ASH, and collectable at any time after the

You may know a man by the company he keeps," is an old saying, and as true as it is ancient. There is a law of social gravitation as well as a physical law of gravitation. Men and combinations of men, always gravitate to their proper places. Put a thief in a community where there are ten thieves, and he will make the acquaintance of every man of them before he has been there two days. It is said that the practice of calling Copperheads rebels and traitors is a harsh one. It may be harsh, but is it not just Mark who these men quote when they want to make a point. If the fight is on a Union General, they search the rebel newspapers for evidence against him. Just now, Copperhead papers are firing away at Ben Butler. Robert Ould, the Richmond rebel Commissioner of Exchange of prisoners during the war, writes a letter stating that he offered to exchange fifteen thousand sick and wounded Union prisoners for an equivalent. This was in 1864. The inference is that Gen. Butler refused to accept the proposition. But Gen. Butler makes an official statement denying that Mr. Ould ever addressed him such a proposition. The Copperheads publish Ould's charge, and do not publish the fact that Butler has officially denied its truth. They use Ould's letter to bat ter Butler. Of course we all know that any Copperhead will sooner believe a traitor than a man who fought traitors. It is the most natural thing in the world for them to do it.

So Enticing! The Stubenville (Ohio) Herald says that the Portsmouth Tribune informs them of the nomination of a Democratic Senator for that district, one James Emmitt, of Waverly. His recommendations for the position are thus stated: 12 3 1. He is one of the largest manufactur-

ers of the "Spirit of Democracy" in Southern Ohio, and his whisky will flow like water in the campaign. 2. He is rich, and will. "come down" liberally with the greenbacks, to his faith-

ful followers. 3. He had such entire confidence in the success of the rebellion that we are told he invested a large portion of his means in gold at 250. 4. He was formerly an ardent Know-Nothing, and used to march his men to

the polls in a body and conipel them to vote in solid phalanx . agin the bloody 5. His scholastic attainments and liter

ary ability. [He spells the word "Europe" thus: "U-ri-p!"]

No Democrat could resist such an array of principles as that A Sad Picture.

The Indianola (Texas) Bulletin gives the following morniful picture: A little over a month has passed, and our city has been the scene of sickness and distress. Shunned by our neighbors, cut off from all inter course with the interior, we have truly gone through a severe time. Disease, pestilent and relentless, has visited almost every dwelling in our town, and death, with a removeless hand, has struck down many of our dearest citizens regardless of age, sex or condition. The fordest tessof affection have been sundered, and those that are still left to struggle with life's vicissitudes and trials will long mourn the absence of loved and familiar

PRESIDENT JOHNSON develops a more enlarged capacity for impracticability than was probably ever displayed by any person in his position. His removal of General Sheridan was a great mistake; but instead of putting one of his own "policy" players in his place, the substituted General Thomas, whose opinions are almost identical with those of Sheridan.

Keep it Before the People. That Judge Sharswood proclaimed Secession Doctrines as early as 1834, and by his offical decisions during the late Rebellion, gave unmistakable evidence of sympathy with Traitors! Such a mar should never be elevated to the Supreme Bench of the State.

The beautiful Lucille Western siys, I find that the "Email" produces all the brilliancy of rouge and filly-white, with the great and peculiar advantage of total harmlessness. It really adds to the softness and beauty of the skin.

The magnificent Vestvali says, I have suffered so much from the various white lotions, &c., witch my theatrical profession obliges me to use, that I consider it a perfect benefaction to find a preparation which gives the necessary whiteness to the skin, and leaves the skin cool and smooth.

Miss Maggie Mitchell says, I have tried the whiteness to the skin, and leaves the skin cool and smooth.

Miss Maggie Mitchell says, I have tried the skin beautilier, "I-Email de Paris," and found that it instantly imparts a natural bloom and freshness to the complexion.

Intermittent And Remittent Fever and Ague and its origin can be traced to the same causes. As its name implies it is remittent in its effect, recurring at stated periods. As in Fever and Ague this disease is preceeded by a dull, listless feeling. Soon the Fever, accompanied by a violent head ache, comes on. After raging a length of time it disappears for a few hours, only to return with increased severity, and leaving the sufferer prostrated mentally and physically. In ordinary practice the first resort of the physician in the treatment of this complaint is quinine and mercury. The disease by this treatment is checked—not cured—and is liable at any time to return. 691,850 MISHLER'S BITTERS WILL CURE \$691,850 1

CHOLERA.

Mishler's Bitters cures effectually all such cases by inducing a healthy action of the Liver and by their unsurpassed tonic, properties prevent a recurrence of the disease. When Mishler's Bitters were first introduced to the public the proprietor did not feel justified in recommending it as a specific for Cholera During the full of 1865, Dr. Mishler received the following note from Jacob L. Baker, Esq., of Lancaster Pa., a member of the Philadelphia Collego of Pharmacy. Mr. Baker had a great deal of experience in the treatment of Cholera is a druggist of sixteen years standing, was Hospital Steward in the Jefferson Hospital. one in whose statement the most implicit confidence can be placed:

Laucaster, November 3d, 1865.

Dr. Mishler—Dear Sir:—Knowing that the Cholera with its dreadful ravages is now up on our land, and knowing that no medicine now in our country possesses such a caloric influence "which is the vital remedy for all diseases of this kind," as the Bitters you now making I request you toprepare such a quantity of your bitter us would suit all demands, as I assure you they will be an invaluable remedy, and will be hailed as a blessing by all who will use it.

will be hailed as a blessing by all who will use it.

Yours respectfully.
JACOB L. BAKER.

Being thus urged, and having noticed the Bitters were constantly curing the most violent cases of Diarnhea, Cholera Morbus and kindred complaints, Dr. Mishier at last offered his compounds as a cure for Cholera. The result has exceeded his most sanguine expectations and fully justifies all that Mr. Baker says in his note, It certainly proves that Mr. Baker's practical knowledge of neclicine far exceeds that of most doctors who too often dose their patients with deleterious drugs on some absurd theory.—For the purpose of showing that Mishier's Herb Bitters will cure Cholera we give below a few facts.

All intelligent persons who have investigated the origin of cholera, agree that it is caused by poisson introduced and generated into the system by impure water, damp-

This Company continues to issue Policies of Insurance on Buildings or Personal Property, in lown or country, at CASH, or MUTUAL RATES. All intelligent persons who have investigated the origin of cholera, agree that it is eaused by poison introduced and generated into the system by impure water, dampness, filth and over-crowded rooms with deficient ventilation. This is proved by the fact that cholera always rages worse on board of ships where all of the above causes are tound more or less combined. To cure cholera, and also to prevent it, it is necessary to neutralize this position, and that Mishler's Bitters will do this is proven by the following:

The steumship Virginia, arrived at the Port of New York about the middle of April with cholera a board a number of the passengers having died during the voyage with this complaint. Among the passengers were a family named Schmith, from Baden, Germany. This family was attacked with cholera. Fortunately for them they had friends living in this city 'ancaster'. Pa.,) who knew the virtues of Mishler's Bitters and who procured a bottle and sent it to the Schmith family. When this package arrived at Quarantine, the doctors examined it and confiscated the contents. Another bottle was procured and packed in a more secure manner: it sufely reached the Schmiths. On its arrival aboard the Virginia, Henry Schmith and Christ. Schmith were both laboring under choleric symptoms: Mrs. Marcia Schmith, wife of the former was very bad, not expected to recover, and a son had died of the dread complaint and had been buried theday previous. It was in this plight a bottle of Mishler's Bitters, sent forth like an Angel of Mercy Jound the poor Schmith family.—Henry Schmith was the first to try it, and so instantaneous was the relief he experienced that he gaveitto his wife and brother both of whom it at once relieved. They used the entire contents of the bottle and all those were so much relieved that the physicians permitted, them to leave the Virginia, after being confined at quarantine aboard that scourge ship forty-two suys.—The Schmiths proceeded to their relatives in Lancaster, and at an entry opportunity HOME INSURANCE COMPANY OF NEW YORK.

JAMES SCHROEDER,
Locust Street, between Front and Second. of Mishler's Bitters made him feel like a new man, warming his whole system, giving him a healthful heat and causing him to perspire freely. His statement was substantially was substantially as given above, and he further said that if the doctors had not kept the first bottle from reaching him, his son would yet hrve been living. Mrs. Schmith was still weak from the effect of cholera, but the continued use of the Bitters were most surely restoring her accustomed vigor. The Subscriber has on hand a large Stock of and Shoes, Galters, &c., all of his own facture.

gentleman of Lancaster, he writes as follows:

Hospital Ship Falcon,
Quarantin, New York, Juno 7th, 1866. }
George S. Rowbotham, Esq.— Dear Sir:
Yours of the 23d, inst. is to hand. In reply, I beg leave to say, that I received the case of Bitters you sent me for trial &c., that I gave them to the convalescents in Hospital. I believe them to be a very good tonic Bitters, well adapted to all cases requiring Tonic remedies.

D. H. BISSELL, Physician,
Ilospital Ship "Falcon."

This letter from Dr. Bissell, just after the reception of the Bitters, and before he had time and opportunity to thoroughly test their wonderful medicinal properties is considered an important endorsement, as that gentleman to-day occupies the most important position of any physician in America. The passengers and crews o enigrant and merchant vessels that arrive in the Port of New York from foreign countries, are subject to his inspection, and control, and the great experience he has had in the management of that dreadful disease, Cholera, gives an endorsement by him an unusual importance. This letter together with the statement of the Schmith family—who while in the Steamer Virginia, were under Dr. Bissell's control, shows what the Bitters have done and can do.

Another case of Cholera cured by Mish-

ginia, were under Dr. Bissell's control, shows what the Bitters have done and can do.

Another case of Cholera cured by Mishler, s Herb Bitters is that of Mr. Pearsol of York county, who, after suffering severely from all the symptoms of Cholera, finally became collapsed and while in this state, (the doctors stating that he was beyond relief) a friend administered freely, Mishler's Bitters. The effect was instantaneous; lieat was generated in the body, perspiration was induced and after using one bottle Mr. Pearsol was entirely restored.

Mishler's Bitters cures Cholera by counteracting the poison which is the cause of the disease. Poison in the system, whether generated, by bad sir, filth, &c., as in Cholera, or introduced by the bite of a venomous snake or mad dog will be expelled and all bad symptoms allayed by the use of Michler's Herb Bitters. The above proves this to be the fact in Cholera and the certificate of Mr.Rhinehart proves that Mishler's Billers will cure the bite of a poisonous snake:

Lancaster, July 4th, 1865.

Mr. B. Mishler-Sir—Abouteightweeks since I was bitten in the left hand by a snake, but at the time did not know of what species it was. Immediately after the bite my hand swelled to a very large size, and the poison appeared to be working up my arm. I suffered great pain in my land amputated. Leanne to you, and by your advice washed my hand ad arm with your Herb Bitters at the same time taking it inwardly. In eleven days I was ablo to go to work again. The poison was all drawn out and Mishler's Herb Bitters was the only medicine or application that I made use of. Mr. Christian Burns, a near neighbor of mine, went out a day or two after to the place where I was bitten, an earn enighbor of mine, went out a day or two after to the place where I was bitten, and killed what I believe was the same snake that bit me as he caught within five yards of the spot which I shall ever be thankful, as I believe it was the means of saving my hand.

The Schmiths proceeded to their relatives in Lancaster, and at an early opportunity called on Dr. Mishler to express their gratitude for the timely relief they had found in his Bitters. Mr Henry Schmith stated that all the compounds the doctors had given him did no good, but that one glass of Mishley's Bitters and shim for blass. of Mishler's Bitters made him feel like

her accustomed vigor.

It is not to be expected that regular M. Ps. will admit that any remedy not to be found in the Dispensatory will cure Cholera or any other compaint, but candor compels Dr. D. H. Bissell of the Cholera Hospital ship "Falcon" to admit that he believes Mishler's Bitters to be a "very good Tonic." In reply as to a case of Bitters that was sent to him by a well known gentleman of Lancaster, he writes as follows:
