THE COLUMBIA BRIDGE .-- WC were informed, some time ago, by a man well posted in railroad affairs, that the Columbia Bridge would be commenced early in August. We so published the fact, but we were doomed to disappointment; nothing has yet been done. It is a great public necessity, and our citizens should urge upon it an allotted mass of miserable nasty the Company the importance of commencing the work of "reconstruction" at as early a day as possible. The Wrightsville Star says: "We learn

> A SUGGESTION TO OUR BALL PLAYERS -A member of one of the principal clubs of New York, gives the cause of the small scores now being made, where there is the heaviest kind of batting done. It lies in this one thing-their perfect fielding. On every practice day for one hour, the nine take their regular positions and pass the ball around. First a sky ball is sent to a fielder, then a line ball. A running catch, cross catches, grounders. They are in return sent sharply back to the basemen and infielders. The basemen are given balls
