REPARATOR CAPILLI.

REPARATOR CAPILLI.

For restoring hair upon bald heads (from whatever cause it may have fallen out) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest nace in from five to eight weeks, or hair upon bald heads in from two to three months. A few ignorant practicioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of fiving witnesses (from their own experience) can bear witnesses (from their own the spurious? It certainly is difficult, as nine-tenths of the different Preparations advertised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Cappilli; it will cost you nothing unless it fully contex up to our representations. If your Druggist does not keep it, send us one dollar and we will forward it, postpaid, together with a receipt for the money, which will be returned to you on application, providing entire satisfaction is not given.

BEAUTIFUL

REPARATOR CAPILLI,

INDEPENDENT, FEARLESS & FREE.

Columbia, Pa. Saturday, June 1, 1867.

TO ALL advertising will be considered ASH, and collectable at any time after the

The Susquehanna. The following interesting historical

sketch of the Susquehanna River is from the Lycoming (Pa.) Standard: If there be a more beautiful spot on earth than that where the men of Paxton settled we have never seen it. From its source in Otsego Lake, where the great American novelist has described it in language that will never cease to be read; along by its lovely windings, where the Chemung intersects the North Branch, whose beauties have been embalmed by one of our most graceful poets; by the Valley of Wyoming which lives forever in the imagination of Campbell, but which is fairer even than the semi-tropical fancy of which he was enamored; on by the bold scenery of its waters at Northumberland, to its broad glory, celebrated in the New Pastorial, and its magnificent union with the Chesapeake, every mile of the Susquehanna is beautiful. Other rivers have their points of loveliness or of grandeur, the Susquehanna has every form of beauty or sublimity that belongs to rivers. We have seen them all; Connecticut, Hudson, Delaware, Ohio, Mississippi, Missouri. There is nothing like the Susquehanna on this continent. Its peculiar character depends upon its origin in the New York meadows, its passage through the magnificent Pennsylvania highlands and mountains. Everywhere its course is deflected; it begins a wooded lake; it winds a limped brook by

meadows and over silver pebbles; makes

its way through mountains; it loiters,

restingly, by their bases; it sweeps in

broad courses by the valleys; its vast

width, in its mad spring freshets, when

swollen by the melted snows, it rushes

from the hills with irresistable force,

sometimes causing frightful inundations;

leaves, with its falls, island after island in

its channel, of the richest green, and

most surpassing beauty; while those pass-

es through the mountains afford points

of scenery far finer than any one would

believe them to be from any description,

if he had not seen them.

The Susquehanna makes the grandest of these passages below the mouth of the Juniata. Its course there is several miles long, before it entirely disengages itself from the rapids, called Hunter's Falls, which are the remains of the rocky barrier which once resisted its way. Entirely at liberty, it pours its stream, a mile wide, along a channel some fifty or sixty feet beneath its banks. About seven miles below the mountains, at a point where they look blue in the distance, a sheltering wall from the northern blasts, flows in a little stream which the Indians called Pexetang, Paixtang, or Paxton. This mountain is the northern boundary of the great valley, which, underlaid with blue limestone, covered originally with the richest and noblest forest-growth, and in-cluding within it the garden of all the Atlantic slope, extends from Easton, on the Delaware, by Reading, Lebanon and Lancaster, by Harrisburg, York and Car-Lancaster, by Harrisburg, York and Carlisle, by Chambersburg, Hagerstown and Winchester, until it loses itself in the North Carolina hills. The point of the greatest beauty in all the valley, is the spot where it is cloven by the Susque-

A hundred and forty years ago, an enterprising young man, from Yorkshire, in England, by descent, probably, one of those Scandinavians, who under the great
Canute, held possession of the north of
England, and gave its main character to
it, made his way to Philadelphia. He
married here a lady who came over with a well-known Yorkshire family of this city. Impelled by the same enterprising spirit that brought him from the old world, and using the inevitable eye that was characteristic of him, he went to the banks of the Susquehanna. He settled at a brief period at a point above Columbia, where the village of Bainbridge now stands, a place much frequented by the Conoy or Gawanese Indians. But he was not satisfied with this location. Exploring upwards along the eastern bank of the Susquehanna, he advanced, until, instead of the Conewaga hill at his back and on the opposite side of the river, he found the entrance opposite to him of that most beautiful valley, already described, with two fine streams flowing into the river five miles apart, and on the eastern side an elevated plateau unsurpassed in loveliness in the wide world, with the little Paxton flowing at the base of an elevated slope or ridge of land. Here he settled, and the ferry across the river to the entrance of the Cumberland Valley was called after him

His son, the first white child born west of the Conewaga hills, consequently laid out a town on the spot, and with singular forethought set apart six acres on a noble hill which rises on the northwest, which he conveyed to the State, for public purposes. The capitol of Pennsylvania is now built upon it, and the city of Harrisbugg bears his name.

She reveals secrets no mortal ever knew. She restores to happiness those who, from doleful events, catastrophes, crosses in love, loss of relations and friends, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen property, tells you the lonshiess you are best qualified to pursue and in what you will be most successful, causes speedy marriages and tells you the very day you will marry, gives you the name, likeness and characteristics of the person. She reads your very thoughts, and by her almost supernatural powers unveils the dark and adden mysteries of the future. From the stars we see the firmment—the malefle stars, that overcome or predominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. "EMAIL DE PARIS."

A NEW BEAUTIFIER OF THE SKIN. Pestimonials of Celebrated Ladles: The secret of cautifying the skin being known only to Messrs, lared & Rene, they honorably state that it differs from all other preparations. It gives to the most airsh and freekled skin both the texture and oldr of polished lyorg, removing all discoloracolor of polished ivore, removing all discolorations, whether appearing as freekles, tan, morphew, moth, or blackworm specks, and is especially successful in smoothing out the marks left by small pox.

The agents of "L'Email de Paris" most confidently submit to the public the earnest endorsements of such distinguished ladies as Signora Ristori, Mele Felicia, Vestvall, Miss Maggle Mitchell, Mrs. D. P. Bowers, Lucille Western, Mad. Ponisi, Mrs. Emma Waller, Lucy Rushton, Noemide de Margaerittes, Miss Agnes Perry, and many others, whose high standing in the profession gives the stamp of ruthfulness to to their intelligent and genuine approval.

The beautiful Lucille Western says, I find that the "Email" produces all the brilliancy of rougand lilly-white, with the great and peculiar advantage of total harmlessness. It really adds to the softness and beauty of the skin.

The magnificent Vestvall says, I have suffered so much from the various white lotions, &c., which my theatrical profession obliges me to use that I consider it a perfect benefaction to find a preparation, which gives the necessary witteness to the skin, and leaves the skin cool and smooth.

Miss Maggle Mitchell says, I have tried the

whiteness to the skin, and leaves the skin coor and smooth.

Miss Maggie Mitchell says, I have tried the skin beautifier, "L'Email de Paris," and found that it instantly inparts a natural bloom and freshness to the complexion.

"Jared's Email de Paris" is used as a delicate beautifier of the skin for theater, saloon, or hall room, by the most refined and scrupulous ladies producing all the beautifying effects of rouge and lilly-white, without their vulgar glare or injury to be skin.

The Howe

LOCK STITCH,

THESE WORLD-RENOWNED SEWING MACHINES Were awarded the highest premium at the World's Fair in London, and six first premium at the New York State Fair of 1866, and are celebrated for doing the best work, using a much smaller needle for the same thread than any other machine, and by the introduction of the most improved machinery, we are now able to supply the very best machines in the world. These machines are made at our new and spacious Factory at Bridgeport, Conn., under the immediate supervision of the President of the Company,

ELIAS HOWE, JR., EJIAND HUWE, JR.,
the original inventor of the Sewing Machine.
They are adapted to all kinds of Family Sewing, and to the use of Seamstresses, Dress Makers, Tailors, Manufacturers of Shirts, Colarks, Skirts, Cloaks, Manufacturers of Shirts, Colarks, Skirts, Cloaks, Manufacturers of Shirts, Colare, Skirts, Cloaks, Manufacturers of Shirts, Caps, Corsets, Boots, Shoes, Harness, Saddles, Linen Goods, Umbrellas, Parasols, etc. They work equally well upon silk, lineit, woolen and cotton goods with silk, cotton or linen thread. They will seam, quilt, gather, hem, fell, cord, braid, bind, and perform every species of sewing, making a beautiful and perfoct stitch, alike on both sides of the articles sewed.
The Stitch invented by MR, HGWE, and made

of the articles sewed.

The Stitch invented by MR, HGWF, and made on this Machine, is the most popular and durable, and all Sewing Machines are subject to the principle invented by him. SEND FOR CIRCULAR.

This letter from Dr. Bissell, just after the reception of the Bitters, and before he had time and opportunity to thoroughly test their wonderful medicinal properties is considered an important endorsement, as that gentleman to-day occupies the most important position of any physician in America. The passengers and crews o emigrant and merchant vessels that arrive in the Port of New York from foreign countries, are subject to his inspection and control, and the great experience he has had in the management of that dreadful disease, Cholera, gives an endorsement by him an unusual importance. This letter together with the statement of the Scimnith family—who while in the Steamer Virginia, were under Dr. Bissell's control, shows what the Bitters have done and can do.

shows what the Bitters have done and can do.

Another case of Cholera cared by Mishler, s. Herb Bitters is that of Mr. Pearsol of York county, who, atter suffering severely from all the symptons of Cholera, finally became collapsed and while in this state, (the doctors stating that he was beyond relief) a friend administered freely, Mishler's Bitters. The effect was instantaneous; heat was generated in the body, perspiration was induced and after using one bottle Mr. Pearsol was entirely restored.

IRON & MACHINERY. QUPPLEE & PROTHER.

Mishler's Bitters cures Cholera by counteracting the poison which is the cause of the disease. Poison in the system, whether generated by bad air, filth, &c., as in Cholera, or introduced by the bite of a venomous snake or mad dog will be expelled and all bad symptoms allayed by the use of Michler's Herb Bitters. The above proves this to be the fact in Cholera and the certificate of Mr. Rhinehart proves that Mishler's Billers will cure the bite of a poisonous snake: STEAM BOILERS. In addition to our Foundry and Machine work,

that Mishler's Billers will cure the bite of a poisonous snake:

Lancaster, July 4th, 1865.

Mr. B. Mishler—Sir:—About eight weeks since I was bitten in the left hand by a snake, but at the time did not know of what species it was. Immediately after the bite my hand swelled to a very large size, and the poison appeared to be working up my arm. I suffered great pain in my hand and arm; I had to quit work and was afraid I would be compelled to have my hand amparated. I came to you, and by your advice washed my hand and arm tith a same time taking it inwardly. In eleven days I was able to go to work again. The poison was all drawn out and Mishler's Herb Bitters was the only medicine or application that I made use of. Mr. Christian Burns, a near neighbor of mine, wentout a day or two after to the place where I was bitten, and killed what I believe was the same snake that bit me as he caught within five yards of the spot where I was bitten. It proved to be what is called a copper snake; at any rate, whether it was the same one that bit me or not—one thing is certain—that your Bitters cured the bite of a snake in my case for which I shall ever be thankful, as I believe it was the means of saving my hand.

I shall be pleased to personally satisfy any one of the truth of the above.

Itospital Ship Falcon,
Quarantin, New York, June 7th, 1866.
George S. Rowbotham, Esq.—Dear Sir:
Yours of the 23d, inst. is to hand. In reply, I begleave to say, that I received the case of Bitters you sent me for trial &c., that I gave them to the convalescents in Hospital. I believe them to be a very good tonic Bitters, well adapted to all cases requiring Tonic remedies.

physicians permitted them to leave the Virginia, after being confined at quarantine abourd that scourge ship forty-two says.—The Schmiths proceeded to their relatives in Laneaster, and at an early opportunity called on Dr. Mishler to express their gratitude for the timely relief they had found in his Bitters. Mr. Henry Schmith stated that all the compounds the doctors had given him did no good, but that one glass of Mishler's Bitters made him feel like a new man, warming his whole system, giving him a healthful heat and causing him to perspire freely. His statement was substantially was substantially as given above, and he further said that if the doctors had not kept the first bottle from reaching him, his son would yet hrve been living. Mrs. Schmith was still weak from the effect of cholera, but the continued use of the Bitters were most surely restoring her accustomed vigor.

It is not to be expected that regular M. Ds. will admit that any remedy not to be found in the Dispensatory will cure Cholera or any other complaint, but cander compels Dr. D. H. Bissell of the Cholera Hospital ship "Falcon" to admit that he believes Mishler's Bitters to be a "very good Tonic." In reply as to a case of Bitters that was sent to him by a well known gentleman of Laneaster, he writes as follows:

will be laniled as a blessing by all who will use it.

Yours respectfully.
JACOB L. BAKER.

Being thus urged, and having noticed the Bitters were constantly curing the most violent cases of Diarrhea, Cholera Morbus and kindred complaints, Dr. Mishler at last offered his compounds as a cure for Cholera The result has exceeded his most sanguino expectations and fully justifies all that Mr. Baker says in his note. It certainly proves that Mr. Baker's practical knowledge of nedicine far exceeds that of most doctors who too often dose their patients with deleterious drugs on some absurd theory.—For the purpose of showing that Mishler's Horb Bitters will enre Cholera we give below a few facts.

All intelligent persons who have investigated the origin of cholera, agree that it is caused by poison introduced and generated into the system by impure water, dampness, filth and over-crowded rooms with dedicient ventilation. This is proved by the fact that cholera always rages worse on board of ships where all of the above causes are found more or less combined. To cure cholera, and also to prevent it, it is necessary to nentralize this position, and that Mishler's Bitters will dothis is proven by the following:

The steumship Virginia, arrived at the H. Kraber, Thomas Gray, Eli Kindig, John Landes, Wm. Wallace, George D. Ebert, David that Mishler's Bitters will do this is proven by the following:

The steamship Virginia, arrived at the Port of New York about the middle of April with cholera a board a number of the passengers having died during the voyage with this complaint. Among the passengers were a family named Schmith, from Baden, Germany. This family was attacked with cholera. Fortunately for them they had friends living in this city | ancaster, Pa.,) who knew the virtues of Mishler's Bitters and who procured a bottle and sent it to the Schmith family. When this package arrived at Quarantine, the doctors examined it and confiscated the contents. Another bottle was procured and packed in examined it and confiscated the contents. Another bottle was procured and packed in a more secure manner; it safely reached the Schmiths. On its arrival aboard the Vinginia, Henry Schmith and Christ. Schmith were both laboring under choleric symptoms: Mrs. Marcia Schmith, wife of the former was very bad, not expected to recover, and a son had died of the dread complaint and had been buried theday previous. It was in this plight a bottle of Mishler's Bitters, sent forth like an Angel of Mercy found the poor Schmith family.—Henry Schmith was the first to try it, and so instantaneous was the relief he experiso instantaneous was the relief he experi-enced that he gave it to his wife and brother both of whom it at once relieved. They used the entire contents of the bottle and Inving increased my facilities for turning all three were so much relieved that the pperior work I would announce to my old physicians permitted them to leave the were so much relieved that the physicians permitted them to leave the were so much relieved that the physicians permitted them to leave the were so much relieved that the physicians permitted them to leave the were so much relieved that the physicians permitted them to leave the contents of the bottle and the contents of the bottle and the contents of the bottle and the physicians permitted that the physicians permitted them to leave the contents of the bottle and the contents of the bottle and the contents of the bottle and the physicians permitted that the physicians permitted them to leave the contents of the bottle and the contents of the bottle and the physicians permitted them to leave the physicians permitted them.

WILL CURE

INTERMITTENT AND REMITTENT FEVER

Intermittent Fever is similar to Fever and Ague and its origin can be traced to the same causes. As its name implies it is remittent in its effect, recurring at stated periods. As in Fever and Ague this disease is preceeded by a dull, listless feeling. Soon the Fover, accompanied by a violent headache, comes on. After raging a length of time it disappears for a few hours, only to return with increased severity, and leaving the sufferer prostrated mentally and physically. In ordinasy practice the first resort of the physician in the treatment of this complaint is quinine and mercury. The disease by this treatment is checked—not cured—and is liable at any time to return.
