"Treason Must be Made Odious." Jeff. Davis has been released on bail. after two years' imprisoment. He is bound over in one hundred thousand dollars to appear at the November term of the Court. For the intervening term he is at liberty to go or come, when, where, and as he pleases. These are facts, and that practical habit o the American mind which leads it to accept many accomplished events in seeming consonance will Pope's theory that "whatever is, is best," will enable it to bear this with composure; and this all the more readily, because the instant power of evil which Davis possessed, thanks to the persistence of Congress, has been shorn

from him. But, really, what a sad and humiliating thing it is that this result, and this only, has been attained! The country thirsts for no blood. It has excused, or seen excused by its agents, nearly every individual who was arrested for conplicity in the greatest treason and crime of all the ages. It has restored their property to red-handed traitors. It has executed none. It has banished none. And now the very pith and essence, the animating cause, the deviser and supporter, the executive and representative of the grand crime, walks away unscathed amid the bows of those whom he sought to destroy, to be welcomed by those who were art part with him in his

Nothwithstanding the fact that this liberation is made by order of the governmentnothwithstanding it was approved by Mr. Greeley and urged by Mr. O'Connor, and sought by ex-President Pierce-the country and the world will condider it a huge political blunder, as well as something more serious. Either Davis was guilty, and most guilty, of high treason, or he was in-nocent. If he latter, they are responsible in damages who so long restrained him from liberty. If the former, they are censurable who tolerated his enlargement But there is no question of his guilt. And if it is urged that his health suffered by long confinement without trial, we first traverse the statement. He has come out from his retirement refreshed and strengthened, and every way improved for it It was an opportunity for recuperation to him. But if he did suffer, what was that just suffering compared with the villainous tortures to death which were experienced by brave Union soldiers, through his in-

strumentality and at his direct command, in Libby prison and Andersonville, and elsewhere? If he suffered, so much the better. He deserved to; not for his crimes only, but for those of his agents, and as a lesson to all future times that the way of

the transgressor is hard.

Many specious pleas, we are aware, will be filed in defence of this action. But all, supported by the prettiest reasoning, will be insufficient to satisfy the moral sense of mankind that justice has been done in the premises. It was believed that the culprit should have tasted of the fruit of the sour apple tree which he dispensed so liberally to patriots. But it was, and even yet is, demanded by a great majority that he should, at all events, be tried before he was

enlarged. Ac may, if well assured of favorable result, still condescend to render himself famous by figuring for all time as another Warren Hastings—to be, like him, excused from punishment. But he may refuse. And the government and the laws which should be beholden to the condescension of no criminal, are now at the mercy of the greatest whom they ever were provided for. If he comes into court, it will be almost imperative to reward his magnamimity with acquittal. This result will be hailed in the south, and rightly hailed, as a victory. The great criminal is free Major contient in seminorem -If he goes unwhipped, who should be scourged? All punishment becomes criminal, and we may prepare at once to welcome, with more than fraternal love and with ovations, the smaller imps who revolved about him and did his bidding. And, furthermore, as experience has proved

that treason is not a crime, but a direct appeal to the sympathies and admiration of the loyal part of the nation, we may bequath to our sons, with the dept which they must inherit, the warning to be always prepared for rebellion against any law which is law, or any proposels which are distasteful to any. They may expect to find the chivalry of any section resorting to the arbitrament of arms when excessive wealth, or an itch for notoriety, of any other cause, renders it desirable to influer

tial men. The rebellion in a free country was unprecedented. And in order that history shall not be able to give its parallel, we are witnesses to a decision which the moral sense and sense of justice of all mankind must condemn—to a decision which remits a traitor and villain to affluent distinction, which embarrasses all subsequent legislation, which disarms true patriots, and gives weapons of logic to men who unsparingly used those of steel. Fortunately, the south is in no condition yet for another appeal to arms. But it must be always

borne in mind that we have practically said that in this country treason is not a erime. Phila. U. S. Gazette.

HAIR PREPARATION'S. REPARATOR CAPILLI,

Throw away your false frizzes, your switches you wig—
Destructive of comfort, and not worth a fig;
Come aged, come youthful, come ugly and fair,
And rejoice in your own luxuriant hair.

REPARATOR CAPILLI. For restoring hair upon bald heads (from what er cause it may have fallen out) and forcing :

For restoring hair upon buld heads (from whatever cause it may have fallen ont) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or hair upon hald heads in from two to three months. A few ignorant practicioners have asserted that there is nothing that will force or husten the growth of the hair or beard. Their assertions are false, as thousands of living witnesses (from their own experience) can bear witness. But many will say, how are we o distinguish the genuine from the spurious? It certainly is difficult, as anetenths of the different Preparations inderetised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Cappilli; it will cost you nothing unless it fully conies up to our representations. If your Druggist does not keep it, send, together with a receipt for the money, which will be returned to you on application, providing entire satisfaction is not given.

WHITE LIQUID ENAMEL,

THE GREAT ZINGARI BITTERS.

A Sure Preventative of

CHOLERA 1

THIS WONDERFUL REMEDY was discovered and introduced about twenty years ago by Dr. S. Cheopens, an eminent Egyptian physician.

He had long seen and felt the want of some remedy which would strike at the rot of disease, and so prevent much of the suffering which the human family was then compelled to endure.

The great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was lead to think and experiment; and after ten years of end to think and experiment; and after ten years of sundy and labor, he presented to his fellow-mun the worderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was omarvellous and astonishing, that the most flatering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the Boll of Nobles, and a gold medal with the following inscription—Dr. Cheopsus, the Public Benefactor—was presented to him by the Viceroy.

The preparation has been used in several opidemics of cholera, both as a preventive and curative measure, and with such great success, that it has been introduced into nearly all the general hospitals of the old world.

The old saving that an ounce of prevention is worth a pound of cure, applies with marvelous force to cholera, and therefore any remedy that will protect to sugainst this terrible disease should be freely and peristently used.

The foreat Zingari Bitters is just such a remedy as the above conditions require. Its acts on the organism. This is true not only of cholera, but of mearly all other maddies, especially the different forces of exercition and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and heries, so nicely conceined by it; Cholera, Diarrhoa, Dysentery, Typhoid and Typhus Fever, Fever, Aque, Nervous Debility, Ansenia, Female Irregularities, Dyspopsia, Fla

The wonderful flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded assemblies, operas, carriages, rail-road cars, church pews, arn chairs, for promende and house dress, as the skirt can be folded when in use to occupy a small place as easily and conveniently as a silk or muslin dress, an invaluable quality in crinoline, not found in any single spring skirt.

A hady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex Elliptic Steel Spring Skirt for a single day, will never thereafter willingly dispense with their use. For children, misses and young ladies they are superior to all others.

They will not bend or break like the Single Spring, but will preserve their perfect and graceful shape when three or four ordinary skirts will have been thrown aside as useless. The hoops are covered with double and twisted thread, and the bottom rods are not only double springs, but twice (or double) covered; preventing them from wearing out when draggling down stoops, stairs, &c.

twice (or double) covered; preventing them from wearing out when dragging down stoops, stairs, &c.

The Duplex Elliptic is a great favorite with all ladies, and is universally recommended by the fashion magazines as the standard skirt of the fashionable world.

To enjoy the following inestimable advantages in crinoline, viz: superior quality, perfect manufacture, stylish shape and finish, flexibility, durability, comfort and economy, inquire for J. W. Bradley's Duplex Elliptic or Double Spring Skirt, and be sure you get the genuine article.

CAUTION—To guard against imposition be particular to notice that skirts offered as "Duplex." have the red ink stamp, vix: "J. W. a poisonous sinke:

Ar. B. Mishier—Sir:—About eight weeks since I was bitten in the left hand by a snake, but at the time did not know of what species it was. Immediately after the bite my hand swelled to a very large size, and the poison appeared to be working up my arm. I suffered great pain in my hand and arm; I had to quit work and was afraid I would be compelled to have my hand amputated. I came to you, and by your advice washed my hand and arm with your Herb Bitters at the same time taking it inwardly. In eleven days I was able to go to work again. The poison was all drawn out and Mishler's Herb Bitters was the only medicine or application that all drawn out and Mishler's Herb Bitters was the only medicine or application that I made use of. Mr. Christian Burns, a near neighbor of mine, went out a day or two after to the place where I was bitten, and killed what I believe was the same snake that bit me as he caught within five yards of the spot where I was bitten. It proved to be what is called a copper snake; at any rate, whether it was the same one that bit me or not—one thing is certain—that your Bitters cured the bite of a snake in my case for which I shall ever be thankful, as I believe it was the means of saving my hand.

I shall be pleased to personally satisfy any one of the truth of the above.

INTERMITTENT AND REMITTENT FEVER

Intermittent Fever is similar to Fever and Ague and its origin can be traced to the same causes. As its name implies it is remittent in its effect, recurring at statea periods. As in Fever and Ague this disease is preceeded by a dull, listless feeling. Soon the Fever, accompanied by a violent headache, comes on. After raging a length of time it disappears for a few hours, only to return with increased severity, and leaving the sufferer prostrated mentally and physically. In ordinasy practice the first resort of the physician in the treatment of this complaint is quinine and mercury. The disease by this treatment is checked—not cured—and is liable at any time to return.

perties prevent a recurrence of the discase, When Mishler's Bitters were first introduced to the public the proprietor did not feel justified in recommending it as a specific for Cholera During the fall of 1865, Dr. Mishler received the following note from Jacob L. Baker, Esq., of Lancaster Pa., a member of the Philadelphia College of Pharmacy. Mr. Baker had a great deal of experience in the treatment of Cholera is a druggist of sixteen years standing, was Hospital Steward in the Jefferson Hospital, Fhiladelphia, for three years, and is within a gentleman of undoubted integrity and one in whose statement the most implicit confidence can be placed:

Laucaster, November 3d, 1865.

Dr. Mishler—Dear Sir:—Knowing that the Cholera with its dreadful ravages is now up on our land, and knowing that no medicine now in our country possesses such a caloric influence "which is the vital remedy for all diseases of this kind," as the Bitters you now making I request you to prepare such a quantity of your bitter as would suit all demands, as I assure you they will be an invaluable remedy, and will be hailed as a blessing by all who will use it.

JACOB L. BAKER.

Being thus urged, and having noticed the Bitters were constantly curing the most violent cases of Diarrhea, Cholera Morbus and kindred complaints, Dr. Mishlera I last offered his compounds as a cure for Cholera The result has exceeded his most sangnine expectations and fully justifies all that Mr. Baker says in his note. It certainly proves that Mr. Baker's practical knowledge of acdicine far exceeds that of most doctors who too often dose their patients with deleterious drugs on some absurd theory.—For the purpose of showing that Mishler's Herb Bitters will cure Cholera we give below a few facts.

All intelligent persons who have investigated the origin of cholera, agree that it is caused by poison introduced and generated into the system by impure water, dampness, filth and over-crowded rooms with deficient ventilation. This is proved by the fact that cholera always rages worso on board of ships where all of the above causes are found more or less combined. To cure cholera, and also to prevent it, it is necessary to neutralize this position, and that Mishler's Bitters will dothis is proven by the following:

The steamship Virginia, arrived at the Port of New York about the middle of April with cholera a board a number of the passengers having died during the voyage with this complaint. Among the passengers having died during the voyage with this complaint. Among the passengers having died during the voyage with this complaint. Somith, when this package arrived at Quarantine, the doctors examined it and confiscated the contents. Another bottle was procured and packed in a more secure manner; itsafely reached the Schmiths. On its arrival aboard the Virginia, Henry Schmith and Christ, Schmith were both laboring under choleric symptous: Mrs. Marcia Schmith, wife of the former was very bad, not expected t THE ENTERPRISE INSURANCE The investments of this Company are in First Mortgages on Real Estate in the city of Philadelphia, and in other securitles carefully selected by the Directors.

physicians permitted them to leave the Virginia, after being confined at quarantine aboard that securge ship forty-two says.—The Schmiths proceeded to their relatives in Lancaster, and at an early opportunity called on Dr. Mishler to express their gratitude for the timely relief they had found in his Bitters. Mr. Henry Schmith stated that all the compounds the doctors had given him did no good, but that one glass of Mishler's Bitters made him feel like a new man, warming his whole system, giving him a healthful heat and causing him to perspire freely. His statement was substantially was substantially as given above, and he further said that if the doctors had not kept the first bottle from reaching him, his son would yet hrve been living. Mrs. Schmith was still weak from the effect of cholera, but the continued use of the Bitters were most surely restoring her accustomed vigor.

It is not to be expected that regular M. Ds. will admit that any remedy not to be found in the Dispensatory will cure Cholera or any other complaint, but candor compels Dr. D. 11. Bissell of the Cholera Hospital ship "Falcon" to admit that he believes Mishler's Bitters to be a "very good Tonic." In reply as to a case of Bitters that was sent to him by a well known gentleman of Lancaster, he writes as follows:

gentleman of Lancaster, he writes as fol-

ease, Cholera, gives an endorsement by him an unusual importance. This letter together with the statement of the Schmith family—who while in the Steamer Vir-ginia, were under Dr. Bissell's control, shows what the Bitters have done and con

shows what the Bitters have done and can do.

Another case of Cholera cured by Mishlers Herb Bitters is that of Mr. Pearsol of York county, who after suffering severely from all the symptons of Cholera, finally became collapsed and while in this state, (the doctors stating that he was beyond relief) a friend administered freely, Mishler's Bitters. The effect was instantaneous; heat was generated in the body, perspiration was induced and after using one butter Mishler's Bitters cures Cholera by counteracting the poison which is the cause of the disease. Poison in the system, whether generated by bad vir, filth, &c., as in Cholera, or introduced by the bite of a venomous snake or mad dog will be expelled and all bad symptoms allayed by the use of Michler's Herb Bitters. The above proves this to be the fact in Cholera and the certificate of Mr. Rhinehart proves that Mishler's Billers will cure the bite of a poisonous snake:
