ROBBERY .- G. W. Appold, of this place, was robbed early on Tuesday morning last, whilst passing over Chiques Hill, of a gold watch, and about eleven dollars in greenbacks. The robbers also took his horse and buggy and drove back to Marietta, where the team was found the same morning, hitched to the wheel of a large

wagon in an alleý.

He has just returned, and now offers some goods at Goods, Glass and Queen-ware, &c., &c., are a less price than they were before the war. Go and see his late purchases. Everybody | have just made heavy purchases, (for cash,) at this time of year is in want of winter at the late low prices-consequently are endry goods, and this is to let them know where they can buy the cheapest.

THE COAL SCHUTES now being creeted on the wharf at the foot of Locust street by the Reading & Columbia Railroad Company, are beginning to look like something." It is thought the work will be nearly if not entirely completed by Christmas. From present appearances it will be quite a convenient and handsome structure,-something that will greatly increase the coal trade of the R. & C. R. R.

NEW PATENT .- Isaiah E. Richards, of this place, has received letters patent for a In spince, and valuable composition, to be used in puddling iron. The chemicals employ-ed are peculiarly adapted to expe-sulphur and phosphorus, and for producing the best quality of neutral or refined iron, so as to require no subsequent re-heating, saving much labor and expense by the use, as has been amply proved. THE BRIDGE .- About a dozen stone cutters are busily engaged on the wharf below the steamboat landing, dressing stone cessary for patching up the piers of the Columbia bridge. Masons are also at work on the piers, re-laying and leveling the loose and broken stone. The stone cutters will be at work pretty much all winter, and duce, and at the same time the value of it is now thought the work of reconstruction will be vigorously pushed forward.
