In the House, a personal explanation was made by Mr. Stokes, of Tennessee. Mr. Washburne 'called up 'a motion to' reconsider the vote referring his equal taxation resolution, but the House refused to call back the resolution from the Committee. Mr. Covode, of Pa., introduced a bill, which was referred, 'for the relief of certain drafted men." The House went into Committee of the Whole, and Mr. Butler concluded his speech on the finances o'Mr. Schenck, of Ohio, introduced a bill, which was referred, providing for the widows and heirs of naval officers, and establishing a life insurance. Mr. Mallory introduced a bill establishing a uniform time for electing Congressmen, which was also referred. The House then adjourned until to day.

The Ways and Means Committee will report to the House a bill repealing the cotton tax, probably on Monday or Tuesday next. It is understood that all the Kentucky Re-presentatives elect will be admitted to Congress, except Young, whose seat will be given to McKee.

Mr. Boutwell presented the report of the majerity of the Judiciary Committee relative to the impeachment of the President, which closed with a resolution "that Andrew Johnson, President of the United States, be impeached for high crimes and misde megnors." Mr Wilson presented a minority report on behalf of himself and Mr. Woodbridge, and Mr. Marshall submitted the views of himself and Mr. Eldridge. None of the reports were read, but they were ordered to be printed, and the subject was made the special order for Wednesday of next week:

A bill establishing an uniform time for holding elections for Congress was referred, and the House adjourned to-day at noon. A resolution calling on General Grant for all correspondence addressed to him respecting the removal of Secretary Stanton and General Sheridan; for all correspondence or orders showing the condition of the Fifth Military District before the passage of the Reconstruction act, the recommendations made, and the action on such reccommenda tions; the correspondence touching the difficulty with the Police Commissioners of Baltimore and with regard to the mission of General Sherman to Mexico in 1866, was

The United States Senate, on Wednesday. adopted a resolution asking the Secretary of War for copies of the papers bearing on FitzJohn Porter's discharge from the army for misconduct, and asking for a review of his case. After a session of ten minutes the Senate adjourned to Friday noon. General Sherman.

We find the following bit of "choice" Democratic rhetoric in the editorial colums of the La Crosse Democrat, the acknowledged leading organ of that party in the United States. In speaking of the proposition to make Gen. Sherman the candidate for President on the Democratic ticket, that paper says:

tickel, that paper says:

"And such a candidate! Sherman—Sherman Sherman—Vandal Sherman—Sherman of the forth and axe—Sherman, prince of a band of bummers; thieves, vagabonds, and ruffans—Sherman, whose "march to the sea" would have damned to all eternity a legion of pirates and freebooters—Sherman, the lackey tool, leftenant of the Sangamon brother of the Devil, the obscene, brital, and boorish Lincoln—Sherman, whose hands are red with the lackey tool, leftenant of the Sangamon brother of the Osternan, whose most hands are red with the lackey of the sherman, whose most hands are red with the observation of thousands of American, from the harman, whose most portugated from the control of There you have it. ye Sherman men of

Old Berks! Pomeroy, the oracle of your great Democratic party, has spoken! He who prints; columns, week after week, of this same sort of law vituperations against the best natriots of the war, for you to gulp down tells you that modern Democracy has no affiliation whatever with men who drew their swords in defence of the Union and fought against traitors. Such language as the above must be humiliating, indeed, to the three or four hundred subscribers to that "very excellent leading Democratic organ"-in this city, most of whom are in favor of Sherman for President.

Being personally acquainted with the vagabond editor of the paper above referred to, we take no offence at what he says of Honest Abraham Lincoln, because "Brick" (better known to his typographical associates in years gone by, as "Pimp") Pomerow is too low in the scale of humanity to be able to insult the memory of any man, dead or living-unless he were to speak well of them. - Reading Dispatch.

The Trial of Jeff. Davis.

The United States District Court met at Richmond, at 11 o'clock on Tuesday. Chief Justice Chase was absent. Justice Underwood took his seat, and, after the jury were sworn in; delivered his charge, saying that any one who has committed treason must-be indicted, if : brought to their : cognizance, unless pardoned by the President. He also charged that public officers guilty of violating the revenue laws should be unsparingly dealt with. The trial of Jefferson Davis was assigned to the 20th of March, 1868, in order that Chief Justice Chase might be present, and Davis' bail bond was extended to that day, and his leave of absence was further extended until the Chief Justice could be present. Davis was not present.

The Impeachment Question.
A Washington special to the Philadelphia
Bulletin of yesterday, says: "As things
now stand the heaviest vote that can be polled for impeachment is 57, and an applica-tion of party pressure cannot change this much, although it seems probable that when the matter comes up next Wednesday a very large amount of speech making will done. Yet it is equally certain that the matter will be laid, upon the table, and a vote of consure of the President, and an end the impeachment agitation."

expression of want of confidence in his constitutional advisers in the cabinet will be passed by a strictly party vote, and thus The Guerrilla Mosby. Mosby, the rebel raider and murderer, was introduced into the Gold Room, in New York, a few days ago, by some of the Copporheads connected with the place, but the dose was too offensive for even New York to bear. The indignation excited took such a determined form that the traitor

thought it discretion to withdraw. The Copperheads thought that the result of the nt New York election would warrant them in lionizing such a character. When a party can insult Sheridan and lionize Mosby, its status is not difficult to fix.

Weston, the pedestrian, has accomplished his task of walking from Portland, Maine, to Chicago, 1237 miles in 26 days exclusive of Sundays. He left Portland on Tuesday. October 29th, and arrived at Chicago at 10 o'clock, A. M. on Thursday, Nov. 28th. He failed in all his five attempts to walk 100 miles in 24 hours, but succeeded in the main object, and thereby secures \$7,500 of the \$10,000 depending upon the result. This is no doubt, the greatest featof pedes. Old one trianism ever accomplished.

Certified Checks.

The Supreme Court of Illinois endered a decision, affirming the principle that the passing of a check, even if certified agood" by the drawer, is not a payment, but simply a means of obtaining the payment; if the payment is not made the holder of the check has recourse upon the drawer. The fact of a check being certified is merely an additional evidence that it will be paid.

The case was where A had bought proper ty of B, and gave a check certified by the panker C: B was indebted to the bank, and C refused to pay the check, but offered to credit B with the amount; B refused assent and demanded the money, sued for it, and obtained judgment in the lower Court, which the Supreme Court affirmed. It would be a shrewd and sharp method of collecting debts by bankers, if they could get one customer to buy property of a delinquent, and give a certified check in payment, retaining the amount for the delinquent's debt. The courts do not sanction such snap methods of collecting bank balances or over-drafts.

Iron Business in Pittsburgh. The iron business of Pittsburgh is very dull at present. Orders for iron and nails have been extremely limited of late, and the rolling mills and nail factories are running only to supply immediate demands. All of the mills are curtailing expenses by discharging hands, and one has emporarily suspended nail making until such time as orders become more plenty. They may be able to continue in partial operation, should business show any sign of revival, but if the present stagnation remains, or should the limited demand still further diminish, total suspension for a time is not improbable. The resumption of navigation would no doubt prove benefical, but it is not expected by the iron merchants that even this will permanently penefit the business.—Leader.

The Pork Trade. The Cincinnati Price Current of Wednesday says: At Louisville packers are buying freely, and have their agents out through Kentucky and Indiana, securing hogs. At St. Louis all the hogs offered are taken but the quality is light. At Chicago the receipts have been the largest ever known, and the demand has been active at \$5.75 to \$6 50, but the hogs are very light, few of them fit to make mess pork. At that point some think that the packing will run up to a high figure, but we are informed that the prevailing belief is that the season will be short and brisk. The rates at St. Louis are about the same as those current at Chicago, and the average of the hogs about the same.

Marrying for Fun. The New York correspondent of a Phila-delphia paper says: "There is a great deal of excitement in Harlem in consequence of wo gentlemen and two ladies being married without their knowing it. The ceremony was performed in sport, and when informed the next day that the marriage was legal

according to law, there was great consternation. The brides, it is said, are willing to abide by the marriage, but the bridegrooms are not, refusing to recognize the ceremony at all. One of them is heir to a great deal of property. The subject will be brought pefore our courts, or before the Legislature."

PHILADELPHIA, Nov. 24th, 1867.

DEAR "SPY:"—I have often heard the remark that a city to a stranger, on Sunday, is the dullest of dull places. Perhaps thore is "some ground for, this remark to stand upon," from the fact that to most persons there is a repulsiveness in the rigid formality of city churches; and the stranger almost shudders at the thought of standing in the vestibule of a church until the sexton has time or room to seat him. This morning I was more fortunate than usual in obtaining "quick accommodations;" and though I went to Tenth and Arch to hear the Rev. Mr. Conkling, I was much pleased to find the Rev. J. L. Nevius occupying the pulpit. Mr. N. has been a missionary in China for ten years, and has traveled much through the Empire since protection has been guaranteed to christians. To give you some slight epitonic of his remarks: The government of China, as regards testeritial divisions; is similar to our dwn—general government, states, counties, townships—the Chinese names for these I cannot give. The maps published in this country give but the names of about two-thirds of the walled cities. There are 1,720 in all, with populations varying from 50,000 to 1,000,000. The combined length of the walls of all the cities is about 6,000 miles or one-fourth the circumference of the y-be. The walls in thickness are from three to eight feet. One graveyard seen by Mr. N. contained 20,000,000 graves, or about two-thirds of the pupulation of the United States, in number. 400,000,000 of people inhabit China, and there is scarcely an acre of ground not under cultivation. Mr. N. observed that while the Empire of China was one vast grave-yard, at the same time it was an immense cultivated garden.

Societies exist there similar to our charitable institutions and in one of the cities

the Empire of China was one wast graveyard, at the same time it was an immense
cultivated garden.
Societies exist there similar to our charitable institutions, and in one of the cities
visited by the speaker, a society has been
in existence many years for furnishing coffins to the poor; and in one year six thousand coffins were given away. There is in
almost all large places a society for the suppression of immoral publications. There is
a very flattering prospect that the christian
churches in the Chinese Empire will soon
be self-sustaining. Mr. Nevins speaks in
high terms of Chinese civilization, and he
tbinks it almost miraculous that a heathen
nation should be possessed of so much that
has an elevating and refining influence. As
to the intellectual capabilities of the Chinese, he mentions the fact of a Chinese having taken the highest prize for English
composition at Yale College, and another
for Greek at Kenzin College. He mentioned
the fact that for politeness many of the
Chinese gentlemen will sustain as fair a
reputation as our most retined christian
nutives.

Your readers will excuse me for referring

itives. Your readers will excuse me for referring rour readers will excuse me for referring to the above subject, but as the great rail-roads that are now being built to the West will bring your town in almost immediate connection with the Chinese Empire, I thought perhaps some of them might be as much interested as myself.

CLIMAX. A plain statement of facts. I inherited Scrofula and many of my relations have died of it. In 1839 my case was frightful. Tumors and ulcers spread until in 1842, under the advice of my physicians went to Avon Springs. I received no benefit-tried every medicine and did everything I could! I had to rest my arm on a cushion, and had not been able to raise it to my head for over a year. The discharge from two ulcers was nearly a pint a day Amputation was recommended; but pronounced dangerous. I could not sleep, and my sufferings were intolerable. A friend brought me an English physician who applied a salve with which he said he had accomplished extraordinary cures in the hospitals in England. It commenced to relieve; I persisted in its use; it finally effected a perfect and persisted in its use; it finally effected a perfect an persisted in its use; it finally effected a perfect and entire cure. It is now 1848. It is five years since I had the appearance of a scrofulous sore, and my health thas been good ever since. "I have known J. M. Page, Esq., of Geneva, N. Y for many years. Ho is one of the first citizens of Western New York. I saw him last week in good health. His case was a most remarkable one, but actually true in every particular.

We have watched the unaided but growing favor of "Page, Colling a Sales" and availing, averaging a first of the proceedings. of "Pago Sclimar Salve," and availing ourselves of the knewledge of its wonderful curative powers, have become proprietors of the same.

It is a sure cure for Burns, Scalds, Scrofula, Salt Rheum, Fever Sores, Broken Breasts, Frost Biles, Chilblains, Stings, Bruises, Cuts, Swellings, &c., whether upon man or beast. It subdues pain and inflammation with surgeiving solvities and inflammation with surprising celerity, and heals burns without a sear. No family should be without it. It is always wanted, and is always ready. We will forfeit a dozen boxes for any single failure. We believe there was never anything like it in the world. It is put up in tin boxes, surrounded by a circular giving facts, directions, testimonials, &c., and can be ordered through any respectable Drug-

gist throughout the world. Price only 25 cents

BLINDNESS, DEAFNESS AND CATARRI, treated with the atmost success, by Dr. J. ISAACS, Occulist and Aurist, (formerly of Leyden, Holland,) No. 805 Arch Street, Philadelphia. Testimonials from the most reliable sources in the city and country can be seen at his office. The Medical faculty are invited to accompany their pations, as he has no secrets in his practice. Artificial Eyes inserted without pain. No charge made for examination. May 4th, 1y] SPECIAL NOTICES.

SOME FOLKS CAN'T SLEEP Very many suffer from general debility, others from weakness of the stornach and inability to di-gest their food; some have creeping sensations along the nerve fibres, or pain in the back, with aching and yeary throbbing of the limbs. Thousands of ladie weary thromain in the mids. Thousands of antest suffer through long years from what are called Female Complaints, caused by the relaxation of mus-cle and ligament that attend deficiency of vital force. Thousands of business men, overworked in mind and body, use up the servous stuid and become un-fit for duty or the enjoyments of life. Excesses in youth, and the terrible effects of fever and ague, in volve shattered constitutions and the failure of the general functions of heelth. To sufferers from all these causes,

DODD'S NERVINE AND INVIGORATOR offers an invaluable boon—a natural and efficien recovery of lost powers. No person, man or woman, suffering from any cause, can afford to neglect this remedy. The Nervine will be found to possess an equalizing and nutritive principle. It allays irrita-tion, and like sleep promotes the secretions of the system. It has affinity for the nervous fibres, and supplies them for the waste that is constantly taking place. Like wholesome food taken into the stomach, it undergoes rapid digestion, unvigorating in its pro-cess the digestive organs, and producing a

"Hear Doctor: The last medicine prescribed by you I obtained, and will say that Dodd's Nervine and Invigorator is all that it claims to be. I feel like a new man; the aching of my limbs is all gone; I sleep well, have a good appetite, and feel stronger than I have for many years past." [Contributed by Dr. II. A. Tucker, 259 Clinton street, Prooklyn, New York.]

"I have used the Nervine, and find myself much eachied by it, particularly in the increase of trught and cure of those trembling sensations, by costiveness also seems to be entirely cured lector to Dr. Tucker.]

"The medicine you ordered (Dodd's Nervine) we have taken three bottles of. It is a great thing. My wife says she would rather have one bottle of it that forty doctors. She is certainly better, don't feel the dragging down so much; bowels move easier, and it have nervans condition every way." oranging down so much; bowels move easier, and in better nervous condition every way.

O. B. Martin, Cashier Gienn Hone, Long Branch, New Jersey, states that Dodd's Nervine has cured him of chronic weakness of the stonach, dizziness and sick headache, and greatly strengthened his whole-system...

Divid Hartshorn, 309 State street, Brooklyn, cured of chronic muscular and nervous debility.

John Harbut, Brooklyn, N. Y., says: "To regulate the bowels without producing cathartic effect, quiet the nerves, and tone up the system, I have never used anything that equalled Dodd's Nervine."

quiet the nerves, and tone up the system, I have never used anything that equalled Dodd's Nervine."

W. F. Deans, Esq., Eastford, Conn... "My wife has suffered for seventeen years with extreme nervous debility and mental prostration. She was induced by a friend to try Dr. J. W. Dodd's Nervine and Invigorator, and by its use is now restored to perfect health."

Dr. C. C. York, Charlestown, Mass.: "In cases of great nervous debility, not confined by any means to the female sex, although from the greater delicacy of the female organization more common than among men, I employ bodd's Nervine and Invigorator with the happiest effect. It exceeds in tonic power anything that I know of, while its action upon the bowels is all that can be desired."

DODD'S NERVINE AND INVIGORATOR is employed in the Massachusetts Hospital for the Insane at Taunton.

land. The great secret of the success of MSHLER'S HERB BITTERS

Is the unquestioned fact that it purities the blood, and equalizes its circulation throughout the whole body. It is impossible to have a sound, healthy body, without pure blood. The slightest disease, no matter how trivial, where it is located, or what its character, is the direct result of some impurities existing in the blood; and if these impurities be not promptly expelled, sicktless and disease, in some form, must be exhibited. In all disease of the stomach, kidneys, liver, bowels, lings and heart, the blood is necessarily impure, and the more virulent and dangerous the disease, the greater the impurities. It is only by expelling these foul humors, by neutralizing the intense, burning, heating properties in fever cases, by restoring strength, purity and tone to this vital element of human life that health can be restored and preserved. One Present survey of the present of the enrnestly recommended by thousands. It should be taken to proven as well as acrediseuse, for it has been tested in many cases, with the most gratifying results.

Many persons will recognize the fact, that very frequently, if a proper preventive had been taken in time, the most terrible and dangerous diseases would have been averted. As the Great Preventive of the Age, MISHLER'S HERB BITTERS

Is confidently presented to the public. By its judicious and timely use, at such time and places where it might be of use, it will surely avert the approach of the most insidious disease. Danger and sickness will only ensue when the human system is out of order. Either the blood, the stomach, the liver or the kidneys may be deranged, and disease in the guise of some dangerous fever, or racking, cruel pains, or wearing, deplicating sickness, will specially bring the victum to the couch or itness, unless a preventive, sure in its operations and certain in its effects, is promptly taken. The Herb Bitters has been proven, in the most severe instances, to be the greatest preventive into kincom world, and accessible to the medical profession, and the public. If purifies the blood; it invigorates the stomach; it restores the liver and kidneys to their natural, healthy condition, by equalizing their secretions and expelling all the foul humors that dog up the channels of health in the human body. Any person, who is at all acquainted with medicine, will at once perceive what a powerful combination of the best medicinal Herbs is embraced in the formula given before. There is a little bistory connected with MISHLER'S HERB BITTERS, not generally known, which explains fully the manner in which the original recipe was devised, and under what extraordinary circumstances. It is said, thatin the XVIth century, a council of the most eminent physicians was assembled in Germany, for consultation upon—a special case of most remarkable sickness, where a powerful nobleman was afflicted with a number of painful maladies and dangerous diseases.

Mr. J. Mishler, the lather of the former proprietor. It was recommended to him as a sure cure in a certain disease, which had been declared by the most emment physicians as incurable. The Bitters was administered and effected a speedy and permanent cure. Convinced by its use, Mr. Mishler had a quantity of the Bitters compounded, which was used by his triends, and always with the most gratifying results. During the last six years, it has been proven to be a blessing to humanity, enjoyed a reputation extending throughout the whole country, lavished a large fortune upon Mr. Mishler, and is now spreading its sphere of usefulness into almost every family in the land.
