In 1860, five hundred thousand sheep were killed by dogs, and the value was \$2,000,000. The number injured was three hundred thousand, and the loss is estimated at \$600,000. The Commissioner says: "The cost of keeping dogs, most of them utterly worthless, when calculated for the whole country, assumes startling proportions. The esti- mate made in the report of 1863, of ten dollars per annue, or less than one cent per meal, cannot be considered extrava- gant, in view of the price paid for board- ing dogs, the cost of keeping large num- bers of them in cities, and their exclusive consumption of meal.' As to their num- bers, it is beleived by many that they will average one to each family, or seven mil- lions in the United States. In cities and towns that average would not be reached, while many a pack of hounds and assem- blage of curs of low degree might be found in the ownership of single families. Gazette has the following: "We have heard of a rather queer will which was lately admitted to probate in one of the counties bordering ou the upper Comberland. A wealthy old citizen had two sons, one of whom was in the Federal army, and the other in the rebel ranks. During the early part of the war the old gentleman was taken suddenly ill, and wishing to divide his property equally between his two sons, be- queathed to Henry (the Federal soldier) all his slave property, embracing about fifty negroes, and to Thomas (the boy in gray) his entire landed estate. He died, and thus the will stands. Both brothers lived to re- turn from the war, and the gallant soldier of the lost cause, being perfectly satisfied that slavery was no more, generously divid- ed the lands with his brother, and both are living happily together." "TOMMY, my son," said a fond mother, "do you say your prayers night and morn- ing?" "Yes; that is, nights—but any smart boy can take care of himself in the	posed him. and you supported him. That's what's the matter." The Copperhead "had a note to pay in bank." and couldn't stay to continue the conversation. Stick it at them boys! Trenton Sentinel. HEAVY SISTERLY AFFECTIONAt a meeting held not a thousand miles from Balston Spa, an ancient sister arose and delivered herself as follows: "I see young ladies here who seem to love gew-gaws, furbelows, ribbons, and laces more than their Creator. I loved them once, and adorned my hat with ar- tificial French flowers, bright colored rib- bons and sky-blue triaming, but I found that they were pulling me down to h, and so I took them off and gave them to my sister." SpunceON, the well known London preacher, occasionally gets offa good thing. A report of a late 'sermon delivered by him contains a sentence which will be as much appreciated here as in England. "Brethren," said Spurgeon. " if God had referred the ark to a committee on Naval Affairs, in my opinion it would not be built yet." ChicAGO is reported as employing 2000 trade "drummers;" New York 6000 and Boston 3000, whilst the rest of our busi- ness cities will swell the aggregate to 20,- 000. These drummers travel all over the country hunting up purchasers for goods. Thirty years ago the drumming system	suspicion. Reference is frequently made to the ut- ter disregard for cleanliness common in sugar-houses, and many revolting details are given in illustration of the fact. Per- haps the fifth which comes to us in our molasses and syrups in this way would not be particularly unhealthy, and a re- ference to it here may not be exactly in place. But the exemption which we en- joy from being injuriously affected, re- sults from the absence of a knowledge of these facts. If the eater of common trop- ical molasses and sugar-house syrup could know at the time of eating all the ingre- dients contained therein, all the dubious channels through which they have pass- ed, and the filthy contacts to which they have been exposed, we feel certain that a very sick sensation would be experienc- ed, and a dolominal muscles would be induced, much like that which follows a diet of tartar emetic. GRAMAM OR COARSE WHEAT BREAD. —Two-thirds unsifted wheat meal, one- third fine flour, a little molasses, mix with warm water. One large cup of potato yeast will make two good sized loaves. Mix and rise over night, and your bread is ready to mould and put in your pans before breakfast. Do not let it rise too long the second time—much bread is spoiled by so doing.
