ANOTHER HEARSE.-Another hearse, similar to the one built sometime ago for Mr. John Shenberger, of this place, has just been finished, at the steam carriage manufactory of Christian Myers, for Mr. Geo. Seibert, of this borough. It is a most beautiful piece of workmanship, and has not that disagreeable appearance which to the view by two small trucks which are attached to the table.

LEBANON VALLEY COLLEGE .--- In another column will be found an advertisement of the Lebanon Valley College. This is one of the most flourishing schools in the State, and students are coming in from all quarters. The Principal, Rev. T. R. Vickroy, is a man well fitted for the position he occupies. Any school would flourish under his guidance and superintendence; as he is a ripe scholar, a strict disciplinarian, and careful in the selection ofteachers. The Church Conference which met on the 21st ult., appropriated \$35,000 for the purpose of purchasing additional ground and erecting suitable buildings. A Charter is now before the Legislature, giving this institution full Collegiate powers, and making Prof. Vickroy President of the College, for four years.

It is an old saying that there is nothing in a name, but surely "Post" has a signification. accompanies this kind of weather. We offer a few hints upon the most approved methods of supplying them with cases. Persons who are partial to rheumatism should wear thin boots and be careful to keep them well soaked with snow-water. A quick fever can be produced by leaving off overcoats. Neuralgia camplaints are open to all who walk till they become heated, and then stop at the corner of a street and cool off by a genial chat with some good fellow. Coughs are free to all who insist upon throwing open their coats in order to catch the genile south breeze which prevails.
