PAY UP .- We want money with which to liquidate our debts. The extraordinary financial revolution which is so rapidly going on in the country, compels us to state toour friends that we want the money that is justly due this office. We have sent bills to some of our patrons a number of times, and they appear to take no notice of them. We will again, in a few days, send bills to many of our subscribers, and we hope they will meet with a prompt response.

STABBING AFFAIR .- Washington. (B. C.,) is a fast place. On Saturday evening last, two boys, named Frank Burg. aged sixteen years, and Wm. Charles, aged fourteen years, got into an altercation in a church in that place, when angry words the equilibrium of pedestrians, which, we consued, and an invitation to fight outside are sorry to say they do not always do. of the church was given, when they both went out and Burg attacked Charles, who almost impassable by this species of went out and Burg attacked Charles, who drew a knife and stabbed Burg very dangerously in the region of the heart. ODD FELLOWSHIP .- The various reports presented to the Odd Fellows' Grand Lodge of the United States, show that the order in 1867 embraced 2,860 lodges, with 2i4,561 members, and that during the year there were 35,021 members initiated, and 2,164 members died. The receipts for the year were \$2,020,111, and of this \$692,629 were paid for charitable purposes, there having been 2,026 brothren, and 3,141 widowed families relieved by the Lodges, and 2,935 members, and 130 widowed families relieved by the Encampments, which number 697, and have 31,812 members, all of whom.

however, are also members of the lodges. CONTRACT COMPLETED .- Henry E. Volfe, contractor, has about completed the work allotted to him by the borough, of grading the new streets. Notwithstanding e severe weather, he has pushed forward the work with great earnestness, and with eredit to himself and satisfaction to the orough authorities. Among the streets graded we may mention the following: Third street, from Walnut to Marietta pike; Locust to Eighth street, including Eightlr; Walnut to Fourth street; also, Sixth and Seventh streets to Manor street, &c. A umber of teams are employed in bauling einder on the new portion of Walnut street. Many persons have signified a desire to prehase building lots on the new streets. and we hope the owners will sell at reasonable rates and not stand in the way of improvement of our town.

To Tobacco Chewers .- We see it tated in a New York paper, that over two hundred persons in that city runnage to earn a livelihood these hard times by picking up the ends of cigars that have been thrown away and found lying in the muddy streets and gutters. These again are sold the penny dealers in tobacco "bits," and afterward manufactured into fine cut chewing tobacco, or turned into the best imported Scotch and other smalls. Persons buying tobacco at the great tobacco house o Mr. John Fendrich, Columbia, need have no fears of getting an impure article. All his tobaccos are manufactured according to is own directions, and he would not put before the public an inferior article, as it would tend to injure his well-carned repitation as the best tobacconist in this part of the country. He has a splendid stock of segars and tobacco now on hand. Call

FEARFUL.-Our reporter chronicles the following: It was night! The wind howled dismally without, and the heavens shed torrents of rain upon the drenched earth, while the thunders rolled along the vaulted beavens and the intense darkness was only dispelled by an occasional flash of lightning; a fitting night for the murderers and tiends of earth. But hark! what noise falls midnight ascassin creeping along the back hall-way, bent on some deed of terrible rom my couch, seized my dagger and approaching the door, awaited the fiend. From the outside the door is gently pressed, and swinging creaks heavily upon its hinges, and again all is quiet. With one foot advanced, my hand uplifted, and my heart almost stopped its beats, I watched eagerly the widening space in the doorway! The door, now still, suddenly gives way, and in stalks a—well-to-do laboring man who said that he thought it his duty to come quickly and thank us for telling his people that the best place to buy dry goods, boots, shoes, etc., was at the store of I. COUNTY ITEMS,-The post-office and store at Kirk's Mills, Lancaster county, were destroyed by fire on Monday morning last. A Scott Ewing has sold his lot of five acres and dwelling in New Texas, to Samuel Brown for \$2,200.

The County Commissioners have appointed Isaac W. Slokom Moreantile Appraiser for this county, for the ensuing year. A two story stone dwelling house owned by Benjamin Bleecher, and occupied by his son, B. F. Bleecher, in Drumore twp., was on last Sunday afternoon burned, including the whole of its contents. It is supposed the fire was the work of an incendiary. At about 2 o'clock on Sunday morning last, fire broke out in the store building of Benj. Witmer, in Quarryville, destroying the building and contents—except the safe, both of which belonged to Mr. W. The safe was removed, and sustained no damage. The Quarryville post-office was kept in this building; and all the letters, mail bags, etc., belonging thereto, were destroyed.

The Messrs, Cunder & Sons, contractors on the Witnington and Birdsboro' Eatiford, have broken ground on the farm of Mrs. Mary Long, in Honeybrook township. It is the intention of these gentlemen to place a force of two hundred and titty men, and one hundred carts on the work, as soon as the weather will permit.

Some time last summer, Mr. Samuel Roberts, of West Whiteland township, became convinced that there was iron ore on his property, and last fall caused a shaft to be sunk. He struck a vein some 16 feet below the surface, which has been carried down a distance of fifty feet without reaching the bottom of the vein. The ore is of excellent quality. A lease has been taken upon the property by the Pottstown Iron Company, for a period of ten years. They pay Mr. Roberts \$1000 down, with a farther sum of 75 cents for every ton, and a guarantee of \$750 per year for the ten years whether they mine any ore or not.

Sons of Malta Ball.—The ball given by the Sons of Malta, of Columbia, came off, as ammonated, in Odd Pollows. Hall, on Thursday evening last. We do not remember to have seen a more decided success than it was. Everything passed off merrier than a marriage beil. The committee of arrangements, Robert J. Fry, A. J. Kauffman, Heise, Hershey, Daily, and the Most Excellent Grand Gibbanite—the floor manager, deserve thanks for making the party so great a success. Daniel Cully, the janitor of the hall, also deserves the thanks of every true Son of Malta for favors received at his hands. About nine o'clock we started from our sanctum, finding sleet under foot, a storm over head, and teared that the inclemency of the weather would keep that festive throng which was expected to attend, at home; but, on the contrary, we found the spacious hall filled with the foundation of the School Rionse.

[For the Srv.]

Dedication of the Mountville Grade School Rionse.

Mountville Graded School House, took place on the evening of the 18th inst., in the presence of a large number of citizens and strangers. The following officers were monimated and elected to president—b. W. Witner. Well, John Huber, John Kaufman, Sectories—Dr. G. Wash. Berntbeizel, J. Hall Fridy. The exercises were opened with prayer by S. G. Behmer and reserved by Prof. Wickersham, State Superimendent of Orphans' Schools; S. G. Behmer and Supt. David Evans. Without entering into details, suffice it to say, that the speakers did ample justice to the subjects of Education and the Common School System: eliciting the most marked attention of their hands are proved to the subjects of Directors of West Hempfield, as well as the citizens thereof, that we co keep that festive throng which was expected to attend, at home; but, on the contrary, we found the spacious hall filled with the beauty, elegance and fashion of the place. The building, though but one story high. The flush of health seemed all the richer, and the glow of beauty brighter for the cold and sleet, and the brilliant eye and light step of youth seemed to mock the Storm King. What cared we fluit the stars were obscured outside, when an hundred der the control of the Principal. The mornvere obscured outside, when an hundred were obscured outside, when an hundred eyes, far brighter, were sparkling within? Like the snow-flakes that fall from a transient cloud, only to melt into the glittering beauty of dew-drops, all went to this party cold and cheerless, but the threshold once crossed, the eye brightened and the soul warmed into joy. Perhaps the crowning-feat of the evening was the Grand March of the Sons of Malta. At "low twelve" the gong sounded, and in came the Sons dressed in the peculiar costume of that order, keeping pace to a "march" composed especially for the occasion, by Professor level together by means of a central piece. pecially for the occasion, by Professor Keffer, of Lancaster. Their appearance created much merriment, and in many intances great surprise. After the march, each member taking a lady by the hand, lanced one set and then retired, leaving their partners ignorant of who they were dancing with. It was highly spoken of as he grandest, as well as the most novel enertainment ever given in Columbia, and hose who failed to witness it missed a very deasing sight. Everybody seemed delightd, and we congratulate the Sons of Malta upon their brilliant success. They have inleed won never fading laurels. 'Inc ladies were so much please I with the affair that, at the close of the ball, many of them asked the managers if they would get up a similar entertainment at no distant day. The music was all that could be desiredbeing Keffer's Orchestra, of Lancaster, the best in the State. Many of the "Neophytes" said they never heard better or sweeter music than was discoursed on this occasion. The proceeds derived from this party will be appropriated to charitable

purposes in our town. Council Meeting - A stated meeting of the Town Council was held on Friday evening, the 17th inst. Mr. Amos S. Green President, in the Chair. Present-Messrs. Crane, Detwiler, Green, Mullen, Shreiner, Supplee and Upp. The minutes of January rd and 11th, were read and approved.

The Road Committee reported that Third street had been eindered from Cherry street to a point a short distance beyond Perry. The work is not completed, part of the street between Perry and Lawrence requiring some excavation, which cannot be done on account of the depth of the frost. Mr. Detwiler, Chairman of the Committee, appointed to procure all the documents necessary to emble the Borough Solicitor to decide whether Samuel Lylewas eligible to the office of High Constable of the Borough, reported that they had submitted the matter to Mr. North, and received the following answer: Messes. MESSIS. DETWILER, SUPPLEE AND UPP:
Gentlemen:—I have examined the Charter
of the Borough of Columbia, and failed to
find any power granted to the Borough
Council to sit as a court to try a contested
election. The qualifications and eligibility
of an officer of the Borough, elected by the
people, can only be determined by a proper
judicial inquiry, and, therefore, I have not
investigated the facts respecting the case of
our High Constable elect:
Yours truly,

H. M. NORTH,

After the reading of the Solicitor's opinion, Samuel Evans, Esq., by permission of the Council, made the following remarks;

Mr. Green, Chairman of the Finance Committee of 1867, presented a condensed statement of the Treasurer's Report for 1867, which, on motion of Mr. Detwiler, was ordered to be published twice in the papers of the Borough, and also by hand-bills.

The interior of the building is also hand-omely grained and varnished, The extensive blackboard, prepared by two heavy coats of "Pierce's Patent Shite Surface," is another commendable feature of the rooms. The windows are placed upon putleys, and the ceiling high, so that ventilation can be properly attended to. The architect, Mr. John M. Froeiich, deserves credit for his good and substantial work; he has spaned in efforts upon his part to make it reliable and lasting. The playground is, however, the most attractive teature of the case—one acre and a quarter of ground, properly enclosed, quarter of ground, properly enclosed eing devoted for that purpose. I have

a quarter of ground, properly enclosed, being devoted for that purpose. I have always argued, and do still argue, the propriety and importance of a large playground to every school house throughout the land—the advantages thereof, are so plausible and plain to all, that it is useless to dwell upon it here. Let the wise example of the West Hempfield Board, and its citizens, be followed by other townships, and the step, I warrant, will never be regretted. We are making rapid strales in other enterprises, and why shall the improvement of our school houses and the proper education of our youth be neglected? Nay! the watchword is "onward" and let us heed its purports, never learing to adus heed its purports, never fearing to advocate progression and the right! [For the SPY.] Borough Solicitor.

Berough Solicitor.

Mr. Editor.—The Republican party is certainly more generous to its enemies and renegades from other parties, than that of any party which has ever existed in this country. We could mame a number of notable examples, but will make mention of but one. The Republican members of the Town Council, who number two-thirds of that body, iceling clated and gratified that no opposition was made to most of their nomines to office by the Copperhead members, in the generosity of their souls selected Hugh M. North, Esq., a noted Copperhead, as Borough Solicitor. And what is the very first act done by him? Why to dodge, and shirk, and refuse to give an opinion upon a subject asked for by the Council; less it might affect the interest of a member of his own party. He was switted give an opinion that is student as too in the Council; less it might affect the interest of a member of his own party. He was swin to give an opinion upon a subject about which the Council did not care to know.

We are informed that he not only did this, but actually gave the Copperhead candidate for constable, private advice, which, if followed, would subvert the ends of justice, and set a precedent that would tend to endless dispute, and trouble in our Borough affairs. He wrote out an affidavit, and advised the Chief Burgess to qualify Lyle, who contume itself against the wishes of the Council. Mr. Detwiler informed the Council that he, Mr. North, also gave it as his verbal opinion that Lyle could now pay a Borough tax, assessed in 1866, which would nake him cligible—which may or may not be good law—but he rather thinks it aim't.

Before it is too late, we would advise the Council to retrace its action at its next proceeds. found it is too into, we want across the Council to retrace its action at its next meeting, and appoint a Solicitor, more in consonant with the views held by a majority of its members. This thing of the Republican party, when successful, of rewarding its encauses, should be frowned down. r. North is an able lawyer; but there ar lawyers in our own party who have equal ability, and who deserve more consideration from its. Let the Republican numbers of the Council show their plack at their

next meeting, and select another Solicitor. JUSTICE.

Legislative Record.

Mr. Editor.—I am gratified to see that some attention is being given to the definquency of the publisher of the Legislative Record. The tax-payers have always understood that this paper was intended to give the members of the Legislature, and their constituents, the earliest duily information of what transpires in either House; but it seems to be only a good fat job for a favorite Hessian, who has fattened upon office and legislative patronage for many years, without rendering any proper equivalent. We are told that the fellow is impudent withal, and threatens to vilify the members if they dare to oppose any of his schemes, which, as a professional legistive borer, he may want carried for a bribe. It is to be hoped that our members will do the people justice, and compel him to comply with his contract by delivering the Record, or else annul it. ord, or else annul it. Lancaster County."

[For the "SPY."] The Collection of Bounty Tax. The Collection of Bounty Tax.

Mr. Editon.—The law-abiding and loyal citizens of our Borough, will be much gratified in the perusal of the proceedings of Council, January 17th inst., that resolutions were offered by Mr. Detwiler to enforce the collection of the outstanding bounty tax. This move on the part of Mr. Detwiler will receive the most hearty concurrence of that portion of our citizens who have cheerfully, and from motives of currence of that portion of our citizens who have cheerfully, and from motives of patriotism, promptly paid all taxes levied for bounty parposes. The collection of the outstanding tax is a matter of simple justice; it can, when collected, be conferred agon the Borough, and the burden of our taxation will justly be shared alike by our citizens. If all present claims for bounty are paid, it is no exense for those delinquents who endeavor to shirk the duties of a citizen in not sharing its responsibilities. The prediction is not sharing its responsibilities.

Mr. Edfor.—The controversy in Countil in relation to the installation of Lyle as flight Constable, is simply verbiage. Every fact presented before the Council proves his disqualification for the office. The Borough Charter specifically requires that all officers shall be electors of the Borough. The fact is proven that he had not the right to vote, in not being assessed,—consequently not a qualified voter in conformity with our Borough Charter. To illustrate our point, suppose Bill Stutth, (colored,)—and by the way, as good and crue in Democrat as Mr. Lyle, had have received the vote of the Democracy, and indeed there could be no objection why Bill should not receive their saftage, as he has on several occasions viadicated their cause with energy—been elected or had received a plurality of votes; would be have been qualified for the office? There could possibly be no difference as regards the qualification of disqualification of cither gentlemen, as they are simply unqualified in not being electors, and in conformity with the requirements of our Charter. UNION PACIFIC RAILROAD RUNNING WEST FROM OMAHA CROSS THE CONTINENT

ARE NOW COMPLETED! THE TRACK BEING LAID AND TRAINS RUNNING WITHIN TEN MILES OF THE SUMMIT OF THE ROCKY MOUNTAINS.

The remaining ten miles will be finished as soon as the weather permits the road-bed to be sufficiently packed to receive the rails. The work continues to be pushed forward in the rock cuttings on the western slope with analotted energy, and a much larger force will be employed during the current year than ever before. The prospect that the whole GRAND LINE TO THE PACIFIC as never better. The means so far provided for instruction have proved ample, and there is no cit of funds for the most vigotous prosecution the enterprise. These means are divided into

1.-UNITED STATES BONDS, 1.—UNITED STATES BONDS,

Having thirty years to run, and bearing six persent, currency interest, at the rate of \$16,000 per mile for 517 miles on the Plains; then at the rate of \$38,000 per mile for 159 miles through the Rocky Mountains; then at the rate of \$2,000 per mile for the remaining distance, for which the United States takes a second teans security. The interest on these Bonds is puid by the United States forcernment, which also pays the Company one-half the amount of its bills in money for transporting its freight, troops, mails, &c. The remaining half of these bills is placed to the Company's credit, and forms a sinking fund which may finally discharge the whole amount of this life.

2.—FIRST MORTAGES BOXOS.

By its charter the Company is permitted to such, own First Mortage Bonds to the same mount as the bonds issued by the government, and romagness. The tractes for the Bondsholders, are the Hon, E. D. forgan, U. S. Sonntor from New York, and the Bon, Oakes Ames, Member of the U. S. House of top a sentiatives, who are responsible for the devery of these Bonds to the Company, in accordance with the terms of the law. 3.—THE LAND GRANT. The Union Pacific Railroad Company has a land grant or absolute immaton from the government of 12,800 acres to the inite on the line of the road, which will not be worth less then \$1.50 per acre, at the lowest valuation.

4.—THE CAPITAL STOCK.

The Means Sufficient to Build the Road 

7, 8, Bonds. First Morigage Bonds. Tapital Stock paid in on the work now ..-53,276,000 Pac Company have ample facilities for supplying my defeancy that may acke in means for con-struction. This may be done wholly or in part by additional subscriptions to capital stock. FARNINGS OF THE COMPANY.

At present, the profits of the Company are derived only from its local traffic, but this is already nuch more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is complete it the through traffic of the only line connecting the Athanic and Pacific States will be large beyond precedent, and, as there will be no competition, it can always be done at profitable rates.

If will be noticed that the Union Pacific Raltical is fact, a five remeal Work, built under the supervision of Government officers, and to a large exent with Government money, and that its Bonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger or more valuable property. As the Company's FIRST MORTGAGE BONDS,

are officed for the present at NINETY CENTS ON THE DOLLAR; they are the cheapest scenarity in the market, being more than 15 per cent, lower than B, S. Stocks. They pay SIX PER CENT. IN GOLD, SIX PER CENT. IN GOLD, or over NINE PER CENT, upon the investment, and have thirty years to run before maturity. Subscriptions will be received in Columbia, by SAMUEL EVANS, Esa, and in New York at the Company's Office, No. 20 Nassau street, and by Continental National Earls, No. 7 Nassau st, Clark, Dodge & Co., Bankers, No. 3 Wall street, John J. Usco & Son, Bankers, No. 3 Wall street, and by the Company's advertised Agents throughout the United States. Renditances should be made in drafts or other funds par in New York, and the Donds will be sent free of charge by return express. Patties subscribing through Lecal Agents will leak to them for their safe driftery. nie delivery.

A New Pamphlet and Man, showing the Pro-ress of the Work, It sources for construction, and Value of Bonds, may be obtained at the company's Offices, or or its advertised Agonts, or will be sent free on application.
