baker, Esq., of Lancaster Pa., a member of the Philadelphia College of Pharmacy. Mr. Baker had a great deal of experience in the treatment of Cholera is a druggiet of sixteen years standing was is a druggist of sixteen years standing, was Hospital Steward in the Jefferson Hospital, Philadelphia, for three years, and is withal a gentleman of undoubted integrity and one in whose statement the most implicit confidence can be placed:

use it.

Yours respectfully.

JACOB L. BAKER.

Being thus urged, and having noticed the Bitters were constantly curing the most violent cases of Diarrhea, Cholera Morbus and kindred complaints, Dr. Mishler at last offered his compounds as a cure for Cholera for the result has recorded his most sampling.

who too often dose their patients with de-leterious drugs on some absurd theory.— For the purpose of showing that Mishler's Herb Bitters will cure Cholera we give pelow a few facts.

All intelligent persons who have investi

necessary to neutralize this position, and that Mishler's Bitters will do this is proven by the following:
The steamship Virginia, arrived at the Port of New York about the middle of April with cholern a board a number of the passengers having died during the voyage passengers were a family named Schmith, from Baden, Germany. This family was attacked with cholera. Fortunately for them they had friends living in this city Lau-caster, Pa.,) who knew the virtues of Mish-ler's Bitters and who procured a bottle and sent it to the Schmith family. When this package arrived at Quarantine, the doctors examined it and confiscated the contents.

Another bottle was procured and packed in a more secure manner: it safely reached the Schmiths. On its arrival aboard the Virginia, Henry Schmith and Christ. Schmith were both laboring under choleric symp-toms: Mrs. Marcia Schmith, wife of the former was very bad, not expected to re cover, and a son had died of the dread com plaint and had been buried theday previ ons. It was in this plight a bottle of Mishler's Bitters, sent forth like an Angel of Mercy found the poor Schmith family.—
Henry Schmith was the first to try it, and so instantaneous was the relief he experienced that he gave it to his wife and brother both of whom it at once relieved. They used the entire contents of the bottle and all three were so much relieved that the physicians permitted them to leave the Virginia after being confined at quarantine Virginia, after being confined at quarantine aboard that scourge ship forty-two says.—
The Schmiths proceeded to their relatives in Lancaster, and at an early opportunity called on Dr. Mishler to express their gratitude for the timely relief they had found in his Bitters. Mr Henry Schmith stated that all the compounds the doctors had given him did no good, but that one glass of Mishler's Ritters unde him feel like a of Mishler's Bitters made him feel like a new man; warming his whole system, giving him a healthful heat and causing

him to perspire freely. His statement was substantially was substantially as given above, and he further said that if the doctors had not stept the first bottle from reaching him, sis son would yet hrve been living. Mrs. Schmith was still weak from the effect of cholera, but the continued use of the Bitters were most surely restoring her accustomed vigor of the Bitters were most surely restoring her accustomed vigor.

It is not to be expected that regular M. Ds. will admit that any remedy not to be found in the Dispensatory will cure Cholera or any other compaint, but candor compels Dr. D. H. Bissell of the Cholera Hospital ship "Falcon" to admit that he believes Mishler's Bitters to be a "very good Tonic." In reply as to a case of Bitters that was sent to him by a well known gentleman of Lancaster, he writes as follows:

Hospital Ship Falcon,
Quarantin, New York, June 7th, 1866.
George S. Rowbotham, Esq.— Dear Sir:
Yours of the 23d, inst. is to hand. In reply, I beg leave to say, that I received the

that I gave them to the convalescents in Hospital. I believe them to be a very good tonic Bitters, well adapted to all cases requiring Tonic remedies.

Another case of Cholera cured by Mish-Another case of Cholera cared by Mish-ler, s Herb Bitters is that of Mr. Pearsol of York county, who, after suffering severely from all the symptons of Cholera, finally became collapsed and while in this state, (the doctors stating that he was beyond re-lief) a friend administered freely, Mishler's

lief) a friend administered freely, Mishler's Bitters. The effect was instantaneous; heat was generated in the body, perspiration was induced and after using one bottle Mr. Pearsol was entirely restored.

Mishler's Bitters cures Cholera by counteracting the poison which is the cause of the disease. Poison in the system, whether generated by bad air, filth, &c., as in Cholera, or introduced by the bite of a venomous snake or mad dog will be expelled and all bad symptons allayed by the use of Michler's Herb Bitters. The above proves this to be the fact in Cholera and the certificate of Mr. Rhinehart proves that Mishler's Billers will cure the bite of a poisonous snake:

and the certificate of Mr. Rhinehart proves that Mishler's Billers will cure the bite of a poisonous snake:

Lancaster, July 4th, 1865.

Mr. B. Mishler—Sir:—About eight weeks since I was bitten in the left hand by a snake, but at the time did not know of what species it was. Immediately after the bite my hard swelled to a very; large size, and the poison appeared to be working up my arm. I suffered great pain in my hand and arm; I had to quit work and was afraid I would be compelled to have my hand amputated. I came to you, and by your advice washed my hand and arm with your Herb Bitters at the same time taking it inwardly. In eleven days I was able to go to work again.—The poison was all drawn out and Mishler's Herb Bitters was the only, medicine or application that I made use of. Mr. Christian Burns, a near neighbor of mine, went out a day or two after to the place where I was bitten, and killed what I believe was the same snake that bit me as he caught within live typered to be went in was bitten. It wards of the spot where I was bitten. yards of the spot where I was bitten. It proved to be what is called a copper snake; tone. Its taste is pleasant and its effects prompt and lasting.

The second of the following disease have been cured by it: Cholera, Diarrhora, Dysentery, Typhold and Typhus Fever, Fever, Ague, Nerrous Debility, Anaema, Fernale Irregularities, Dyseppsia, Flantinency, Coie, Scrofula, dc.
