Homeon Furlough .- Mr. John Richards, formerly a member of the Spy corps. but now, a; Corporal in Company E, 29th Regiment U. S. Infantry, Col. II imbright, is now home on furlough, and called at our office on Thursday last. He is looking well and hearty, and reports the Lancaster county boys in the company in excellent health and spirits. His company is now stationed at Marion, Smyth county, North West Va. Samuel Richards, of this place, is also in the above company, and is reported as corpu-

The Corporal requests us to state that hewill be happy to deliver small parcels to the county boys in his company, from their relatives and friends, if left at the confectionery store of Allen Richards, Locust street, Columbia. He will return in about three weeks.

ALL THE RAGE. The Black Crook is becoming unmistakably the rage in Philadelphia, as it has been in New York for a year past. In some respects the effect produced there are superior to the N. Y. effort, mainly because of the largely superior stage room and the vast height of the theatre for display scenes, coupled with the artistic splendor of the scenery belonging to the institution. To McDonough is largely due the credit of liberality and taste for the superb skill displayed in the arrangements of this far-famed spectacle. The third act is a scene of matchless beauty. But indeed the whole affair is magnificent. We would again impress it upon our citizens who visit Philanelphia to not fuil to visit the Academy of Music and witness this grand spectacle.

THE RECEPTION: - The formal-recep tion of the Columbia Steam Fire Engine, on Saturday last, was, notwithstanding we did not have 'many invited guests' in tho procession, a very nice little affair indeed. Everything passed off to the entire satisfaction of all concerned. Both the Columbia and Vigilant companies of this place, donned new "rigs" and indeed made a fine and firemen-like appearance; in fact all the firemen participants madea very creditable appearance. We would like to give a dewant of space cannot. But as a conclusion we would say that to fully organize and make our fire department more effectual, the "Rivers" want a steamer also. They have the boys to title one.

FAIR AT DANVILLE, VA.-The editors of the Danville, (Va.) Times extend to us an invitation to be present at the Agricul; tural Fair, to take place at Danville, on the 5th of November next, We thank you, brethren, and would like to accept of your invitation, but fear we must deny ourselves the pleasure, though we won't say that we

Any of our friends going South, should by all means go to Danville. We believe it to be the firest place to locate in the South, either for agricultural for manufacturing purposes. Farm land is cheap, and the country healthy. It is in Pittsylvania country, on the river Dan, about five miles from of Richmond. The town is pleasantly sit-uated on high ground, near the head of Richmond. The population of the place is J. E. Coe. Trustees of the Riverside Inbetween four and five thousand.

A PRIVATE SALE .-- Mrs. E Shreffer has purchased at private sale, from the Messrs. Vaughens, a house and lot on Fourth street, adjoining Jno. Hippey and Chas. McCullough, for \$800.

WE understand that Dr. Keith, the reut American Anotomist and Surgeon, is soon to give a course of lectures on Anatomy and Physiology, in this place. These ectures are universally spoken of by the ress, as being the most instructive and elegant ever delivered before an American udience. Our readers may expect a rare

FOR THE LADIES .- The fall season is FOR THE LADIES.—The fall season is at hand and winter is approaching. The ladies will have to look around for a place to obtain their goods for wear suitable to the season. We commend Bruner, (I. O.) to their attention, who has just received a fresh supply of the various goods wanted at this particular time of year. His prices are such that cannot fail to suit all.

PLANT SHADE TREES .- Gerober, the onth for planting shade trees, is near at and, and our readers who desire anything in this line should make an early selection from the extensive variety to be found at S. H. Purple's Columbia Nursery. Mr. P. is prepared to fill all or lers promptly. He will plant them for you, thus saving the purchaser all further expense and trouble.

BIVALVES .- Mr. Benjamin Barr, cor-BIVALVES.—Mr. Benjamin Barr. corner of Third and Locust Sts., is now daily receiving a very superior quality of oysters direct from the beds, which he is prepared to furnish at all times to his customers. He has things so arranged that he can get up, at short rotice, as good a stew, roast, or fry as can be had in Columbia. He will supply families or restaurants with dysters as cheap as the cheapest and at the shortest notice. Give "Ben" a trial. We know you will go again if you go once.

A YEAR OF RELIGIOUS JUBILEE.-I s pretty generally known that the present year of 1867, is the seventh semi-centennial anniversary of the Great Reformation! It is just 350 years since Martin Luther and his co-laborers inaugurated a revolution that, under God, has given us all we hold dear in civil and religious liberty—the pure Gospel and freedom to worship God. It is proper that the trials and sacrifices of the Reformer should be remembered, and their great work properly respected. The year 1867, especially from the 31st of October, is therefore recognized as a year of jubilee by the entire Lutheran Church of America.

Never have the American Organs been so popular, and the sales so large as at the present time. We have tested these instruments for along time, and find them in every respect the most satisfactory and perfect which we have ever used, and we have had practical experience in the use of those organs which in the public prints claim the greatest colebrity. readers to the fact that our friend, Mr. B. C. Unseld, formerly of this place, but more recently of the New England Conservatory of Music, Boston, has concluded to permanently locate with us, for the purpose of giving instruction in the cultivation of the voice. He desires to form two classes in Columbia-one for children between the ages of seven and fifteen, and the other for older persons. A preliminary meeting will be held in O.ld Fellow's Hall, on Monday evening next at Solciock on which occasion'Mr. U. will give explanations of his course of instruction. All persons interested in the welfare of the art, are carnestly invited to attend this meeting. The fact of Mr. U. not: being a stranger,

but one of our own townsmen, and that he has just arrived from the very center of the profession of music, in America, should be sufficient to guarantee him success, which he richly descrees. Our citizens should encourage and patronize his efforts to ele-vate the art, considering the state of music in Commbia, compared with other places We advise one and all to go to Odd Fellows' Hall; on Monday evening : next, and hear Mr. U. in his explanation of his course of instruction. CARD TO THE PUBLIC.-The undersigned, Trustees of THE RIVERSIDE INSTI-TUTE, an Institution chartered by the State of New Jersey, for the maintenance and education of the orphans of the Soldiers and sentment and reception remarks, but for ing established and endowed by the enterprise and patriotism of the Washington Library Company of Phitadelphia, would announce to the public that in their opinion, the efforts being made by that Company for the establishment and endowment of the Riverside Institute caunot fail of success. Their agencies have been established, and their advertisements published throughout the country at great' expense, and the results are now being realized. If the distribution were to take place, and the labors of the Company cease, on the 25th inst., as advertised, the Institution, though estab? lished, would not have provided the means for a proper and permanent continuance, nor could it be so extensively useful as the

public and the Trustees desire.
After mature consideration, we have therefore recommended that the Washing ton Library Company postpone their dis-tribution until the 8th of January next, and continue the sale of certificates and engraythe North Carolling line, and 168 miles south lings until that time, under the firm belief that the result will assuredly providen per-inanent home for the maintenance and edunavigation, and is an active business place. cution of very many of the orphans of those surrounded by a fertile farming region, who have died in the service of their councation of very many of the orphans of those which abounds in stone-coal from ore lime try. · FRENCH MATTRESSES - We were shown, FRENCH MATTRESSES.—We were shown, a few days since, one of the most complete and periect bed mattresses we ever before seen. It was manufactured by Mr. Samuel Carter, at his shop on Walnut street, and is called the French Spring Hair Mattress. It is entirely an improvement upo, the old wood-frame construction. It has springs in place of the wood-frame, around the olders and consequently does not interest. in place of the wood-frame, around the edges, and consequently does, not injure one's timbs in getting into bed, as the other invariably does, unless one is very careful. He has made several of these favorite mattre-ses for parties in town, who pronounce them superior to all others. He also has for sale, an ingenious little article called the self-fastening and adjustable bed spring, which-possesses many advantages over any other in the market. They can be made any required strength; they are shiple in amplication, no danger of breakage, and require but one mattress over them to make a spring bed of a superior quality. Call at his shop and examine them.

THAYER & NOVES' CIRCUS COMING. -On Friday, October 4th, this great Circus with its wonderful performing lions and elephants, will exhibit in Columbia. This s said to be the best circus on the road. We give below a very flattering notice from he Pittsburgh Commercial.

We give below a very flattering notice from the Pittsburgh Commercial.

"Thayer & Noves' Great Circus opened in this city yesterday afternoon to a large and appreciative audience. The performance given confirm the great reputation this organization has gained, as the leading show of America. All the arts were brilliant and effective. Dr. James L. Thayer is a cripital clown, and one of the most entertaining and piquant wits of the day. Mr. Charley Parker, the original "Whon Januray," and Mr. Frank Robinson, although of a different style from Dr. Thayer, are full of quaint illustrations and exuberant fun. Wooda Cook, the child wonder, and pupil of Mr. Charles Noves, is the most dusting and promising rider we ever saw. His great hurdle act certainly entitles him to teitle of the Boy Champion rider of the World. The two "Flying Men of the Air," as performed by Messrs. Hogle & Keefe, with their Hoop-Perche, was extremely fine and characterized by many new and hazardous acts. The riding and vaulting of Charlie Reed and the great double bareback act of Horace Smith and his infant prodicy were finished, performances, and eligited great applause. Mr. Noyes' beautiful and celebrated talking horse, Gray Eagle, whose naturally perceptivo instinct has been developed to such an extraordinary ful and celebrated talking horse, Gray Eagle, whose naturally perceptive instinct has been developed to such an extraordinary extent that audiences gaze in amazement upon the marvellous acts of this extraordinary animal. The den of four fernoious Lious was entered by Prof. Charles White, who, after satisfying the audience of his great control over these monarchs of the forest, proceeds to feed them raw meats while sitting in the cage, a practice exceedingly dangerous. Everything pertaining to the Circus was very attractive and gave universal satisfaction. All those fond of witnessing the marvellous and beautiful should attend the really unexceptional and magnificent exhibition of this unparalleled circus and collection of animals.

FIRE MATTERS.—The Vigilant Fire Company (No. 2) held a meeting at their Hall, on Monday evening last, to make some arrangements towards raising funds to procure a steam fire engine, to be the property of the Company. After some discussion a resolution was adopted appointing a committee to devise ways and means for the purchase of a steamer. The committee consists of Mr. Wm. Patton, Chair man; John Q. Denney, Abrm. Bruner, Jr. los. Hogentogler, C. S. Kauffman, and D.

L. Smedley.
The Committee held a meeting on Wedne day evening, and agreed to appoint a sub-committee, who were instructed to seek a purchaser for their present apparatus and hose. The Company have two engines, two reels, and about eight hundred feet of hose, all of which they could dispense with in case they procured a steamer, with the exception, perhaps, of one reel. We under stand the citizens of Wrightsville speak of buying the "Susquehanna," one of the congines owned by the Yigilant. There is no doubt about the quality of the engine, as Mr. Mathiot, the machinests of the Amoskeag Manufacturing Company, who brought on the Columbia's steamer, says the Susquehanna is one of the best hand engines heever saw; and in fact she showed that a her trial, on Saturday last; when she threw with the far above the flag-staff on the Odd Fellows' Hall.

As matters stand now, we think the Vigilant boys will have a steamer in a few months. There is also a Fireman's Fair on the tapis for their bonefit; tendered them by that boys for their bone in the case of the companion of the prison for disorderly conduct.

The boys have subscribed among themselves over two hundred dollars, and none of the more wealthy members; have been called on, as yet. We understand there are eight or ten members of the Company, who will give one hundred each.

At their meeting on Monday night, they also elected a large number of contributing members, who have all the privileges of ac live members, by paying two dollars a year.

Now this es-tablishment is completed, his store is a model of perfection, everything so classified and arranged, that it seems a pleasure to do business there. His Tobacco, Segars, Pipes, &c., are kept clean and in the most perfect order. We scarcely ever beheld a Tobacco Store better fitted un ly ever beheld a Tobacco Store better fitted up—show cases of the most costly patterns—in short, it would be impossible for us to specify the particular articles for sale by our friend Fendrich. Suffice it to say that his stock is a most admirable assortment, he keeps constantly a number of the best hands employed, and warrants his goods to give satisfaction in every respect. Country merchants and others will find it the place to buy.

TONIC & STRENGTHENING PROPERTIES are unsurpassed by any other native Wine. Being the pure Juice of the grape, produced under
Mr. Speer's own personal supervision, its purify
and genuineness are guaranteed. The youngest
child may partiake of its generous qualities, and
the weakest invalid may use it to advantage. It
is particularly beneficial to the aged and debiliinted, and suited to the various alliments that
offlict the weaker sex. It is, in every respect, A WINE TO BE RELIED ON. Invalids use Speer's Port Grape Wine. Females use Speer's Port Grape Wine. Weakly persons find a benefit by its use.
