State Legislative Proceedings. Mr. Wilson, from the Railroad Committee esented an act "to authorize the formation of railroad corporations."

Section 1st of this bill provides that any number of citizens not less than nine may form a company for railroad purposes, the conveyance of persons and property, &c.; that the capital stock of the company shall not be less than ten thousand dollars for every mile of road, and it provides for the officers and directors of the road; names their powers, duties, &c.

Section 2d. Articles of as not be filed and recorded in the office of the Secretary of State, until at least two thousand dollars of stock for every mile shall have been paid in, when an affidavit made by at least three directors that it is intended in good faith to construct, maintain and operate said road shall be attached. The act then names the restrictions and liabilities of the company.

Section 8th, Provides that any-such railroad shall have power to borrow money not exceeding twenty thousand dollars pe mile, and that bonds may be issued there for at a rate of interest not exceeding seven

per cent.
Authority to construct branches from main line are also given; also the right to cross the track of any other railroad, providing that the cost of making and keeping such crossing in repair shall be borne by the road crossing the track of another, and that provision against accidents also be made. No director, officer, or employee of any such road shall have any interest, direct or indirect in any express freight line, or other business on said road.

Mr. Boyd, from the Committee on Education, presented an act "to authorize the School Directors of the borough of Bellevue, Allegheny county, to borrow money and to levy a tax for the repayment of the

same."
Mr. McConaughy, of Adams—a supplement to the election laws, requiring clerks of elections to keep a register of the names and dates of certificates of naturalization, time and place of the court granting the same and the officer certifying, in all cases of voting by naturalized citizens. ed to a third reading.: Mr. Armstrong introduced a resolution pointing A. W. Ellins transcribing clerk. He alleged that an understanding had been entered into by the Republican conference that he should have this appointment. Mr. Ford, of Allegheny, denied that the Republicans had bargained with the dissenting Republicans to come over to Mr Davis. The resolution was defeated, nearly

all the Republicans voting against it. Mr. Armstrong then offered the following:

WHEREAS, It appears from the act of incorporation by the Maryland Legislature, and the resolutions of the Board of Trustees of the Antiteum Cemetery, that it is intended that the robel dead who sell in the late unholy struggle against the life of the nation, are to be interred within the same enclosure, and receive the same honors as bestowed by loyal hearts and hands upon the loyal dead; therefore and receive the same honors as bestowed by loyal hearts and hands upon the loyal dead; therefore and receive the same holyal dead; therefore that one worthy Chief Magistrate has by the noise and parallels stand he has taken for the noise and parallels stand he has taken for the noise and parallels stand he has taken for the noise and parallels. Red Men's Hall. The hall erected by the Improved Order of Red Men, at the S. W. corner of Third: and Brown streets, Philadelphia, has just been completed. On the fourth of June last, the corner-stone was laid, and now the building, the largest of the Order in the United States, is ready for occupancy. It has a front of eighty feet on Third street, and one hundred and ten feet on Brown street, and the height of building one hundred and ten feet. The basement is divided into five small stores, three facing Third street and two on Brown. On the first floor, fronting on Third street, there are three large stores. The other parts of the building are divided into a dining room, 82 by 27 feet; kitchen; ball room, 80 by 80 feet, with retiring rooms; five large galleries; saloons, parlors, &c., and eleven large rooms, with committee apartments, &c. The ball room is far superior to any otherin the city. The coiling is 28 feet high, and from the room entrance can be had to the parlor, sitting-room, and refreshment saloon. Immediately under the roof is a large reservoir, containing 600 gallons of water, kept constantly filled in case of fire. It required 1,400,000 bricks, and more than 200. 000 pounds of iron to erect this structure, which has cost the order at least \$180,000 The inside, as well as the outside appearance of the building, is handsome, and the structure itself is a credit to the Order of Red Men, and an ornament to the city of

The Generals and the Copperheads. Gen. Grant, Gen. Sheridan, Gen. Mende, Gen. Sherman, Gen. Sickles, Gen. Pope, and all the other distinguished and earnest officers of the Union army, says the Lebanon Courier, are not favorites of the "Democratic" party. The leaders of that party never permit an opportunity to cast reflections on them to go unimproved. On the other hand, Gen. Lee, Gen. Breck-

enridge, Gen. Early, Gen. Beauregard, and 'all the other perjured traitors who headed the war on the nation's existence, are highly regarded by that party. In a discussion in he Legislature of Pennsylvania, the other day, the loyal sontiment of our State was nsulted by the Democrats boldly enlogizing Lee, and in effect justifying the infamous cause on which he took side. The Democratic party seems to be so wedded to its Southern idol as to be unable to rise to a patriotic atmosphere. That any lover of his country should be found co-operating with such a party seems to be one of those phenomenons of nature that can be explained on no rational grounds.

READING, January 29th, 1868.

Our city is dall at present, but I will endeavor by the events of the past week, to make up a letter.

The case of the United States vs. Sedel and Phillips, of Hamburg, this county, for illicit distilling, resulted in a verdict for the Government: property appraised at \$2,037.50.

The oldest house in this county is said to be a stone building in Douglassville. It was built by a family from Sweden, and bears the inscription, "A. D. 1716."

The daily newspaper mania is at its height. There is no knowing how many will be issued, but I am certain it won't pay. The Times being the oldest daily paper in the city; will be able to hold its own. The Dispatch appears to be in a flourishing condition. The Daily Eagle made its first appearance last evening, and like all Copperhead sheets looks dull, being made up from the other two dailies. Major Getz announces that the Daily Gazette will be published on Monday, February third. He makes no promises, and of course no one will be disappointed. Madame rumor says that the able editors of the Journal, the Republican organ of this county, have a daily in contemplation. I anticipate a lively time among yeeditors, for the coming three months.

lively time among ye editors, for the coming three months.

The all-absorbing topic of conversation is the Soldiers' Fair, for the benefit of the widows and orphans of our deceased Union Soldiers, under the auspices of Post No. 16, Grand Army of the Republic, now being held in this city. The decorations of the hall are very artistically arranged; each table is covered with an arch of evergreens and American flags. The display in the various departments is very large. The attendance thus far has been better than expected, and I suppose nearly three thousand dollars will be realized by Saturday, were invited, of whom Governor Geary, General Fisher, of Columbia, Ex. The Connellsville Railroad. The Sapreme Court, sitting in Philadel hia, has declared that the act repealing he charter of the Connellsville Bailroad Company is unconstitutional. The opinion vas delivered on Tuesday morning by Judge Sharswood, and it appears it is the manimous decision of the Court. It also leclares the charter with all .rights and privileges restored. This just, though long elayed, restoration, will be hailed with lelight by all good citizens, those who favor the unrestricted opening of public highways

calculated to benefit the people and State, and are opposed to monopolies of every kind. The work of completing the opening of this important outlet will, no doubt, no be commenced immediately, and pushed vigorously forward. It is a matter of remark that with this news we have also the intelligence that in our State Legislature the bill for the restoration of the charter came up the same forencon, and was object ed off the calendar, the representatives of the people-or some of them-acting in

direct opposition to the popular will. The irrepressible Sloanaker, recently appointed special agent of the Treasury for fexas, is already actively at work as member of the Conservative Convention now in session at Houston, in that State. He commenced operations, as we learn from Flake's Galveston Bulletin, by declaring that " all rebels must take a back seat, and y insisting that reconstruction laws were the constitutional laws of the land, and that they must submit to them as good citizens." Is a soothing expectorant, prepared to meet the urgent need of a safe and reliable cure for discusses of the throat and lungs. A trial of many years has established the fact, that it is more efficacious in pulmonary affections, than any other remedy. Hyefficacy has now become so generally known, that it is justly regarded in many countries as a medicine of indispensable necessity. In Great Britain, France, and Germany, where medical science has reached its highest perfection, it is prescribed in domestic practice, and constantly used in the armies, in hospitals and other public institutions, where it is regarded by the attending physicians as the most speedy and agreeable remedy that can be employed. Scarcely any neighbore remedy that can be employed. Scarcely any neighbore for an electronic doctors, have been permanently cured by it. These results are the most convincing process of the superior curative properties of this preparation; and to then the authors points with peculiar satisfaction. While it is most powerful against confirmed diseases, it is extendibly gentle as a medicine in infancy and youth, being quite harmless to even the youngest, when administered judiciously.

This health-restorer accomplishes even more by provention than cure. If taken in season, it heals all irritations of the threat and lungs, whether arising from Colds or Coughs, or from other causes, and thus prevent that long train of painful and incurable diseases, which would arise from the neglect of them. Hence no family should be without it. Influenza, Croup, Hoarseness, Whooping Cough, Pleurisy, Incipicat Consumption, and other affections of the breathing organs, give way before this pre-eminent combination of medical virtues.

The Facts as they are:

We began in 1841 to make improvements in the style and make of Ready Made Clothing, and continued to do so, introducing new styles and ideas every year, so that the online character of the business is now vastly better and totally different from the systems of older houses.

Our first idea is to learn exactly WHAT THE CUSTOMERS WANT and Justend of persuading him to buy what may be most conveniently at hand, we take the utmost pains to meet IIIS wishes.

The building we occupy is the MOST CONVENIENT SIZE, TARGEST AND BEST ADAPTED for our business of any in Philadelphia

my in Finiaccipina
Costomers can see what they are
puying, our Establishment being on
the corner of three large streets, Market, Sixth and Minor streets, abuntant light is afforded from all direccions. A light store is far better for
customers than a dark one.

Merchants know that our sales are larger than those of any other house in Philadelphia, in our line: hence we have to buy larger quantities of goods, and so get them at lower prices, especially as we buy altogether for cash Buylng cheapest, we can sell cheapest.

We closely examine every inch of goods that comes into our Establishment, invariably rejecting all imperfect, moth-caten and tender fabrics

The time wasted in looking over the stocks of a dozen stores can be movided, for, under one roof, we offer for sale an assortment equal in variety and extent to that embraced by a score of the ordinary houses.

DEDUCTIONS,

A firm composed of young men of the present generation, fully in sympathy with the tastes

generation, fully in sympathy with the tastes of the day.

An insight to the wants of the people and an enterprise to meet these wants, which in seven years has placed Oak Hall in a position not always attained in experience of twenty-five years.

Financipina kinoring has been particularly finite int. It is the liberal patronage with which we have been favored that has enabled us to offer the unparalleled advantages, and this patronage continued and extended will multiply advantages, which we divide between our outstomers and ourselves.

every medicine and did everything I could. I had o rest my arm on a cushion, and had not been able charge from two ulcers was nearly a pint a day. Amputation was recommended; but pronounced dangerous. I could not sleep, and my sufferings were intolerable. A friend brought me an English physician who applied a salve with which he said he had accomplished extraordinary cures in the hospitals in England. It commenced to relieve: I persisted in its use; it finally effected a perfect and entire cure. It is now 1848. It is five years since I had the appearance of a scrofulous sore, and my health has been good ever since.
