

GOING TO EUROPE.- Harry H Heise and John Kauifman of this borough are going to Europe. They will sail on Satur-day, the 18th inst., and will be absent five months, during which they will visit various portions of the Old World. They will spond some time at the Paris Exposition. We wish them a happy and prosper-ous vovage and a safe return. Their friends will hear from them occasionally through the columns of the "SPY."

REMOVED .- Messis, P. Shreiner & Son have removed their Jewelry Store to No. 4. Front Street, and are fixing up their sale rooms in such a manner that will do credit to the place, and compare favorably with any similar establishment in Philadelphia. They are responsible jewelers, have a large stock, and any one purchasing

from them can rely upon statements made

as to quality of goods, &c. ZERO REFRIGERATOR. - In another column will be found the advertisement of the Zero Refrigerator. It is also a water and wine cooler combined. We can recommend it to our readers as the best yet introduced-have examined all kinds. Dr. Hall, of the Journal of Meatth, says : "it is certainly an improvement over all others." We have had one of them in use for some years, and would not be without it, for wice its value. Persons wishing to purchase, can call and examine it at our residence, or at the store of J. Rumple & Son,

on Tuesday afternoon and evening next. This combination has achieved an unrivalunanimous in praise of the artistes composremarkably well trained, and the performances entirely free from anything to offend the most fustidious taste. The ladies are unsurpassed as equestriennes, and the gymnastic, accrobatic and tumbling exercises are wonderful. The Clowns are the best the arena can produce, and everything will give satisfaction.

GOOD TEMPLARS .- At a meeting of Hope Lodge No. 8, I. O. of G. T., held on last Tuesday evening, the following officers were installed for the ensuing term :

R. W. C. T., Addie C. Fielis; W. C. T., J. W. F. Nowlen; W. V. T., Lizzie Erwin; W. T., L. O. Oberlin; W. F. S., Geo. H. Richards; W. C., Rev. W. H. Steck; W. W. C. T., John C. Clark. Representatives to Grand Lodge, Charles H. Plahler, John C. Clark and Addie E.

WILMINGTON AND READING RAIL-ROAD .- S. C. Slaymaker, Esq., formerly Resident Engineer of the Philadelphia and Reading Railroad, at Pottstown, has been appointed to take charge of the location of the lower end of the Wilmington and Rending Railroad, from Wilmington and Coatesville. Mr. S. was for a time a resident of this borough, and engaged on the Reading and Columbia Reilroad. He entered upor the duties of his new position last week. Mr. Wilson, the Engineer who has charge of the location of the upper portion of the road, has already located the crossing of the Schuylkill at Birdsboro', and a couple of miles of that end, and is now working from Coatesville up. It is said that a part of the new line, in the vicinity of Contesville, will be put under contract during the present

HIGH RIVER .- The Susquehannariver

Editor, in shaping public opinion and morals. For some time I have had the pleasure of being subjected to the moulding process, exercised by one of those nature-invored men; and that you may be able to judge for yourself, how much I have been benefit-ed. I will condense for you the thoughts with which he favors me every week. Bear in mind that they are the some in every is-size, being composed on the principle of "strike till the last armed foe expires," and with the same weapon. In the first two or three lines of his edi-torials you will always find the most sublime idea in the following words:-"fools, idiots, knares, fanatics,"and niggers," and then, as if he were warming with his subject,--"idiots, knares, janatics, indiots, fools, and fanatics," and then "knares, niggers, fanatics, fools, idiots, and radicals." These words, emblematic of the highest con-ception of the human understanding, are strung together, so as to give a poetical charm to the whole-a charm so potent as to transport the reader to scenes where dark clouds ne'er appall. Wee to the day when hs bright hight shall ind, presents a wild and turbulent appearance. It is at a very high stage-much higher than at any time since the flood of 1864. It is feared our lumber merchants will suffer greatly from the high water-in fact a large quantity of boards have already been swept from the yards along our wharves. The river is literally full of floating lumber and fragmonts of all kinds. Thursday morning a lot of rafts, in number about thirteen, broke loose from their mooring at Marietta, and who will furnish them. The Cincus.—Whitby & Co's. Circus and Menagerie will perform in Columbia, the Columbia of the old bridge, knocking the entire number into "pi." They now present a hugo and massive pile of boards, and a sight

not every day seen. The owners of the rafts reached this place, from Marietta, in ed reputation wherever it has exhibited the early train, same morning, and charterduring the present season, the press being ed the Steamer Callie, for the purpose of visiting the scene of the disaster, and seing the troupe. The animals are said to be curing what they could of the lumber, with On the same morning, about ten or twelve rafts broke loose from the wharves at this place, and went over the dam. The river

is now falling, THE NEW FIRE EXTINGUISHER .- Mr.

E. Brown, the agent for the new fire extinguisher, made a trial with that instrument on Sacurday afternoon last, at Lancaster city, which proved perfectly successful He set fire to a small frame building filled with kindling wood, and saturated with petroleum, which was ignited and suffered to burn fiorcely, the heat driving away all W. This being twice repeated, the same result ensued.

Next, a pyramid of nine tar barrels, partly tilled with shavings and coal oil, was ignited, causing flames so fierce that many doubted the possibility of the apparently insignificant means before used to control it. The barrels, placed sidewise upon each other, caused a whirling column of flames to leap twenty feet into the air, and all regarded it the severest test the small "Extinguisher" could be given. The great heat almost prevented the approach of the person using the apparatus sufficiently near to direct the spray accurately, but notwith-standing this difficulty, in several minutes the fire was suppressed, and those most skeptical were convinced of the wonderful DIVIDEND.

power of the "Extinguisher." Mr. Brown, we believe has the article for sale, or will sell county or township rights It would save in case of fire an immense amount of property if one of the "Extinguishers" were placed in every house and public building.
