Columbia, Pa. Saturday, Sept. 7, 1867.

COMMUNICATIONS, letters, contributions, generally of merit and interest to the reader, will be acceptable from friends from all quarters.

TO ADVERTISERS. Persons who wish their advertisen the greatest number of persons, will do well to avail themselves of the superior inducements offered through the columns of the Columns Spr It possescan advantage over any other newspaper; its average weekly circulation being more than thirty per cent greater than any other paper published in this vicinity, and promises to be more than one hundred per cent. greater, in less than six months—in addition to this, the patrons of the Srv are of the class that advertisers wish to reach—likeral minded class that advertisers wish to reach—liberal minded, and intelligent people, thereby making it the most lesirable medium for all classes of advertisers. This fact should have a great weight with advertisers.

TO CORRESPONDENTS. SARAH.—Chignon is pronounced, sheen-you. CALLY.—Very great impropriety, and no real gentlema

CALLY — Very great impropriety, and no real gentleman tendel do it.

J. G. R.—The letter we wrote you has been returned marked "not called for." Can't do anything more.

B. C. L.—Poeus received and will be published as soon as we can find room for them.

HYACINTIE.—The poem you send is capital from one of lest year's "Waverly's," therefore we respectfully decline to publish it as "reginat" with you.

COLLEGE COURSE—Yes, if circumstances favor, and you have the health, means, and natural ability to turn a liberal education to good account when acquired. The next best thing is to learn a trade, or to be fitted for business.

husiness.

M.—You should always get your paper on Saturday instead of Monday. There is a mail agent on the train that leaves here at 3 1-2 A. M., and it is his business to distribute the mail property. We have had other complaints, and we intend to look after the matter more

closely.

PRINTER.—No we do not take Rowell's adrestisement.
They have been sent to this office a number of times and always rejected. Neither do we take advertisements for paint, ink, rooping, or other "clarp-trap" arrangements. We routh fill column after column with such stuff; we prefer to give our patrons realising matter in place of doubtful, or poor paying advertisements.

Solution of poor paying advertisements.

**Solution — If, as you say, you are perfectly competent to fill the position and poss the necessary examination, and can bring influence to bear upon the proper authorities, you may obtain the appointment as a 2nd Lieutenant. But if you cannot do this you will only be disappointed. Tour past services ought to secure non the consistion — But if you cannot do this you will only be disappointed Your past services ought to secure you the position, you say, but there are a hundred applicants for every secure.

FOR ASSEMBLY .- Dr. E. B. Herr, of Manor, is a candidate for Assembly. The Dr. is a good clever fellow, perfectly honest and fair in all his dealings, and we wish

THE POTATO ROT .- We learn from all parts of the county, that there is much rotting among the potatoes, caused by the recent rainy and dull weather. All kinds seem alike subject to the disease. Some patches we hear of are not worth digging.

How are you, IKE?-Not Ike Partington, but Isaac O. Bruner, the person who sells the cheap goods. Go and see for yourselves at his store on Front street, above Locust. He has just received another lot of gentleman's furnishing goods. boots, shoes, cheap dress goods, &c., &c.

CHANGED HANDS .- The Golden Mortar Drug Store of this place has changed hands. It has been purchased by Dr. Herman, of New Kingston, Cumberland county, Pa., who will hereafter conduct affairs at the "Golden Mortar." Mr. Parry goes to 9 Omaha, and, we understand, has a situation on the Pacific Railroad,

EXCURSION TICKETS .- By an advertisement in another column, it will be seen that the Reading & Columbia Railroad will issue excursion tickets at reduced rates from all points on their road, through to Norristown, to persons who wish to attend the International State Fair. Tickets good from September 11th to the 17th, inclusive.

DEATH OF A SOMNAMBULIST. -- Geo. Groezinger, while in a somnambulistic the payement at Vogle's tavern, in this His remains were taken to Lancaster for interment. He was 38 years of age and un-

Henry J. Howard, Esq., of Baltimore, Md. He was on his way to Philadelphia with his family, and stopped in Columbia long enough to shake hands and say good-bye. Mr. H. is one of the prominent literary men of the day, and his productions have often appeared in the SPY. Success attend him.

ROBRER'S TONIC .- Letters speaking of the efficacy of Rohrer's Wild Cherry Tonic, are published in another column. Certificates can be shown, that wherever this Tonic is sold, it is doing good, and from the immense quantity shipped to the different parts of the country we must infer that it is becoming the most popular medicine of the day. It is sold in Columbia wholesale and retail at the liquor store of J. C. Bucher.

ACCIDENT.-Lilly Evans, five and a half years of age, daughter of Samuel Evans, Esq., of this place, whilst on her way to school on Tuesday last, on 5th street, fell on the pavement and dislocated the elbow and broke two of the bones in her arm, an inch below that joint. Drs. Hinkle and Armor adjusted the fracture and dislocation, which operation was a most painful and delicate one. The little sufferer is now without pain and seems to be improving.

STATE FAIR .- The Pennsylvania State Fair will be held at Pittsburgh from September 24th to September 27th. The premiums offered are very liberal, embracing live stock and all useful articles in husbandry; housewifery, manufactures, and farm products. The premiums are most liberal in every department; exceeding \$10,000 in the aggregate. The principal Railroads will issue excursion tickets, and return all articles which are exhibited, if they remain unsold, freight free. ...

ADAMS COUNTY AGRICULTURAL FAIR. -The Fifth Annual Exhibition of the Adams County Agricultural Society will be held at Gettysburg on Tuesday, Wednesday, Thursday and Friday, the 24th, 25th, 26th and 27th insts. 'Among the premiums offered is one of \$100 for the fastest trotting horse in harness, best two miles in three—open to the world. The Society has a half mile track on their grounds; which is said, to be one of the best in the State, and the competition for this premium will no doubt

be interesting and exciting. THE BLACK CROOK .- On Monday next the speciacular play known as the "Black Crook," will be produced at the Academy of Music, Philadelphia. Mr. John McDonough, the enterprising and favorite manager and actor, has made elaborate preparations to produce the play in a style which, in scenery, dresses and appointments of every kind, will rival the spectacle at Niblo's Garden, in New York. It is the most gorgeous play ever produced in this country and our citizens visiting the city will no doubt avail themselves of the opportunity of sec-

COOL IMPUDENCE. In the SPY of February 16th, 1867, we advocated the propriety of designating the streets by sign asked our borough Council to take some action in the matter. Intwoor three weeks. afterwards, a Copperhend paper, published. down on the borders of the Susquehanna, said: "We second the efforts of the Spy in reference to having the houses numbered," &c. This week the same paper says: "The idea was first broached in our columns." We are not surprised at this piece of cool im-

pudence, as there is noming these Copperheads to be guilty of.

STEAM PRINTING .- The Steam Printng Establishment of the "COLUMBIA SPY" is one of the largest, most complete and most perfectly appointed for Painting Orgices in this part of the State. It possesses unrivalled facilities for the prompt, speedy and artistic execution of every coneivable style of work. Printing by steam on fast presses, gives us advantages over others in point of cheapness, dispatch, and in the style of our work.

Pic Nic -As always is the case, the Red Men's pic nic which came off in Heise's woods on Saturday last was a perfect sucess, and all connected with the entertain ment were highly pleased. The guests complimented the managers on their management of the affair. The festivities were cept up till late in the evening when all the "Ingins" returned to their wigwams to recount the incidents and pleasures of the day.

WATER. The water was shut off for a short time on Wednesday evening, and when people found no fluid they very carelessly left their hydrants open, and the consequence was that some twenty-two of them, more or less, were flowing under-full pres sure until morning, involving a waste of hundreds of gallons of the precious fluid. There's none too much water in the reservoirs and such a needless waste of it is, to say the least, censurable.

A little amusement like that in some o our large cities costs twenty-five dollars.

FOR RECORDER. - In another column we announce the name of Benjamin Urban of Conestoga twp., for Recorder. Among the various candidates there is no man better qualified for the position, and his claims should be advanced by every true Republican voter in Lancaster county. is a man well stricken in years and in every way fitted for the position he seeks. He has been on the Republican "war-path" in "hard cider times," and took an active part in the campaigns of Clay, Taylor, Scott and the lamented Lincoln; Now he de serves to be rewarded by giving him the

DEATH BY ACCIDENT .- Geo. W. Long, young man of this place, and brakesmer on one of the freight trains of the Pennsylvania Railroad, was so much injured by being accidently struck with a poker in the hands of the fireman, that he died soon afterwards. He was on the engine at the time and unobserved by the fireman, who vhen done raking the fire; jerked the poker out quickly and struck Long such a severe blow in the abdomen that he never recovered. He was buried on Sunday last. The Columbia and Vigilant Fire Companies and a large concourse of citizens attended

ADVICE TO YOUNG MEN.-Let the business of every one alone, and attend to your own. Don't buy what you don't want. Use every hour to advantage, and study to make even leisure hours useful. Think twice before you spend a shilling-remember you will have another to make for it. Buy low sell fair, and take care of the profits. Look over your books regularly, and if you find an error, trace it. Should a stroke of misfortune come upon you in trade, retrench, state, walked out of a winflow and fell to work harder; but never fly the track. Confront difficulties with unflinching preseverplace, a short time since, and was so much ance, and they will disappear at last; injured that he died a few days afterwards. though you fail in the struggle, you will be honored; but shrink and you will be despised.

SPEER'S PORT GRAPE WINE .- Alf. Personal.—We had the pleasure, on Meyers, Druggist, Odd Fellow's Hall, Col-Wina The mild o ter and superior tonic properties of the Port Grape Wine over those formerly used by physicians have deservedly created for it a place in our sick rooms and hospitals. Government now uses it. The Sanitary and Christian commissioners use it; and Mr. Speer, in producing so excellent a native wine, is a benefactor in his line. His business is now very extensive, and what with drawing off and bottling, packing and box-making, quite a force is engaged. To the remotest part of the country his cases are sent, and by means of his medicinal and Sacramental Port Grape Wine, the name of Alfred Speer has become everywhere a familiar household word.

> HANDSOME WATCH .- We were shown few days ago, at the Jewelry Store of P. about to leave town. It is a 4 oz. case Appleton, Trucy & Co., American Lever, and has inscribed on the case, "Presented to Thomas D. Lewis by the workmen in Columbia Rolling Mill and Shops." Mr. Lewis has for a long time had charge of the machinery of the rolling mill, foundry, &c., at the Columbia Mills of this place, and this presentation shows the esteem in which he was held by the men under his charge. Mr. L. will leave Columbia with many regrets; he goes to Tennessee to take charge of the extensive iron works at Knoxville. The presentation of the watch will take place at the Town Hall this evening.

HAIL STORM .- On Thursday last, at 5 P. M., this locality was visited by a most terrifle storm of rain and hall, accompanied by a high wind and some of the tallest thunder and lightning that we have been favored with this year. The hail stoneswere about the size of buck shot and came down "right smart." is probable that the fruit in some sections has been injured by it, but we have heard of no damage being done as yet.

In this connection we would mention that we frequently insert a request that peo-ple who live in remote sections of the county would be kind enough to send us descriptions of storms, damage done, etc., but thus far we have met with but poor success. Since writing the above we learn that at

Marietta the storm was very severe, some of the streets were covered with water to the depth of several feet, and it is said that Dutly's park is injured to the amount of several thousand dollars, his fish pond, &c., carried away.

OUR HOME INTERESTS .- Not only the citizens of Columbia but those of the country have an interest in everything which tends to advance our town, increase its facilities in every, department, and add to the growing reputation which it now possesses throughout the State. As a public journalist, we have taken a great interest and pride in calling attention to whatever of a substantial nature has appeared amongst us, craving the attention and asking the sympathy and support of our citizens, which looked to the advancement of our people. priety of designating the houses, and. Now what we want to get at, is the building asked our borough Council to take some action in the matter. In two or three weeks a public want yes, a public necessity. The one now in use is entirely too small and we ask that the Committee appointed by our Town Council to take the matter into consideration will make a report at once, urging upon the members of that body the necessity of building a large and commodious Market House, capable of accommodating the wants of our citizens and the venders

Surety of the Peace.—Margaret Raredy made complaint against Michael Crady for making divers threats to kill deponent, Michael not having malice in his heart nor being instigated by the devil, waived a hearing and gave bail to answer at November Sessions. The defendant thinks that the complainent is a Jezabel. The parties reside at "Henry Clay" furnace.

Disorderly. Conduct.—Barbara Murry made complaint against Barbara Vesh for disorderly conduct, which consisted in any amount of "chin-music," by the defendant and her children, to complainent and her children. Parties live on Third street, near Union. Defendant agreeing to behave herself she was discharged.

COUNTY ITEMS .- D. K. Uhler, of Manheim, accidently discharged a loaded gun into his left hand, some time since. Wound doing well.

Abell, the man who forged the note in this borough, a shert time since, for which he was arrested and committed to the Lancaster County Prison, died in that Institution last week, and, his remains were taken to York county for interment.

rich.

A number of valuable cattle belonging to Martin Rohrer, of the Penn Hill Hotel, Fulton township, died quito recently. It is supposed that poison was administered to them, and an investigation will be made.

YORK COUNTY ITEMS .- John Jacoby, of Manchester township, had his hen roost robbed on Saturday morning last, before daylight. The thief made a clean sweep of it, taking the whole feathered family and leaving none behind him. Mr. J. tracked the rascal into York, where he succeeded in re-capturing the whole of them. A festival for the benefit of St. Patrick's hurch, will be held in the Court House at

York, commencing to-day, and continuing for one week. A grand exhibition of superb and costly articles will be disposed of. The public are respectfully invited. public are respectively invited.

The congregation in Chanceford township, of which the Rev. Robert Gemmil is the pustor, will hold a Festival at the Church building, on Wednesday, the 11th inst.

IRON ORE.—Some enterprising Iron Companies, having their headquarters in Philadelphia, are extending their search for iron ore into different parts of York county. and are meeting with good and remunerative success. Nearly all the farms in Seven Valley, for a distance of five or six miles, and clean through that parrow valley along the Northern Central Railroad into Heidelberg township, have been leased for mining purposes. It is known that a vast quantity of iron is imbedded in those locations, where ore is already taken out on a large scale. On Strickhouser's hill, where a switch has been constructed nearly a half a mile in length. connecting the ore.bank with the Hanover Junction Railroad, the supply seems to be inexhaustible. Ore abounds in almost every plantation in this exceedingly fertile valley, but in many places it lies too deep to render the raising of it profitable. Mr. Harry Smyser, of Marietta, we learn, has leused numerous grounds, where he antici-

GIRLS WHO CHEW GUM. - Many girls have acquired the particularly disagreeable habit of chewing gum. Perhaps they would like to know how gum is made:
"The greatest gum-manufacturing estab-

lishment is said to be at Podunk, Massa-chusetts: and the fame of their gum (and the gum itself) is in the mouth of all the world. One of the employees of that establishment, who has become thoroughly initiated into the mysteries of the manufacture of the gum, was recently discharged from the establishment and has since divulged the process by which these quids, which young Americans masticate with such velocity and apparent satisfaction. are made. The gum is made of certain parts of gum arabic, gum tragacanth, a small quantity of rosin and fat. The fat used is not lard, that being too expensive, but is a substance expressed from the dead hogs, cats, dogs and other animals found on the commons of the city. This is not the worst of it. After the various ingredients are melted together in a huge kettle, a certain kind of alkali is put in for the purpose of whitening the gum. This alkali is the same that is used by dyers with indigo to give a deep and permanent blue to flan-

ciated.—Chicago Journal. This is the Seventh number of this issue. The remaining six or seven volumes will be published in rapid succession. The set, consisting of thirteen or fourteen elegant little volumes, will be a choice library in itself. Besides being so very attractive, it is really the cheapest edition of Dickens' Complete Works issued in this country. The illustrated edition is only \$1,50 a volime; plain, \$1,25. All the booksellers have it, or it will be sent postpaid by the Publishers, Ticknor & Felds, Boston. Hess has

it for sale. SUPPORT COLUMBIA ENTERPRISES .-In every community are to be found persons who affect to believe that they cannot have, in the town in which they live, a carriage, suit of clothes, a pair of boots, or anything of that kind, made to suit them, and consequently send abroad for them. This fallacy works greatly to the detriment of a most worthy class of citizens, and sends annually thousands of dollars out of the community in which the money should really be spent. It seriously affects all branches of mechanical industry and home. enterprise, as it does also all other branches

We have in our midst manufacturers of carriages, buggies, etc., first-class machine works, excellent tailors, boot-makers, furniture dealers, &c., &c., who are worthy the patronage of any community, and who ex-ecute their work in a style equal to that done in any city. If they receive the liberal patronage they so richly merit, would it not be an inducement for others to locate in our midst, and introduce new branches of industry? By a proper fostering of home enterprises, we retain in our town thous-ands of dollars which now find their way into the already plethoric coffers of manufacturers and merchants in the large cities.

Let us one and all encourage our home enterprises, and by acting upon this principle we will find a gradual enhancement of the value of property of all kinds, a wellto-do laboring class, independent mechanics, prosperous merchants, flourishing schools and everything else that contributes to make of produce generally.

TOMATO CATSUP.—Take a half peck of tomatoes, wash and slice them; put them your preserving kettle, and let them stew gently until quite soft, but do not stir them; Strain the juice through a sieve, pour it back into the kettle. Add twentyfour cloves, half an ounce of allspice, half an ounce of mace; add salt and cayenne to your taste. Set it on the fire, and let it boil until reduced to half the original quantity. The next day strain out the spice, and to every pint of juice add a half gill of vinegar, and bottle for use.

A WHISKEY COCK-TAIL SPRING .- A most laughable incident occurred in the upper part of this county, a short time since. It is too good to be lost. It seems that ar old gentleman had, for a number of years been drinking the water from a spring some two miles from his residence, which was furnished him in bottles, and imagining that the water possessed valuable mineral and medicinal properties, concluded to send bottle to the State Chemist for analysis and advice in reference to the purchase of the spring. The bottle was sent to the spring, duly filled and returned, and forwarded by him, without examination, to the State Assayer. Imagine his surprise at receiving, in a few days, the following answer or "analysis" from Philadelphia: "Whiskey,...

"Buy the spring by all means; a whiskey cocktail spring would be a valuable piece of property."

A—B—

A—Corporation in the spring with the spring in the sp A—B—, State Assayer."

When the whole story came out, it was ound that a son of the proprietor of the spring, not knowing the destination of the bottle, and thinking to play a joke on the old party, had filled the bottle as shown in the "analysis" above.

THE RIVERSIDE INSTITUTE.-We append a list of the most valuable presents o be awarded those who purchase stock, at One Dollar per share, in aid of the Riverside Institute, a home for the gratuitous education of soldiers' and sailors' orphans, from all parts of the country, under the management of the Washington Library Company of Philadelphia. The first present is worth Forty Thousand Dollars; the second Twenty Thousand Dollars: the third Eighteen Thousand Dollars; the fourth Ten Thousand Dollars; the fifth Five Thousand Dollars; the sixth consist of two, worth Twenty Five Hundred each. Theremainder are valued as follows: Two at Fifteen Thousand Dollars each : one at Ten Thousand Dollars : four at Five Thousand Dollars each; two at Three Thousand Dollars each; three at One Thousand Dollars each; twenty at Five Hundred Dollars each; ten at Three Hundred Dollars each; three at Two Hundred and Fifty Dollars each; twenty at Two hundred and Twenty Five Dollars each; fifty-five at Two Hundred Dollars each: fifty at one Hundred and Seventy Five Dollars each; one hundred and ten at One Hundred Dollars each; twenty at Seventy Five Dollars each; ten at Fifty Dollars each; and numerous other articles of use and value, amounting to Eighty Two Thousand Dollars, the whole making an aggregate of Three Hundred Thousand Dollars worth of presents, which will be distributed among the shareholders, each share guaranteeing some one of the presents named above. In addition to this, a handsome steel-plate engraving is given at the time of the purchase of the stock. This engraving at retail, could not be obtained for the amount paid for the stock. Mr. Editor.—We certainly are a highly favored people in Columbia, that among other matters of importance lately introduced, we should have a regular gambling establishment, which, although in violation of an act of Assembly, we think should be encouraged as a school of morals for our young men.—You can every day see on our streets a number of realless in streets a number of realless in streets a number of realless in the pure of the opported maps, and do not care to have, and the inquiry natural do not care to have, and the inquiry naturally arises, how are they supported, as they have no certain means to supply food and raiment? and the only answer is, that they are gamblers, and get their money by defranding the unwary. It will be best for all good people to give this fraternity a wide berth, lest by association they should be contaminated and induced to go to honest employment; and it may not be improper for our tavern-keepers to know that they incur a heavy fine and a loss of license if they-knowingly permit gambling in their they-knowingly permit gambling in their they-knowingly permit gambling in their thouses.

AN ELEGANT TÓBACCO ESTABLISHMISNT.
—Some time ago we gave notice in our columns, of John Fendrich's improvement, cornér of Front and Locust streets. Now this establishment is completed, his store is a model of perfection, everything so classified and arranged, that it is seems a pleasure' to do business there. His Tobacco, Segars, Pipes, &c., are kept clean and in the most perfect order. We scarcely ever beheld a Tobacco Store better fitted up—show cases of the most costly patterns—in short, it would be impossible for us to specify the particular articles for sale by our friend. Fendrich. Suffice it to say that his stock is a most admirable assortment, he keeps constantly a number of the best hands employed, and warrants his goods to give satisfaction in every respect. Country merchants and others will find it the place to buy.

S. PATENT OFFICE AGENCY

TO INVENTORS.

Inventors who contemplate taking out Patents FOR NEW INVENTIONS, FOR NEW INVENTIONS, are hereby informed that a United States Patent Office Agency has been established in Columbia by an experienced Patent Solicitor, (formerly connected with the "Scientific American" Patent Agency, in New York,) who is now in readiness to prepare cases for the Patent Office for Inventors with EXPEDITION and ACCURACY, and upon moderate terms. Inventors will find it GREATIN TO THEIR ADVANTAGE to communicate their ideas PERSONALLY to an Agent instead of writing them, and can offer any suggestions and alterations in the Specification, Claims or Drawings, as the case progresses, with greater facility than they could by letter.

(A School. For Both Sexes.)

Is designed to prepare Young Men and Boys thoroughly for College, Business or Teaching. It affords every facility and aid in acquiring an accurrite knowledge of the Classics, Mathematics, Natural Sciences, and of all those branches which constitute a complete business education. This Institution also extends to young Ladles and Misses all the privileges and advantages of a first-class Seminary; affording them thorough instruction, not only in the solid, but also in the Ornamental Branches necessary to a finished Education.

Our alm is to make Scholars, and as our School is select and number limited, special care and attention can be given to each pupil.

None admitted except on the condition of diligence, obedience and punctuality.

In order to accommodate those who wish their children to begin right and to lay well the foundation for future acquisitions, a Primary Department has been established, in which children will receive special attention.

To afford Young Men of Columbia and vicinity an opportunity to prepare themselves especially for business, two evenings in the week are devoted to Book-Keeping.

The undersigned having again taken charge of the Institute will give all his time and energies to the interests of the Scholars and success of the Institute will give all his time and energies to the interests of the Scholars and success of Christian Education.
