Columbia, Pa. Saturday, May 4, 1867

Communications, letters, contributions, generally merit and interest to the reader, will be acceptal from friends from all quarters. TO ADVERTISERS. the greatest number of persons, will do well to avail themselves of the superior inducements offered through the columns of the Columna Sry. It posses class that advertisers wish to reach—liberal minded and intelligent people, thereby making it the most act should have a great weight with advertisers.

LOCAL DEPARTMENT.

LOOK OUT !- Look out for Whitbey & Co's Consolidated, Show, Circus and M magerie. This mammath show will exhibit at Columbia, on Tuesday afternoon

DAILY LINE BETWEEN COLUMBIA AND NEW YORK,-Passengers for New York via the Reading and Columbia Railroad, leave Columbia and Lancaster daily, at 8 | were raised by the school, to be used for A. M., and arrive at New York, at 3.15 Religious .- Partially recovered from

his late illness, the Pastor of the United Brethren Church, W. S. H. Keys, expects law of the ancient Jews that the sons of to be able to meet his people on to-morrow (Sunday) morning and evening. Service BASE BALL .- A triendly game of base

ball will be played, this afternoon, on the grounds of the Columbia Classical Institute. between a nine composed principally of the Columbia Club, and the first nine of the Susquebanna Club of this place. The game OPENING .- A grand opening of bonnets and hats and all the latest summer fashious.

at Mrs. Swartz's, Locust street, on next Thursday, Friday and Saturday. The ladies will be sure to be suited, as all the novelties of the season will be offered, at moderate THE TABLEAUX .- The entertainments gotten up for the benefit of the Presbyterian Sabbath School, of this place, in the shape of

Tableaux Vivants, and which came off in Odd Fellows' Hall, on Thursday and Friday evenings, were a success. Many of the scenes presented were really beautiful, and we believe the affair gave every satisfaction. Much credit is due the getters-up of the en-

Building Lots.—It will be seen by an advertisement in another column, that Messrs, Green and Gossler offer some very desirable building lots at private sale. These lots are located in the southern part of our borough, and will be sold on reasonable and accommodating terms. A rare chance is here offered to persons in moderate circumstances to procure cheap building

THIEVES .- Our town, it appears, is still cursed with thieves. Several houses have Intely been entered. The residence of J. G. Hesa, on Second street, was entered on Frinight last, his desk broken open, pr pers rummaged, and a small quantity of silver taken. Two of our citizens were at-tacked on Union street a few nights ago, and narrowly escaped. Would it not be well for our Council to employ an extra

"ADOWN THE SUSQUEHANNA ON A RAFT."-A number of ladies and gentlemen, from Philadelphia, Laucaster and Columbia, took a trip down the Susquehanna, on the schute by the steamer "Columbia," at an early, hour in the morning. The day was fine and pleasant, and all seemed merry. This is one of the finest trips a person can take, as there is no more beautiful seenery in the State, than that which is presented along the Su-quelianna.

MARBLE WORKS - Lewis Haldy, on of the best men in Lancaster city, and one of the finest marble workers in the State, advertises in another column, that he is prepared to furnish Tombstones, Monuments, Statuary, &c., at the very lowest rates. Friend H. has had a great deal of experience in his line of business, is a superior letterer, and our friends in want of anything in his line, should give him a take the advantage of you.

CLAIMED .- The lot of tools found secreted under the steps, in rear of the Post Office, of which we heretofore made mention, was claimed, a few days since, by Mr. Daniel Stape, a machinest, on Union street. It appears an entrance was forced into his shop through the window, and the said tools stolen therefrom. This of course settles the question, as regards the robbery of the Post Office. It would, no doubt, have been entered had the tools not been found in one year (says an eminent teacher) is in the "nick of time."

" DUCKED."-On Tuesday last, as a party of "Yanks" were leisurely floating down the river, on a raft, and stood gazing at our city, the rear oar-stem accidently swung around, and gently glided up the back of one of the party, and he, in his efforts to dodge the critter, lost his balance, and fell headlong into the river. He immediately "struck out" for the raft, and porter says, looking from his position on shore, that he plainly beheld that Mr. "Yank" did not appreciate his bath, "Still so gently o'er me stealing"—the oar stem.

THE LATEST FASHIONS .- We advertise on another page, Bradley's Duplex Hoop Skirt. They are the best skirt in the market-most durable and handsome and are always in the fashion. Notwithstanding the ability of the manufacturers, Messrs. Wests, Bradley and Cary, to turn out over six thousand Skirts per day from their Large Manufactories in New York, they feel obliged to request all merchants order-ing the Duplex Elliptic Skirts, to send their orders a few days before they are wanted, if possible, as they are most constantly oversold some days ahead. These celebrated skirts are for sale in Columbia, at

SUPPLEMENT TO THE BOROUGH CHAR-TER.-We publish, elsewhere in our paper to-day, the Supplement to our Borough Charter. It says the Borough shall have side of the goods remaining permanent power to borrow money, not exceeding in notwithstanding repeated washings."-Tesnount one-twentieth of the assessed value of the real and personal estate of the Borough, for the grading of streets, building market houses, and other improvements. And to issue bonds or certificates of loan for the payment of the same in such amounts, and payable at such times and at such rates of interest, (not exceeding seven per cent.) and to sell the same at such a discount, with or without coupons attached, as the Council may determine,

In another column will be found an advertisement, asking for a loan of \$15,000. Surely no better investment could be made than to invest your money in Borough

SUNDAY SCHOOL ANNIVERSARY .- The Sunday School of the E. E. Lutheran Church, of this place, held their anniverary exercises on Wednesday evening, May 1st. The exercises were of a very interesting character, and entirely new, for Columbia; consisting of the presentation of emblems, representing the mottos of the various classes. Each class has its number, name, motto, emblem and text of scripture written upon a card, together with one of the scholars, while another scholar vere interspersed with singing, which was very good, and many of the emblems were very suggestive. We would here like to | Lancaster, at about the same time. give a description of each class, mottos. emblems, texts, &c., but our space forbids All who took part on this anniversary oc-casion, were highly pleased, especially the little children, who will look forward to a similar occasion with a great deal of pride;

similar occasion with a great deal of pride; average weekly circulation being more than thirty per cent. greater than any other paper published in this vicinity, and promises to be more than one hundred per cent. greater, in less than six months.—In addition to this, the patrons of the Str are of the class that advertisers wish to reach—likeral minded.

This School is in a most flourishing conclusion of the class that advertisers wish to reach—likeral minded. This School is in a most flourishing con dition, being under the able superintendtum for all classes of advertisers. This ence of Mr. L. C. Oberlin, and Charles P. Shreiner. The School numbers three hundred and seventy-four teachers and scholars, and is divided into two sectionsnfant department, consisting of nearly a hundred small children—the Sunday School proper, consisting of the larger scholars .-Upwards of a dozen of the larger scholars of the school united with the church, a few weeks since. Altogether this celebration was a decided success, and all went away well pleased. Although but three months time was had in which to make the collec-

tions, nearly one hundred and fifty dollars library. At a future day the school expects to give another entertainment of this kind May success crown all their efforts.

LEARNING A TRADE.-It was a wisc even their wealthiest men should be obliged to serve an apprenticeship to some use ful occupation, so that in case of reverse o fortune they might have something to full back upon. The same still exists in Turkey, where every man, even the Sultan himself, must learn a trade. How fortunate would it be now had it been a law in our country. "Would to God I had a trade!" is the cry of thousands, North and South, who find themselves rained in pocket, with no immediate prospect of gaining a livelihood. It should teach parents that whatever else they may give their sons, they should give them a good trade. One of our contemporaries most truly remarks, that a popular idea among our people is that all their sons should adopt clerkships. and the adoption of the business of bookkeeping as a means of obtaining their livelihood, and ever effort is made to give them an education to that end. So far as the education of their children in the science of keeping proper accounts is concerned the idea is a good one, as every young man should have a sufficient knowledge to properly manage his own books, should be ever embark in business, but to make bookkeepers and clerks of all our boys is a grand mistake. Better place them in a workshop, mill or foundry, where they can learn independent trades, which at all times will secure for them employment, and the pecuniary compensation for which will be at least as much if not more, than the business of accounts. We earnestly advise all parents to teach their sons trades, no matter what, so that it is an industrious pursuit; and let us in future be spared the pain of seeing so many stout, able-bodied young men out of employment, and seeking situations where the pen only can be

CLEANING THE STREETS .-- We are leased to see the activity displayed by our Street Commissioner, Mr. Daniel Chalfant, assisted by a number of workmen, in cleaning up the streets of our borough. We hope the beginning thus made, will not end until this cleaning operation has extended throughout the whole town.

There is no more prominent cardinal virtue, than cleanliness. Idleness, fifth and crime, walk hand in hand-they are congenial elements in the "make up" of human depravity, and wherever they exist, health a raft, Thursday last. They were towed to and decency, and all that helps to produce any trait of goodness in an individual, or in a community, cannot thrive. A chief part in the discipline of an army, is to enforce abso lute cleanliness; and it we had a civil discipline equally well enforced, not only in streets and houses, but persons also, it would not be a bad icea As it is, we are thankful when we see th

spirit manife-ted, and until it is extended everywhere, we feel inclined to repeat the ery of clean up. The butcher alley, between Locust and Walnut streets, should be thoroughly cleansed, once or twice a week. We have every confidence in our efficient Chief Burgess, Town Council and Board of Health, that they will do their duty. Last season, to their credit be it said, they were watchcall. You may rest assured that he will not ful and thorough in the discharge of their duties; and we fully believe that much of the pestilence which otherwise might have gained a foothold in our midst, was averted. Even now, this coming season, will such efforts on the part of the Board of Health

be essential to the welfare of our community. To PARENTS-NEWSPAPERS.-A child Lykens Valley, Nutt, Stove and egg, beginning to read becomes delighted with a newspaper, because he reads of names and things which are very familiar, and he wil make progress accordingly. A newspaper worth a quarter's schooling to a child, and every father must consider that substantial information is connected with his advancement. The mother of the family, being one of its heads, and having a more immediate charge of the children, should herself be instructed. A mind occupied becomes fortified against the ills of life, and is braced for any emergency. Children amused by reading or study are, of course, considerate and more easily governed. was finally "hauled upon deck." Our re- How many thoughtless young men have spent their earnings in a tavern or grogshop, who ought to have been reading! How many parents who never spent twen ty dollars for books for their families would gladly have given thousands to reclaim a

son or daugeter, who had ignorantly and thoughtlessly fallen into temptation. THE TESTIMONY OF A MECHANICAL EXPERT.—"In my opinion, the Grover & Baker Machines possess the following adcantages: 1. They use the two threads directly from the spools on which they are wound by the manufacturers of them, and thus save the operator the time and trouble of rewinding one of the threads. 2. The seam sewed is secure and extremely dustic. 3. The thread tensions require but very little care in adjusting them. 4. The machines are capable of sewing a greater variety of fabric than any other machines with which I am acquainted. 5. The seams sewed do not change their appearance by washing, the stitched appearance on one

It is, indeed, a melancholy duty to announce the premature death of our young friend. The aged pilgrim, bending under the weight of four-score years, goes to his final rest, as to a sweet slumber; and to him the advent of the last messenger is not unfrequently a welcome event. But when the young, the joyous, hopeful, exulting manhood is stricken down, then do we see death in his most cruel aspect. In all the pride and beauty of manhood—just as his Sun was in its noon-tide of glory; when hopes were brown in 1st noon-tide of glory; when hopes were brown in 1st noon-tide he is snatched suddenly from our midst, and has gone to that haven where the loved and estranged shall, one day, be united never more to part.
