accidental; not being accidental, it was of course a studied insult to the Flag, and -that, too, at the very head-quarters of the gard for the South, and come out openly Commander of the Department. Now, Gen. Sickles is of the opinion that the American Flag demands and must receive from every one living under the protection of its folds, at least a show of respect, and he issued an order that the procession should not move until a flag was procured, and that when so procurred, it should occupy the post of honor in the procession, and be saluted accordingly-"the head and front of his offending. hath this extent-no more." Does any one possessing a just appreciation of the duty of an American citizen, blame him, or say that he transcended his duty in the premises?

What was the unpardonable offence of Gen. Schofield ? Simply this:-The Richmond Times-which, under the promotings of such papers as the N.Y. World. Day-Book, Philad'a Age, ct id omone genus, has been growing daily more and more violent in its attacks upon the Government, and thereby seriously obstructing the worth of re-organization in the South .-- was informed by the Military Commander of the Department, that i must moderate its tone, or its issue would be suppressed. Now, this conduct, which every patriot-be he Democrat or Republican-must cordially endorse, is made a presext by the World, for setting up a howl about "tyranny," and the "Iron Heel" of despotic power. In all kindness we would caution the World and its followers, against any longer instigating their Southern allies to opp se their feeble arts to resist the execution of the laws enacted by Congress. The South, and the world, (not only the N. Y. World, \_but the civilized world.) must be taught that in this country the people are sover eign, that the people speak through their representatives in Congress, and that when they have so spoken they can and will make their voice heard, and not only heard, but obeyed-despite the bickerings and petty party prejudices of the

whole Copperhead pack. Congress passed the 14th Article, (better known as the " Constitutional Amendmeut,") and kindly offered it to the South ; the South would have gladly accepted it, but for the interference of the Copperhead press of the North, it was rejected. Congress then passed the Military District Bill; it would have been grace-

sugar-coated as the 14th Article,) but for the continued oppo-ition of the same Northern Press. Now let these Northern papers continue their incendiary appeals to the South to oppose the inevitable, and the next session of Congress will be compelled in self-defence, to pass a law more stringent than any that has yet been pro-

posed. A little more aid from the North, may place the South in a condition to pray for Stevens' Confiscation Bill as a relief from the severity of the laws which will have. to be passed to screen the country from the plottings of its enemies. Then, pro-

bably they may learn what is meant by the "Iron Heel"

satisfaction at each and every act of the Government, or cease the pretence of be-ing incited thereto by any feeling of re-gard for the South, and come out openly as did Jeff. Davis, Lee, &c., &c., assume the task which they have abandoned as the task which they have abandoned as was Mr. Lincoln's partner in the rail-spir-ting business long ago, and helped build the cabin in which they lived, proposes to visit the Paris Exposition, taking with him the original cabin, which has been stored in Philadelphia, since 1865. hopeless, and let the South proceed in the work of re-organization untrammelled

by your aid.

IT DON'T take much to be a Democratic hero or saint now-a-days. Time was, when the party possessed its Jefferson, Madison, &c., &c., and in later days, it delighted to do honor to such men as Daniel S. Dickinson, Joseph Holt, James P. Brady, B. F. Butler, and a host of such bright and shining lights; but the refin-ing fires of the war have determined the point which is the true metal and which

point which is the true metal and which is the dross, and we find all those great men whom the party delighted to honor, ranged on the side of Justice and Right —the real Democracy—and the few lead-ers who are left, who adhiere to the *name* of Democracy as a *lower of strength*, find it necessary to man their fortress with a strange garrison; after having been devices with any lighten their bakets by using these buttons in lien of plates and saves —A grambling correspondent, evidently and did bachelor, complains about the large buttons, adorned with animal devices, which hadles wear on their dresses, and says some carry as many as fifteen head of oxen, while others move around with a large stud of horses. overwhelmed. The Democratic candidate ran con idera-by behind his ticket—the clerk receiving more votes than their Judge. Chaite an ex-citement prevails among the Bennoratic robel ranks this evening—over & bloodless victory—a victory that reflects nb credit on the victors. The vote is as follows: Scott the Demo-cratic rebol—received 11,260—(a fall vote— may be slightly larger when full returns are in) Johnson, the Conservative union candidale—received 1,932—(full vote)—and the Radical Union Republicans polled 4.963—(a very insignificant vote—not a third of the Radicals voting). These figures may be slightly changed as the correct returns come in, but to no great extent. It is a pity that the Republicans could not have formed a fusion and elected their cundiate —as it could have been so readily done The Conservatives left us—we will not go to them. Democracy, with all its bonbas-tic fumes, has not polled a majority, not-withstanding there has been every renegade rebel and mongrel Marylander registered in their behalf, and to their support. Out of the 30,000 registered voters, they have polled only 11,000 voies, a little over one-third. Where is their boasted glory? Where their flaunting victory? There is, to-day, a good majority with the Radical and Conservative Republicans, and will be brought out to the discomfiture of the rebel Democracy in yood season. Watch and The whiskey tax does not produce a revenue to our Government at all commen-surate with the consumption of the article. The annual consumption of whiskey in the United States was shown by the investiga-tion of the Special Revenue Commission, in 1865. to be not less than forty million of gallons. The tax has been, for three years past, two dollars per gallon; yet instead of a revenue of \$50,000,000, which we should have derived, the returns of the last fiscal year show a total of less than \$3,000,000 deri-ved-from domentic whisky. That is, for every three gallons of the ardent finid that paid the tax, five gallons evaded its payment.

IRON IN THE BLOOD.

The necessity of a due proportion of iron in the blood is well known to all medical men; when it be-comes reduced from any cause whatever, the whole

ystem suffers, the weakest part being first attacked. and a fooling of languor, lassitude and "all goneness" pervades the system. The remedy is simply to sup-ply the blood with the necessary quantity of iron.

This can be done by using the PERCVIAN SYRUP,

protected solution of the protoxide of Iron, which so prepared that it assimilates at once with the blood, giving strength, vigor and new life to the

whole system. To take medicine to cure diseases, occasioned by a deficiency of IRON IN THE BLOOD, without restor-ing it to the system, is like trying to repair a build-ing when the foundation is gone. An emment divine says. "I have been using the PERUVIAN SY RUP for some time past; I gives ma-new vigor, buoyancy of spirits, elasticity of nut-ele." Partpilets containing certificates of cures, and re-commendations from some of the most eminer thy-sicians, elergymen and others, will be semifred at any address. Instel a cindidate—the Radicals did the same—and being the strongest party, refus-ed to join their erring brefhren, though it was admitted that they (the Conservatives) had the best candidate of the two. The Conservatives redused to join the majority —and both run their enalidats—each party refusing to vote for the other. Thousands of the Radicals could not conscientiously and would not vote their opposite ticket against Democracy—consequently did not vote at all. I am one with twenty others, counted this evening, who did not cast their votes for either party. Had there been, as was looked for, a fusion of the two Union parties, Democracy would hr e been overwhelmed.
