BANKS. DRY GOODS. MISCELLANEOUS. QUARTERLY REPORT OF THE [For the "Spy."] Mr. RAMBO.—I approve of athletic sports, and their practice occasionally are perhaps proper; but are not the many Base Ball clubs organized in our borough, conducive and tending to promote illences among the youth of our town? It is the complaint of several mechanical business firms in Co-lumbia, that their apprentices are more in-terested in their respective clubs, than in their vocation—the learning of a trade, and that it is not musual for these apprentices to devote a day in each week to the games and business of their clubs. The importance the Spy has recently given in reporting these games has excited a desire for pub-licity on the part of the clubs, intolerable to the readers of your otherwise excellent journal. N. We have in different parts of our country papers of decided ability, devoted to the in-terests of the defanct Democratic party; the talents of their editors would be wasted, ex-cept for the fact that demagognes keep them up in the hope that they will ultimately pay; a vain hope, I think. But then we have another class that display neither talent, wit, or decent vulgarity; one such is located not a hundred leagues from here. It is a sort of a mixture of the biped and quadruped—a sort of politico conico, melo-dramatic, hermaphrodite, chanclion-like smut machine. It is edited by a Yankee ad-ventarer, with much assurance and some "insurance," assisted by a sort of a politi-cal Esau, who sold his birth-right for a mess of pottage. And then they have sever-al correspondents, who, together with the editors, manage once a week to get up, what in common courtey we will call a newspaper, although instead of news it is filled with villianous attacks on private citzens, always better than themselves, a little niggerism and balderdash, generally, and yet there are people who will read such stuff, and *Heradid* it for the something smart.
