Congressional Proceedings. A bill providing for the gradual redu tion of the army and the discontinuance of unnecessary grades was referred to the Committee on Military Affairs. A joint resolution was passed placing certain Missouri troops on an equal footing with others regarding bounty. A resolution was adopted directing the Secretary of War to transmit all information to the House relative to the limitation of his authority by the Executive. The resolution regarding the instructions given Generals Pope and Meade by the President, after being amended, was adopted. A joint resolution was referred to the Committee on Naval Affairs relative to the promotion of retired commodores to be rear admirals on the retired list. A resolution was referred to the Committee of Ways and Means, reciting the inexpediency attempting, by treaty, to regulate duties on imports. The House then proceeded to the ration of the bill declaring forfeited to the United States certain lands granted to aid in the construction of railroads, which, after a long debate, went over temporarily. A bill to constitute San Antonio, Texas, a port of delivery, was referred to the Committee on Commerce. A resolu-tion authorizing the Secretary of War to employ counsel to defend Generals Meade and Ruger was adopted. A bill relative to the Winnebago Indians was referred to the Committee on Indian Affairs. A bill to extend the pre-emption and homestead laws was referred to the Committee or Public Lands. Mr. Beatty, member elect from Ohio, appeared, and had administered to him the usual oath of office. The bill thorizing the building of a railroad from Washington city to connect with the Northern Central Railroad was ordered to be printed and recommitted. The Judiciary Committee had referred to it the bill regarding persons turning State's evidence. The hill forfeiting land granted in aid of railroads in Alabama, Mississippi, Louisiana, and Florida, was taken up and passed by a vote of 86 to 72. The House proceeded to the consideration of the bill concerning the rights of American citizens abroad

reading. The House passed the West. Point Academy Appropriation bill. State Legislative Proceedings. An act was offered making it unlawful to tax moneys at interest, or stocks for county, municipal, or school purposes, at a higher rate than three-tenths per cent, of the assessed value; referred to the Finance Committee. An act was passed relative to insurance companies, reciting that all the promises of the law of April 27, 1857, shall apply to life and accident insurance companies. A bill was passed extending the line for the completion of the Columbia and Octorara railroad. The free railroad law has passed in the House, and it now goes to the Senate. A bill was referred to the Railroad Committee making it unlawful to heat cars with inflammable matter.

Nothing definite was done in the matter.

Advancing of Union Pacific Bonds We learn from the officers of the Union Pacific Railroad Company that the price of the Company's First Mortgage Bonds has been advanced from 90 to 95 cents on the dollar, and that they will probably be placed at par before long. The sales of these bonds during the past few months have been very large; ton million dollars having been already disposed of to parties throughout the country. So active was the increas ing demand for these securities that it was probable that five millions more would be sold in the first week of February, if the has been frequently asserted in the advertisements of the company, and in our adiforial columns, that the price would probably be advanced, and those who took the hint, and bought at 90, may now see the wisdom of so doing. The Company is now in high credit, and has a handsom surplus of cash on hand for the futur scution of the work of construction. We are gratified at these evidences o complete prosperity on the part of this great corporation.

Railroad Accident. The fast line east on the Pennsylvan railroad, on Friday morning, 31st ult., had avecars thrown from the track by a broken liberally remunerated. Men with families, rail, about sixty miles east of Huntingdon and three of them were overturned down an embankment, and afterwards one of them caught fire from the candles, as is supposed, communicating the flames to the two others, and destroying the whole three. The engine, baggage car, express car, and two passenger cars passed over safely, but the five rear cars of the train were wreck ed, upsetting the popular theory that the place of safety is in the rear cars of a train. One person was killed, a lady from Pitts burgh and two seriously injured; soveral others slightly injured

. Whisky Copperheads. There is a terrible fluttering among the whisky Copperheads of New Orleans. It is reported that General Steedman, collector of Internal Revenue for New Orleans, who has wielded such immense influence in that city in the distribution of the patronage of the President, has determined to resign, and this news creates great excitement and consternation among the officials. A New Orleans correspondent, under the date of the 29th ultimo, referring to this subject,

says: "In whisky alone the frauds at this ort amount to more than four and a half millions of dollars from May to November, 1867. The calculation that I saw was made allowing fifteen barrels as an average foreach distillery. Although there is none licensed under ten barrels, some make from fifty to sixty barrels daily, and you may calculate the amount when you think that of this number the tax on only twentythree and a half barrels has been paid during all that time. The following is the estimate by a New Orleans whisky man

who professes to know: -30 distilleries licensed, making 15 barrels of whisky per day.

450 barrels per day. 40 galls, per bbl. was actually made, whic makes 18,000 gallons per day. 250 days running through the year.

A genuine live gorilla, says an exchange, is now on its way from Africa, to the London Zoological Society. It was captured by a native; who suddenly came upon a family groupe of the animals. The mother, contrary to what might have been expected, abundoned her "baby" and ran off. Well, London will have no more of a curiosity than Columbia. We, too, have a genuine live gorilla, which may be seen on our streets daily, exhibiting its low-lived and disgusting carcass. It smokes segars with the gusto of a man. It, in league with an o-rang-ou-tang, prints a Copperhead paper, and weekly her ilds to our good people price had been allowed to remain at 90. The Port grape is now cultivated in this country for a wine unexcelled by any other, in its mellow juiciness, richness of flavor, and brilliancy of color. The grape has been brought to a perfection never attained in Portugal, by Mr. A. Speer, in his vinogard, New Jersey. Physicians say it is superior to imported Port for invalids, and in summer it is more agreeable and refreshing than claret. It pretends to remove them at the expense of making many bankrupt. If it succeeds, a thorough revolution will necessarily take place in our banking system, and where could we find another to equalit? It might succeed in wiping away the principal, as has well been said, but who would care to see the principal, and interest of our public debt extinguished by financial panic and embarrassment? To state the question in other words, who wishes to leave the beaten highway in order to wade through a quagmire, because the latter would be the shortest road to his destination? SPECIAL NOTICES.

TAYER'S CHERRY PECTORAL.

Is a soothing expectorant, prepared to meet, the tirgent need of a safe and reliable enro for diseases of the throat and lungs. A trial of many years has established the fact, that it is more efficacious; in pulsarious and interest than any other remedy. Its efficacy has now become so generally known, that it is justly regarded in many countries as a medicine of Indispensable necessity. In Great Britain, France, and Germany, who re medical science has reuched its highest perfection, it is prescribed in domestic practice, and constantly used in the armics. In he spitals and other public institutions, where it is regarded by the attending physicians as the most speedy and agreeable remedy that can be employed. Scarcely any neighborhood can be found where well-known cases of diseased lungs, which had baffled the efforts of the most skillful and experienced doctors, have been percanently cured by it. These results are the most convincing proofs of the superior curative properties of this preparation; and to them the authors point with peculiar satisfaction. While it is most powerful against confirmed diseases, it is extrainely genite as a medicine in infancy, and youth, being quite barmless to even the youngest, when administered judiciously.

This health-restorer accomplishes even more by prevention than cure. If taken in season, it heals sall irritations of the throat and lungs, whether arising from Colds or Coughs, or from other causes, and thus prevent that long train of painful and incurable diseases, which would arise from other causes, and thus prevent that long train of painful and incurable diseases, which would arise from other causes, and thus prevent that long train of painful and incurable diseases, which would arise from other enues, and thus prevent that long train of painful and incurable diseases, which would arise from other causes, and thus prevent hat long train of painful and incurable diseases, which would arise from other causes, and thus prevent hat long train of pa AYER'S CHERRY PECTORAL

HALL'S VEGETABLE

SICILIAN HAIR RENEWER HAS STOOD THE TEST OF SEVEN YEARS BEFORE THE PUBLIC:

And no preparation for the hair has yet been discovered that will produce the same beneficial results. It is an entirely new scientific discovery, combining many of the most powerful and restorative agents in the VEGETABLE KING-DOM. It restores

GRAY HAIR TO ITS

ORIGINAL YOUTHFUL COLOR. It makes the scalp white and clean; cures dand ruff and humors, and falling out of the hair; any will make it grow upon bald heads, except in very aged persons, as it furnishes the nutritive principle by which the hair is nourished and supported. It makes the lair moist, soft, and glossy, and is unsurpassed as a HAIR DRESSING. It is the cheapest preparation ever offered to the public, as one bottle will accomplish more and last longer than, three bottles of any other preparation.

IT IS RECOMMENDED AND USED BY

THE FIRST MEDICAL AUTHORITY in site of Arith of The wonderful results produced by our SICIL-IAN HAIR IENEWER have induced many to manufacture preparations for the Hair, under various names; and, in order to induce the trade and the public to purchase their compounds, they have resorted to falsehood, by claiming they were former partners, or had some connection, with our AR, HALL, and their preparation was similar to ours. Do not be deceived by them. hem. Purchase the original; it has never yet been equalled.
Our Treatise on the Hair, with certificates, sent free by mail.

See that each BOTTLE has our private REVENUE STAMP over the top of the bottle. All others are imitations.
