It would be decidedly Republican, and it was a knowledge of this fact that caused the infamous massacre in New Orleans at the time that the Constitutional Convention at tempted to assemble under the proclamation of Governor Wells. As to the probability of another massacre we know nothing. New Orleans is not the capital of Louisiana, and the Convention may, therefore, meet at Baton Rouge. But if it should assemble in New Orleans, General Sheridan, warned by the sad experience to suffer a repetition. In that instance President Johnson interfered to protect passed no law to prevent him. CLIMAX.

A plain statement of facts. I inherited Scrofula, and many of my relations have died of it. In 1339 my case was frightful. Tumors and ulcers spread until in 1842, under the advice of my physici ins I went to Avon Springs. I received no benefit—tried every medicine and did everything I could. I had to rest my arm on a cushion, and had not been able to raise it to my head for over a year. The discharge from two ulcers was nearly a pint a day. Amputation was recommended; but pronounced dangerous. I could not sleep, and my sufferings were intolerable. A friend brought me an English physician who applied a salve with which he said he had accomplished extraordinary cures in the hospitals in England. It commenced to relieve; I persisted in its use; it finally effected a perfect and entire cure. It is now 1848. It is five years since I had the appearance of a scrofulous sore, and my health has been good ever since. I procured the receipt of this wonderful article—this blessing of humanity—and have called it "Pace's Climax Salve," and allow the public to use it or not as they choose. This is a brief but candid statement, given more fully in my circular.

Since his recovery, he has devoted his attention exclusively to the cure of Cansunption, and the diseases which are usually compliented with it, and the cupes offected by his medicines have been very numerous and truly wonderful. Dr. Schenek makes professional visits to several of the larger cities weekly, where he has a large concourse of patients, and it is truly astonishing to see poor consumptives that have to be lifted out of their carriages, and in a few months healthy, robust persons.
