

the word. Whipping and slashing and elverinorm swearing only make the mutter wors eight years. She is about twenty-five After you have gentled him awhile, and his excitement has cooled down, take him by the bits; turn him cach way a few minutes as far as you can; pull out the tongue; gentle him a little; unrein him; then step before the balky horse and let the other start first; then you can take them anywhere you wish. A balky horse is always high spirited and starts re leggs or not, and if he woman has a child of about eight years of quick ; half the pull is out before the others start; by standing before him the others start too. By close application to this rule, you can make any balky horse pull. It a horse has been badly spotled, you should hitch him to the empty wagon, and pull it around awhile on level ground then put on a little load and increase it gradually, caressing as before, and in a short time you can have a good work horse.-American Farmer. Whitewash and Lime. Very few people in certain sections of our country seem to know that buildings last longer for whitewash, or to appreciate that it looks better than rust and dirt. It is said that shingles on a roof once white washed, will last twenty years. Many kinds of wood absorbing rain-water decay of their own acids. . Lime neutralizes the acid, and makes the wood durable. For intu our tung, without burst- part of the thoroughly frightened engineer, inside whitewashing add a little glue, and it will not rub off on your coat when dry. apparently nearer and nearer, the train Many kinds of insects, and some say fieldmice, will not touch the trunks of treewhen protected by a wash of line. Wherever lime can be had cheap, the farmer has a great advantage. Mixed with gravel or sand, or brook pebbles, or even broken tiles and bricks and pounded oysier-shells, or pieces of stone, he will have a "concrete." which can easily be moulded in boxes, brick-shaped and eighteeu inches long, into the cheapest "build ing stones," or what looks exactly like them, and which can be used for houses, out-buildings, or walls, to great advantage. We have seen many a house built in this way.
