Moral Courage. General Sherman says the greatest demand ever made on his moral courage The citizens of San Francisco were

was under the following circumstances: celebrating the Fourth of July in the large American theatre, which was packed to its utmost capacity. Gen. Sherman was chief marshal, and occupied a seat near the front of the stage. The orator had completed his oration, the poet began his song, when one of his aids, white with fear, made his way down the middle aisle to the footlights, and beckoning the General's ear, whispered to him that the theatre building had settled a foot and a half in one of the side walls, under the weight of the crowd, and might be expected at any moment to tumble on their heads in ruins. The General commanded him to sit down where he was, without turning his paule smitten face to the audience, and to say not one word. He then quietly sent an aid out to report the condition of the wall, then gave his apparent attention to the poem, expecting every moment as he said, to see the pillars reeling and the roof falling in; but nevertheless certain that any general and sudden movemout and fright of the people would hasten the catastrophe and aggravate the ruin, while, by the ordinary slow method of dispersion, the danger might possibly be escaped. The exercise continued calmly to the close. The audience left the theatre quietly without suspecting their peril, and the terrible destruction was averted by the presence of mind, the selfcontrol of the brave soul who, contemplating at one glance all the possibilities of the case, decided upon the policy of duty, and awaited without one betraying glance. or treacherous change of complexion, the uncertain, tremendous consequences.

Hon. Thaddeus Stevens. Mr. Stevens has written a letter, taking for his subject the following extract from a notice of Senator Henry Wilson's recent speech near Hampton, namely: "He (Mr. Wilson) said there would be no impediment to Southern representatives in Congress if they elected Union men, and closed his remarks by asserting that he would leave Virginia with the full conviction that a Republican Governor, Legislature, and two Senators would be elected." Mr. Stevens comments on this

as follows: WASHINGTON, April 27.

Mr. EDITOR: Such articles as this are calculated to do much harm. They throw obstacles in the way of future reconstruction, being quoted and relied on as pledges by the Republican party. Hence much trouble arose from certain expressions contained in a bill which was reported by the Reconstruction Committee in the Thirty-ninth Congress, though never passed. It was perverted, by faction and folly, into an argument against the whole party and Congress.

argument against the whole party and Congress.
This generally arises from the carelessness of the reporters, and sometimes, doubtless, from the inadvertence of the speaker. No man should make promises for the party. By what authority does any one say, that by the election of loyal delegates they will be admitted? By what authority does any one say that Virginia will elect two loyal Senators, while in truth there is no Virginia? Much is to be done by the people and Congress before any Representative or Senator or State can be recognized. Who authorized any Senator to say there would be no confiscation?
These things are too flippantly said. These things are too flippantly said. I think they had better be gravely pondered. Who is authorized to travel the country and peddle out amnesty? I would say to

the most guilty, expect punishment, and then quietude; but first, a mild confisca tion, to pay those who have been robbed by disloyal men. These are my wishes, and disloyal men.
mine only, perhaps.
Thaddeus Stevens. THE leading Southern men being ineligible to Congress, the Mobile Advertiser

proposes to import to the South the "Brick" Pomeroys, Tom Symours, Charles · O'Conors, Chancey Burrs, Clement L. Vallandighams, etc., of the North, for the purpose of making them Representatives of Southern Congressional districts. The North would willingly spare these men and they would present a rare spectacle fishing for the Southern negro GROCERIES, &c.

 $\mathbf{L}$ 1866. THE GREAT ZINGARI BITTERS.

A Sure Preventative of

CHOLERA!

THIS WONDERFUL REMEDY was discovered and introduced about twenty years ago by Dr. S. Cheopens, an eminent Egyptian physician.

He had long seen and felt the want of some remedy which would strike at the root of disease, and so prevent much of the suffering which the human family was then compelled to endure.

The great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was lead to think and experiment; and after ten years of study and labot, he presented to his follow-man the wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellous and a-tonishing, that the most flattering marks of royal favor were bestowed upon him who discovered it. His name was placed upon him who discovered it. His name was placed upon him who discovered it. His name was placed upon him who discovered it. His name was placed upon him who discovered it. His name was placed upon him who discovered it. His name was placed upon him who discovered it has been used in several epidemics of cholera, both as a preventive and curative measure, and with such great success, that it has been introduced into nearly all the general hospitals of the old world.

The old saying that an ounce of prevention is worth a pound of cure, applies with marvelous force to cholera, and therefore any remedy that will protect us against this terribot disease should be feely and persistently used.

All pathologists now agree that the cholera poison acts on the exercity organs, and keeps them in working order, must prevent a sufficient accumulation of the exercity organs, and keeps them in working order, must prevent a sufficient accumulation of the Carlor mander, that the sufficient forms of force and f tion of the bright of the lates of the lates

LOCK STITCH, THESE WORLD-RENOWNED SEWING MACHINES

Were awarded the highest premium at the World's Fair in London, and six first premiums at the New York State Fair of 1866, and are celebrated for doing the best work, using a much smaller needle for the same thread than any other machine, and by the introduction of the most improved machinery, we are now able to supply the very best machines in the world.

These machines are made at our new and spacious Factory at Bridgeport, Conn., under the immediate supervision of the President of the Company. ELIAS HOWE, JR.,

the original inventor of the Sewing Machine. They are adapted to all kinds of Family Sewing, and to the use of Seamstresses, Dress Makers, Tailors, Manufacturers of Shirts, Colars, Skirts, Cloaks, Manufacturers of Shirts, Caps, Corsets, Boots, Shoes, Harness, Suddles, Linen Goods, Unbrellas, Furasols, etc. They work equally well upon silk, linen, woolen and cotton goods with silk, cotton or linen thread. They will seam, quilt, gather, hem, fell, cord, braid, bind, and perform every species of sewing, making a beautiful and perfect stitch, alike on both sides of the articles sewed.

The Stitch invented by Mr. HOWE, and made on this Machine, is the most popular and durable, and all Sewing Machines are subject to the principle invented by him.

MISHLER'S BITTERS WILL CURE INTERMITTENT AND REMITTENT FEVER. INTERMITTENT AND REMITTENT FEVER.

Intermittent Fever is similar to Fever and Ague and its origin can be traced to the same causes. As its name implies it is remittent in its effect, recurring at stated periods. As in Fever and Ague this disease is preceeded by a dull, listless feeling. Soon the Fever, accompanied by a violent headache, comes on. After raging a length of time it disappears for a few hours, only to return with increased severity, and leaving the sufferer prostrated mentally and physically. In ordinasy practice the first resort of the physician in the treatment of this complaint is quinine and mercary. The disease by this treatment is checked—not cured—and is liable at any time to return.

MISHLER'S COLUMN.

MISHLER'S BITTERS WILL CURE

Mishler's Bitters cures effectually all such cases by inducing a healthy action of the Liver and by their unsurpassed tonic properties prevent a recurrence of the disease.

When Mishler's Bitters were first introduced to the public the propriotor did not feel justified in recommending it as a specific for Cholera During the fall or 1865. Dr. Mishler received the following noto from Jacob L. Baker, Esq., of Lancaster Pa., a member of the Philadelphia College of Pharmacy. Mr. Baker had a great deal of experience in the treatment or Cholera is a druggist of sixteen years standing, was Hospital Steward in the Jefferson Hospital, Philadelphia, for three years, and is within a gentleman of undoubted integrity and one in whose statement the most implicit confidence can be placed:

Lancaster, November 3d, 1865.

Dr. Mishler—Dear Sir.—Knowing that the Cholera with its dreadful ravages is now up on our land, and knowing that no medicine now in our country possesses such a caloric influence "which is the vital remedy for all diseases of this kind," as the Bitters you now making I request you to prepare such a quantity of your bitter as would suit all demands, as I assure you they will be an invaluable remedy, and will be hailed as a blessing by all who will use it. CHOLERA.

will be haited as a biessing by all who will use it.

Yours respectfully.

JACOB L. BAKER.

Being thus urged, and having noticed the Bitters were constantly curing the most violent cases of Diarrhea, Cholera Morbus and kindred complaints, Dr. Mishler at last offered his compounds as a cure for Cholera. The result has exceeded his most sanguine expectations and fully justifies all that Mr. Baker's practical knowledge of nedicine far exceeds that of most dectors who too often dose their patients with deleterious drugs on some absurd theory.—For the purpose of showing that Mishler's Herb Bitters will cure Cholera we give below a few facts.

All intelligent persons who have investigated. All intelligent persons who have investi-gated the origin of cholera, agree that it is eaused by poison introduced and generated gated the origin of cholera, agree that it is caused by poison introduced and generated into the system by impure water, dampness, filth and over-crowded rooms with deficient ventilation. This is proved by the fact that cholera always rages worse on board of ships where all of the above causes are found more or less combined. To cure cholera, and also to prevent it, it is necessary to nentralize this position, and that Mishler's Bitters will do this is proven by the following:

The steamship Virginia, arrived at the Port of New York about the middle of April with cholera a boarda number of the pussengers having died during the voyage with this complaint. Among the passengers were a family mamed Schmith, from Baden, Germany. This family was attacked with cholera. Fortunately for them they had friends living in this city—ancaster, Pa.,) who knew the virtues of Mishler's Bitters and who procured a bottle and sent it to the Schmith family. When this package arrived at Quarantine, the doctors examined it and confiscated the contents. Another bottle was procured and packed in a more secure manner; its afely reached the

Another bottle was procured and packed in a more secure manner: it safely reached the Schmiths. On its arrival aboard the Vir-Another bottle was procured and packed in a more secure manner: itsafely reached the Schmiths. On its arrival aboard the Tingolula, Henry Schmith and Christ, Schmith were both laboring under choleric symptoms: Mrs. Marcia Schmith, wife of the former was very bad, not expected to recover, and a son had died of the dread complaint and had been buried theday previous. It was in this plight a bottle of Mishler's Bitters, sent forth like an Angel of Mercy found the poor Schmith family.—Henry Schmith was the first to try it, and so instantaneous was the relief he experienced that he gave it to his wife and brother both of whom it at once relieved. They used the entire contents of the bottle and all three were so much relieved that the physicians permitted them to leave the Virginia, after being confined at quarantine aboard that seourge ship forty-two says.—The Schmiths proceeded to their relatives in Lancaster, and at an early opportunity called on Dr. Mishler to express their gratitude for the timely relief they had found in his Bitters. Mr Henry Schmith stated that all the compounds the doctors had given him did no good, but that one glass of Mishler's Bitters made him feel like a new man, warming his whole system, giving him a healthful heat and causing him to perspire freely. His statement was substantially was substantially as given above, and he further said that if the doctors had not kept the first bottle from reaching him, his son would yet hrve been living. Mrs. Schmith was still weak from the effect of cholera, but the continued use of the Litters were most surely restoring her accustoned vigor.

It is not to be expected that regular M. Ds. will admit that any remedy not to be found in the Dispensatory will cure Cholera or any other compalaint, but candor compels Dr. D. H. Bissell of the Cholera Hospital shin "Falcon" to admit that he 

lows:

Hospital Ship Falcon,
Quarantin, New York, June 7th, 1866.
George S. Rowbotham, Esq.— Dear Sir:
Yours of the 23d, inst. is to hand. In reply, I begleave to say, that I received the case of Bitters you sent me for trial &c., that I gave them to the convalescents in Hospital. I believe them to be a very good tonic Bitters, well adapted to all cases requiring Tonic remedies. requiring Tonic remedies.

Hospital Ship "Falcon."
This letter from Dr. Bissell, just after the reception of the Bitters, and before he had time and opportunity to thoroughly test their wondernal medicinal properties is considered an important endorsement, as that gentleman to-day occupies the most important position of any physician in America. The passengers and crews o emigrant and merchant vessels that arrive in the Port of New York from foreign countries, are subject to his inspection and control, and the great experience he has had in the management of that dreadful disease, Cholera, gives an endorsement by him an unusual importance. This letter together with the statement of the Schmith family—who while in the Steamer Virginia, were under Dr. Bissell's control, shows what the Bitters have done and can do.
Another case of Cholera cased by Mish-

shows what the Bitters have done and can do.

Another case of Cholera cured by Mishler's Herb Bitters is that of Mr. Pearsol of York county, who, after suffering severely from all the symptons of Cholera, finally became collapsed and while in this state, (the doctors stating that he was beyond relief) a friend administered freely, Mishler's Bitters. The effect was instantaneous; heat was generated in the body, perspiration was induced and after using one bottle Mr. Pearsol was entirely restored.

Mishler's Bitters cures Cholera by counteracting the poison which is the cause of the disease. Foison in the system, whether generated by bad air, filth, &c., as in Cholera, or introduced by the bite of a venomous snake or mad dog will be expelled and all bad symptons allayed by the use of Michler's Herb Bitters. The above proves this to be the fact in Cholera and the certificate of Mr. Rhinehart proves that Mishler's Billers will cure the bite of a poisonous snake: u poisonous snake :

that Mishler's Billers will cure the bite of a poisonous snake:

Lancaster, July 4th, 1865.

Mr. B. Mishler—Sir:—About eight weeks since I was bitten in the left hand by a snake, but at the time did not know of what species it was. Immediately after the bite my hand swelied to a very large size, and the poison appeared to be working up my arm. I suffered great pain in my hand and arm; I had to quit work and was afmid I would be compelled to have my hand amputated. I came to you, and by your advice washed my hand and arm with your Herb Bitters at the same time taking it inwardly. In eleven days I was able to go to work again. The poison was all drawn out and Mishler's Herb Bitters was the only medicine or application that I made use of. Mr. Christian Burns, a near neighbor of mine, went out a day or two after to the place where I was bitten, and killed what I believe was the same snake that bit me as he caught within five yards of the spot where I was bitten. It proved to be what is called a copper snake; at my rate, whether it was the same one that bit me or not—one thing is certain—that your Bitters caned the bite of a snake in my case for which I shall ever be thankful, as I believe it was the means of saving my hand.

I shall be pleased to personally satisfy any one of the truth of the above.

Yours. JACOB RINEHART.
