Women Eyeing Women.

The eyeing of women by women is one of the most offensive manifestations of superciliousness now to be met with in society. Few observant persons can have failed to notice the manner in which one woman, who is not perfectly well bred or perfectly kind-hearted, will eye over another woman who she thinks is not in such good society, and above all, not at the time in so costly a dress as she herself is in. It is done everywhere; at parties, at church, in the street. It is done by women in all conditions of life. The very servant girls learn it of their mistresses. It is done in an instant. Who cannot recall hundreds of instances of that sweep of the eye which takes in at a glauce the whole woman and what she has on, from top-knot to shoe tie? Men are never guilty of it, or with such extreme rarity and then in such feeble and small-souled specimens of their sex, that it may be set down as a sin not masculine, or at least cpicebo. But women of sense, of FRENCH MERINOES and ALL WOOL some breeding, and even of some kindliness of nature, will thus endeavor to assert a superiority upon the meanest of all pretenses, and inflict a wound in a manner the most cowardly, because it cannot be resented and admits of no re tort. If they but only knew how unlovely, how positively offensive they make themselves in so doing, not only to their silent victims, but to every generous hearted man who observes their manœuvres, they would give up a triumph at once so mean and so cruel, which is ob tained at such sacrifice on their part No-other evidence than this eyeing is

HOMEOPATHY IN THE MASSACHU-SETTS LEGISLATURE. - Doctors (without the M. D.) homeopathic, and doctors (with the M. D.) allopathic, were buzz ing in and out of the Senate all day today for and against granting the proposed Homeopathic College authority to confer the degree of M. D. The oldschool doctors of medicine seem more illiberal than the old-school doctors of theology, yet one of the greatest sticklers for the right by prescription to confer this title, Dr. O. W. Holmes, never writes a story, and hardly a poom, without a fling at the illiberality of theo-fogiens. Let Lim swallow his own pills. These doctors are willing that the new college shall confer the degree of H. M. D., (homeopathic doctor of medicine.) The bill was recommitted to give all chance to be heard .- Springfield Re-

Tue distinguishing symbol of the nation's power is the flag; but the distinguishing symbol of the nation's progress is the locomotive. From the Lakes to the Gulf the iron-horse halts not between high and low latitudes, but courses on in the service of commerce, interchanging the products of the North Plain Mourning Goods, and the South; and so, too, from the Pacific to the Sierra Neveda and from the Atlantic almost to the foot-hills of the Rocky Mountains, the steam steed makes mile-posts of degrees of longitude, in a race across great altitudes, upon a course that will open a smooth way from ocean to ocean, and bring the cities of the East and the cities of the West near together in time, for unity, intercourse and trade.

A COLORED boy in Norfolk, Virginia, bears one of the most singular marks nhat Dame Nature has ever placed upon the form of human species. Each finger tail on the right hand is the exact counterpart of an oyster shell. The crustaceous covering of the bivalve is perfectly represented in shape, color, and the rough appearance that the outer surface of the oyster shell usually presents. The boy was born and raised in the oyster district, and bears the evidence of his nativity on his fingers.

below a few facts.

All intelligent persons who have investigated the origin of cholera, agree that it is caused by passon introduced and generated into the system by impure water, dampinto the system by impure water, dampness, filth and over-crowded rooms with deficient ventilation. This is proved by the fact that cholera always rages worse on board of ships where all of the above causes are tound more or less combined. To cure cholera, and also to prevent it, it is necessary to neutralize this position, and that Mishler's Bitters will do this is proven by the following:

OF PHILAPET ADEL ACTION IN THE PROPERTY OF THE PROP

that Mishler's Bitters will do this is proven by the following:

The steamship Virginia, arrived at the Port of New York about the middle of April with cholera a board a number of the passengers having died during the voyage with this complaint. Among the passengers were a family named Schmith, from Baden, Germany. This family was attacked with cholera. Fortunately for them they had friends living in this city tancaster, Pa.,) who knew the virtues of Mishler's Bitters and who procured a bottle and Geo. Fales. Jacob R. Smith ler's Bitters and who procured a bottle and sent it to the Schmith family. When this package arrived at Quarantine, the doctors examined it and confiscated the contents Another bottle was procured and packed in a more secure manner: it safely reached th schmiths. On its arrival abourd the Virginia, Henry Schmith and Christ, Schmith were both laboring under cholerie, symptoms: Mrs. Marcia Schmith, wife of the former was very bad, not expected to recover, and a son had died of the dread complete that the description. plaint and had been buried theday previous. His statement was substantially was substantially as given above, and he further said that if the doctors had not kept the first bottle from reaching him, his son would yet have been living. Mrs. Schmith was still weak from the effect of cholera, but the continued use of the Bitters were most surely restoring

> family—who while in the Steamer Virginia, were under Dr. Bissell's control, shows what the Bitters have done and can Another case of Cholera cured by Mishler's Herb Bitters is that of Mr. Pearsol of York county, who, after suffering severely from all the symptons of Cholera, finally became collapsed and while in this state, (the doctors stating that he was beyond relief) a friend administered freely, Mishler's Bitters. The effect was instantaneous; heat was generated in the body, perspiration was induced and after using one bottle Mr. Pearsol was entirely restored.

As the Preventative of CITOLERA.

This wonderful, hemely was discovered and introduced about twenty years ago by Dr. S. cheopsus, an eminent Egyptine physician.

He had iong seen and felt the want of some remedy which would strike at the root of disease, and so prevent much of the suffering which the human family was then compelled to endure. The great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was lead to think and experiment; and after the years of study and labor, he presented to his a new man the wonderful Zingari Bitters. The effect of this preparation has been used in several epidemies of cholera, both as a preventive and curative measure, and with such great success, that it has been introduced into nearly all the general hospitals of the old world.

The old saying that an onnee of prevention is worth a pound of cure, applies with marvelous force to cholera, and therefore any remedy that will protect us against this terrible disease should be freely and persistently used.

Alishler's Bitters cross Cholera by counteracting the poison which is the cause of the disease. Poison in the system, whether generated by bad air, filth, &c., as in Cholera, or introduced by the bite of a venomous snake or mand dog will be expelled and all had synuptons allayed by the use of Micheler's Bitters. The above proves this to be the fact in Cholera and the certificate of Mr. Rhinehart proves that Mishler's Billers will cure the bite of a poisonous snake:

Mr. B. Mishler-Sir.—About eight weeks since I was bitten in the left hand by a snake, but at the time did not know of what species it was. Immediately after the bite my hand swelled to a very large size, and the poison on appeared to be working or dec, must prevent a sufficient accumulation of the poison to exert its certible effects on the organs of texerction and secreton, keeping and persistently used.

The Great Zingari Bitters is just su remark an other manaces, especially a control of fever.

The Great Zingari Bitters is just such a remedy as the above conditions require. Its acts on the organs of exerction and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and herbs, so nicely consocied that every organ is acted upon and put in tone. Its taste is pleasant and its effects prompt and lasting.

I made use of. Mr. Christian Burns, a near neighbor of mine, went out a day or two after to the place where I was bitten, and killed what I believe was the same such as the such a remedy and action. It is taste is pleasant and its effects prompt and lasting. ione.
