Curious Custom.

An English gentleman, who has lately traveled in Palestine, recently gave a description of the curious scenes enacted in the church of the Holy Sepulchre. He said that when you first entered the church, you would be surprised to see a party of soldiers, with their swords by their sides, and their guns stacked within reach. It seemed a sacrilege in such a holy place, and struck one rather unpleasantly. But he soon found out the necessity for it. According to the law of the country, every sect is allowed to worship there; and as it is considered equally sacred both by Christians and Mahomedans, all wish a time for their mode of worship. The law allows them an hour each. They commence at six in the morning. At that hour, those who have the first privilege enter, bringing with them whatever is necessary to conduct their particular religious rights. They go through their prayers and chants, and all is quiet till about a quarter to seven, when those who have the privilege of the next hour begin to arrive. At first all is decorum; but pres ently the new comers begin to hiss and mock. As their number increase, and they become stronger, they shove and crowd; and as the time lessens, they get more and more bold. A few minutes before seven, they proceed to forcible demonstration. They think, if they can clear out these blasphemers a few minutes before the time, they have done so much good work for God; while the worshippers, on the other hand, think, if they can keep possession a few minutes after the time, they have done an equally good work. As some of these sects use torches, wax candles, staves or crook, in their worship, they proceed to use these as weapons of offence and defence, and a regular melec ensues. Then come in the soldiers, who separate the combatants, by filing in between them, turning out those whose hour is up, and leaving the place in possession of the last comers.. If blood is shed the church is closed for the day. Such scenes are occurring all day long, and the presence of soldiers in therefore abso-

lutely necessary. Advertising for a-Wife.

The Chicago papers tell the following story: The citizens, members of the Legislature and others, had a rich time at Madison, Wisconsin, on Friday night. An innocent_Chicagoan, named_Swanburg, advertised in the Chicago Tribune for a wife. He was answered by a young fellow of Madison, under the name of a young lady, who stated that she was ready to receive his proposals, and inviting him to visit her.

He went, met the supposed young lady, and immediately proposed to elope with her. He was immediately arrested by a bogus officer for attempting abduction, and tried by a bogus court in the court house. The whole proceedings were carried on with great gravity, and the victim had not the remotest idea but that the whole thing was a sad reality. After standing the ordeal of a two hours' trial, he was finally released on condition that he would leave town immediately. This he did on a train leaving for Milwaukee just in the nick of time.

ROUND THE WORLD-Telegraphic communications can now be had between Europe and America, and the capital of China in twelve days. On the 16th ult., the Pacific Mail Company of New York, received a telegram from Hong Kong, by way of England and the Red Sea, announcing the arrival at Hong Kong of their ship Colorado, on the 30th of January. Thirty years ago, it required six months to get such news. For some years the merchant has reseived such information in three months, by the overland mail. But now the overland mail is too slow by a considerable.

HAIR PREPARATION'S. DEPARATOR CAPILLI,

Throw away your false frizzes, your switches your wig.—
Destructive of comfort, and not worth a fig:
Come aged, come youthful, come ugly and fair,
And rejoice in your own luxuriant hair.

REPARATOR CAPILLI. REPARATOR CAPILLI.

For restoring hair upon bald heads (from whatever cause it may have fallen out) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or hair upon bald heads in from two to three months. A few ignorant practicioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of living witnesses (from their own experience) can bear witness. But many will say, how are we to distinguish the genuine from the spurious? It certainly is difficult, as unnetenths of the different Preparations advertised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Cappilli; it will cost you nothing unless it fully comes up to our representations. If your Druggist does not keep it, send us one dollar and we will forward it, postpaid, together with a receipt for the money, which will be returned to you on application, providing entire satisfaction is not given.

1866. THE GREAT ZINGARI BITTERS.

CHOLERA!

A Sure Preventative of CHO CLE CA 1.

THIS WONDERFUL REMEDY was discovered and introduced about twenty years ago by Dr.S. Cheop-sus, an eminent Egyptian physician.

He had long seen and felt the want of some remedy which would strike at the root of disease, and so prevent much of the suffering which the human family was then compelled to endure.

The great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was lead to think and experiment; and after ten years of study and labor, he presented to his fellow-man the wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellous and astonishing, that the most flattering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the following inscription—Dr, Cheopsus, the Public Benefactor—was presented to him by the Viceroy.

The preparation has been used in several epidemics of cholera, both as a proventive and curative measure, and with such great success, that it has been introduced into nearly all the general hospitals of the old world.

The old saying that an ounce of prevention is worth a pound of cure, applies with marvelous force to cholera, and therefore any remedy that will protect us against this terrible disease should be freely and persistently used.

All pathologists now agree that the cholega poison acts on the exercity grane, and keeps them in working orderion to exert its terrible effects on the organism. This is true not only of cholera, but of mas of fere.

The Great Zingari Bitters is just such a remedy as the above conditions require. Its acts on the organs of exerction and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and herbs, so nicely concocted that overy organ is acted upon and put intone. Its taste is pleasant and its effects prompt and fastin

and lasting.

These machines are made at our new and spacious Factory at Bridgeport, Conn., under the immediate supervision of the President of the Company.

ELIAS HOWE, JR., the original inventor of the Sewing Machine.
They are adapted to all kinds of Family Sewing, and to the use of Seamstresses, Dress Makers, Tailors, Manufacturers of Shirts, Collars, Skirts, Cloaks, Mantillus, Clothing, Hats, Caps, Corsets, Boots, Shoes, Harness, Saddles, Linen Goods, Umbrellas, Parasols, etc. They work equally well upon silk, linen, woolen and cotton goods with silk, cotton or linen thread. They will seam, quilt, gather, hem, fell, cord, braid, bind, and perform every species of sewing, making a beautiful and perfect stitch, alike on both sides of the articles sewed.

The Stitch invented by MR. HOWE, and made on this Machine, is the most popular and durable, and all Sewing Machines are subject to the principle invented by him.

SINGER SEWING MACHINES. W. U. HESS Has been appointed agent for Columbia for the celebrated Machines, and offers them for sale of MANUFACTURERS' PRICES. Everyhody knows the Singer Machines to be ne of the standard Sewing Machines, and we resent it to the citizens of Columbia and vicinpresent it to the citizens of columbia and vicinity as incomparably the best kind in existence. It is simple, compact, durable and beautiful. It is quiet, light running, and capable of performing a range and variety of work never before attempted upon a single machine—using citier silk, twist, linen or cotton thread, and sewing with equal facility the very fluest and coarsest materials, and anything between the two extremes, in the most beautiful and substantial manner. Its attachments for hemming, braiding, cording, tucking, quilting, felling, trinming, binding, &c., are novel and practical, and have been invented and adjusted especially for this machine.

INTERMITTENT AND REMITTENT FEVER. Intermittent Fever is similar to Fever and Ague and its origin can be traced to the same causes. As its name implies it is remittent in its effect, recurring at stated periods. As in Fever and Ague this disease is preceeded by a dull, listless feeling. Soon the Fever, accompanied by a violent headache, comes on. After raging a length of time it disappears for a few hours, only to return with increased severity, and leaving the sufferer prostrated mentally and physically. In ordinary practice the first resort of the physician in the treatment of this complaint is quinine and mercury. The disease by this treatment is checked—not cured—and is liable at any time to return. 570,198 37

MISHLER'S BITTERS

CHOLERA.

Mishler's Bittors cures effectually all such cases by inducing a healthy action of the Liver and by their unsurpassed tonic properties prevent a recurrence of the disease. When Mishler's Bitters were first introduced to the public the propriotor did not feel justified in recommending it as a specific for Cholera During the fall or 1865. Dr. Mishler received the following note from Jacob L. Baker, Esq., of Lancaster Pa., a member of the Philadelphia College of Pharmacy. Mr. Baker had a great deal of experience in the treatment of Cholera is a druggist of sixteen years standing, was Hospital Steward in the Jefferson Hospital Philadelphia, for three years, and is withal a gentleman of undoubted integrity and one in whose statement the most implicit confidence can be placed:

Lancaster, November 3d, 1865.

Dr. Mishler—Dear Sir:—Knowing that the Cholera with its dreadful ravages is now upon our land, and knowing that no medicine now in our country possesses such a caloric influence "which is the vital remedy for all diseases of this kind," as the Bitters you now making I request you to prepare such a quantity of your bitter as would suit all demands, as I assure you they will be an invaluable remedy, and will be hailed as a blessing by all who will use it.

Yours respectfully.

JACOB L. BAKER. PHILADELPHIA.

prepare such a quantity of your ditter as would suit all demands, as I assure you they will be an invaluable remedy, and will be haifed as a blessing by all who will use it.

Yours respectfully.

JACOB L. BAKER.

Being thus urged, and having noticed the Bitters were constantly curing the most violent cases of diarrhea, Cholera Morbus and kindred complaints, Dr. Mishlerat last offered his compounds as a cure for Cholera The result has exceeded his most sanguine expectations and fully justifies all that Mr. Baker supractical knowledge of acdicine far exceeds that of most dectors who too often dose their patients with deleterious drugs on some absurd theory.—For the purpose of showing that Mishler's Herb Bitters will cure Cholera we give below a few facts.

All intelligent persons who have investigated the origin of cholera, agree that it is caused by poison introduced and generated into the system by impure water, dampness, filth and over-crowded rooms with deficient ventilation. This is proved by the fact that cholera always rages worse on board of ships where all of the above causes are found more or less conbined. To cure cholera, and also to preventilit is necessary to neatralize this position, and that Mishler's Buters will do this is proven by the following:

The sleamship Virginia, arrived it the Port of New York about the middle of April with cholera a board a number of the passengers having died during the voyage with this complaint. Among the passengers were a family maned Schmith, from Baden, Germany. This family was attacked with cholera. Fortunately for them they had friends living in this city ancaster. Pa.,) who knew the virtues of Mishler's Bitters and who procured a bottle and sent it to the Schmith amd Christ. Schmith were both laboring under choleric symptons. Mrs. Marea Schmith, wife of the former was very bad, not expected to recover, and a son had died of the drend complaint and had been buried theday previous. It was in this plight a bottle of Mishler's Bitters, sent forth like an Angel of

him to perspire freely. His statement was substantially was substantially as given above, and he further said that if the doctors had not kept the first bottle from reaching him, his son would yet have been living. Mrs. Schmith was still weak from the effect of chelory, but the continued.\$300,000

reaching him, his son would yet have been living. Mrs. Schmith was still weak from the effect of cholera, but the continued use of the Bitters were most surely restoring her accustomed vigor.

It is not to be expected that regular M. Ps. will admit that any remedy not to be found in the Dispensatory will cure Cholera or any other complaint, but candor compels Dr. D. H. Bissell of the Cholera Hospital ship "Falcon" to admit that he believes Mishler's Bitters to be a "very good Tonic." In reply as to a case of Bitters that was sent to him by a well known gentleman of Lancaster, he writes as follows:

gentleman of Lancaster, he writes as follows:

| Hospital Ship Falcon, Quarantin, New York, June 7th, 1866. George S. Rowbotham, Esq.— Dear Sir: Yonrs of the 23d, inst. is to hand. In reply, I begleave to say, that I received the case of Bitters you sent me for trial &c., that I gave them to the convalescents in Hospital. I believe them to be a very good tonic Bitters, well adapted to all cases requiring Tonic remedies.

| D. H. BISSELL, Physician, Hospital Ship "Falcon."
| This letter from Ur. Bissell, just after the reception of the Bitters, and before he had time and opportunity to thoroughly test their wonderful medicinal properties is considered an important endorsement, as that gentleman to-day occupies the most important position of any physician in America. The passengers and crews o emigrant and merchant vessels that arrive in the Port of New York from for ign countries, are subject to his inspection and control, and the great experience he has had in the management of that dreadthi disease, Cholera, gives an endorsement by him an unusual importance. This letter together with the statement of the Schmith faunily—who while in the Steamer Virginia, were under Dr. Bissell's control, shows what the Bitters have done and can do.

| Another case of Cholera cured by Mish-

do.
Another case of Cholera cured by Mishers Herb Bitters is that of Mr. Pearsol of York county, who, after suffering severely from all the symptons of Cholera, finally became collapsed and while in this state, (the doctors stating that he was beyond relief) a friend administered freely, Mishlor's Bitters. The effect was instantaneous; heat was generated in the body, perspiration was induced and after using one bottle Mr. Pearsol was entirely restored.

Bitters. The effect was instantaneous; heat was generated in the body, perspiration was induced and after using one bottle Mr. Pearsol was entirely restored.

Mishler's Bitters curse Cholera by counteracting the poison which is the cause of the disease. Poison in the system, whether generated by bad air, filth, &c., as in Cholera, or introduced by the bite of a venomous snake or mad dog will be expelled and all bad symptons allayed by the use of Michler's Herb Bitters. The above proves this to be the fact in Cholera and the certificate of Mr. Rhinehart proves that Mishler's Billers will cure the bite of a poisonous snake:

Mr. B. Mishler—Sir:—About eight weeks since I was bitten in the left hand by a snake, but at the time did not know of what species it was. Immediately after the bite my hand swelled to a very large size, and the poison appeared to be working up my arm. I suffered great pain in my hand and arm; I had to quit work and was afraid I would be compelled to have any band amputated. I came to you, and by your advice washed my hand and arm with your Herb Bitters at the same time taking it inwardly. In cleven days I was able to go to work again. The poison was all drawn out and Mishler's Herb Bitters was the only medicine or application that I made use of. Mr. Christian Burns, a near neighbor of mine, went out a day or two after to the place where I was bitten, and killed what I believe was the same snake that bit me as he caught within five yards of the spot where I was bitten, and killed what I believe was the same one that bit me or not—one thing is certain—that your Bitters cured the bite of a snake in my case for which I shall ever be thankful, as I believe it was the means of saving my hand.

I shall be pleased to personally satisfy any one of the truth of the above

my hand.
I shall be pleased to personally satisfy any one of the truth of the above.
Yours. JACOB RINEHART.
