## Ye Lovyers.

They were sitting side by side;
And she sighed, and then he sighed;
Said he, "My darling idol,"
And he idled, and then she idled;
"You are creation's belle,"
And she bellowed, and then he bellowed;
"On my soul there's such a weight,"
And he waited, and then she waited;
"You hand Lask so hold Tyre groups."

And he waited, and then she waited;
"Your hand I ask so bold I've grown,"
And she groaned, and then he groaned:
"You shall have a private gig,"
And she giggled, and then he giggled;
Said she, "My dearest Luke,"
And he looked, and then she looked;
"Shan't we," and they shantied;
"I'll have thee if thou wilt,"
And he wilted, and then she wilted.

# The Gettysburg Spring.

The Gettysburg Springs have at length been fairly pitted against their most celebrated cotemporaries of the old and new worlds.

This has happened in this city, in a case of rheumatic gout, on which not only the most famous foreign and domestic mineral waters, but the whole resources tried.

It was accompanied with the urate de posites in the form of hard lumps or chalk stones, which were dropping from his limbs and body. It had crippled him for an ordinary life time, and was constantly getting worse.

It was in short one of those cases which lithia waters are supposed to cure, though several of them failed to do so, among the rest the famous Vichey.

An eminent physician here pronounced the case as far beyond the reach of ordinary remedies, or of any other than miraculous agency, as if he was ectombed.

Yet this desperate and reputed incurable case is slowly succumbing to the power of the strange water which bubbles from the rocks near Gettysburg. It is the first instance in which this water has produced the violent aggravation of rheumatic or gouty symptoms ascribed to the lithia Baden-Baden waters of Europe. It was produced by taking it in two large doses. But the patient has persevered, and the result is the disap- DOUBLE WIDTH all Wool Delaines at pearance of one of the largest lumps, and the softening and diminution of the balance of them.

The venders of mineral waters in this city, artificial and natural, are puzzled and alarmed at this illustration of the power of the unknown water, without taste or odor.

This single case is likely to do more for Gettysburg than all the big Committees, and blustering pretensions of negotiators who have figured in connection with the springs, disgracing themselves, and mortifying the people of Gettysburg. -Cor. Gettysburg Star.

# Pennsylvania Products.

The three great staples in the production of which Pennsylvania is pre-eminent, are coal, pig iron and petroleum The immense extent of the industries involved in these products, and the cnormous value to which each of them has risen in late years, are chronicled in the report of Plain Mourning Goods, the Board of Trade for 1866 just published in Philadelphia. The product of coal in Pennsylvania during the year is estimated in round numbers at 16,000. 000 tons, or one fourth more than in 1860; and its value at the markets of first delivery was at least \$80,000,000. The product of petroleum during the year is given at nearly 90,000,000 of gallons, valued at over \$47,200,000. The product of pig iron during the year is given at 646,000 tons, valued at over \$31,000,000. The aggregate value of coal, petroleum and pig iron, for the year, was \$158,231,243. The Press, in speaking of the great value of these resources, · which, in the present industrial development of the country, may almost be cousidered peculiar to Pennsylvania, remarks: "Our coal product is worth as much as the gold product of the Pacific States, and our pig iron and petroleum yield yearly a richer revenue than was ever obtained from the famous silver mines of Mexico and Peru." We are sure the Pennsylvanians are justified in boasting of the gigantic growth of these profitable industries. When they can take from articles valued at nearly one hundred and sixty millions of dollars, besides all the vast agricultural" and 'pastoral pro ductions of its surface, they must be allowed the credit of a rich inheritance and a resplendent domain.

# ZINGARI BITTERS. CHOLERA

THIS WONDERFUL REMEDY was discovered and introduced about twenty years ago by Dr. S. Cheopens, an eminent Egyptian physician. He had long seen and felt the want of some remedy which would strike at the root of disease, and so prevent much of the suffering which the human tamily was then compelled to endure. The great question was presented to his mind every day in a vid colors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was lead to think and experiment; and after ten years of study and labor, he presented to his fellow-man the wonderful Zingart Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellous and astonishing, that the most thatering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the Roll'of Nobles, and a gold medal with the following inscription—Dr. Cheopeus, the Public Benefactor—was presented to him by the Viceroy.

The preparation has been used in several epidemics of cholein, both as a preventive and cirative measure, and with such great success, that it has been introduced into nearly all the general hospitals of the old world.

The old saying that an ounce of prevention is worth a pound of oure, applies with marvelous force

and lasting.

Numerous cases of the following disease have been cured by it; Cholera, Diarrhera, Dysentery, Typhoid and Typhus Fever, Fever, Ague, Nervous Dabilty, Anaemia, Female Irregularities, Dyspepsial, Flantelney, Co.ic, Scrofulz, 4c.

CHOLERA

Cured by Mishler's Herb Bitters!

Yours respectfully.

JACOB L. BAKER.

Being thus urged, and having noticed the Bitters were constantly curing the most violent cases of Diarrhea, Cholera Morbus and kindred complaints, Dr. Mishler at last offered his compounds as a cure for Cholera The result has exceeded his most sanguine expectations and fully justifies all that Mr. Baker says in his note, It certainly proves that Mr. Baker's practical knowledge of nedicine far exceeds that of most doctors who too often dose their patients with deleterious drugs on some absurd theory.—

that Mishler's Bitters will do this is proven by the following:

The steamship Virginia, arrived at the Port of New York' about the middle of April with cholera a board a number of the passengers having died during the voyage with this complaint. Among the passengers were a family named Schmith, from Baden, Germany. This family was attacked with cholera. Fortunately for them they had friends living in this city tancaster, Pa.,) who knew the virtues of Mishler's Bitters and who procured a bottle and caster. Pa.,) who knew the virtues of Mishler's Bitters and who procured a bottle and sent it to the Schmith family. When this package arrived at Quarantine, the doctors examined it and confiscated the contents. Another bottle was procured and packed in a more secure manner: itsafely reached the Schmiths. On its arrival aboard the Yorginia, Henry Schmith and Christ. Schmith were both laboring under cholerie symptoms: Mrs. Marcia Schmith, wife of the former was very bad, not expected to recover, and a son had died of the dread complaint and had been buried theday previous. It was in this plight a bottle of Mishler's Bitters, sent forth like an Angel of Mercy found the poor Schmith family.—Henry Schmith was the first to try it, and so instantaneous was the relief he experiso instantaneous was the relief he experi-enced that he gave it to his wife and brother of Mishler's Bitters made him feel like at new man, warming his whole system, giving him a healthful heat and causing him to perspire freely. This letter from Dr. Bissell, just after the reception of the Bitters, and before he had time and opportunity to thoroughly test their wonderful medicinal properties is considered an important endorsement, as that gentleman to-day occupies the most important position of any physician in America. Mishler's Bitters cures Cholera by counteracting the poison which is the cause of the disease. Poison in the system, whether generated by bad air, filth, &c., as in Cholera, or introduced by the bite of a venomous snake or mad dog will be expelled and all bad symptoms allayed by the use of Michler's Herb Bitters. The above proves this to be the fact in Cholera and the certificate of Mr. Rhinehart proves that Mishler's Billers will cure the bite of a poisonous snake:
